

**Stock Exchange Release
Talvivaara Mining Company Plc
26 November 2013**

Incorrect information in the Finnish press concerning Talvivaara's application for corporate reorganisation

Due to incorrect information in the Finnish press, Talvivaara Mining Company Plc. ("Talvivaara") announces that there has been one withdrawal from the support, by Nyrstar Sales and Marketing AG, to the application for corporate reorganisation by Talvivaara Sotkamo Ltd. The Espoo District Court has received no other withdrawals.

Talvivaara continues assessing the situation in good cooperation with the Espoo District Court.

Talvivaara Mining Company Plc

Talvivaara Mining Company is an internationally significant base metals producer with its primary focus on nickel and zinc using a technology known as bioheap leaching to extract metals out of ore. Bioheap leaching makes extraction of metals from low grade ore economically viable. The Talvivaara deposits comprise one of the largest known sulphide nickel resources in Europe. The ore body is estimated to support anticipated production for several decades. Talvivaara has secured a 10-year off-take agreement for 100 per cent of its main output of nickel and cobalt to Norilsk Nickel and entered into a long-term zinc streaming agreement with Nyrstar. Talvivaara is listed on the London Stock Exchange Main Market and NASDAQ OMX Helsinki. Further information can be found at www.talvivaara.com
