# Rejlers signs agreement with Agder Energi

**Agder Energi and Agder Energi Nett have utilized two options in the framework agreements for engineering services with Rejlers' Norwegian operations. The options have an estimated contract value of NOK 45 million. Since experienced engineers are something of a rare commodity these days Agder Energi secures access to expertise by these framework agreements.**

Within the frame of the agreements Rejlers will deliver consulting services in electric power and energy. Rejlers will also inspect and carry out audits in electrical systems and educate about electrical safety issues in schools.

"These are important and large agreements for Rejlers Norway. We look forward to continue developing our good cooperation with Agder Energi Nett which is one of Norway's most innovative network operators", says Morten Thorkildsen, CEO Rejlers Norway.

"We are very pleased with this agreement that gives us access to competent engineers with cutting edge experience", says Svein Are Folgerø, CEO Agder Energi Nett.
