

Press release  
Stockholm, 28th of November 2013

## **TRUSTBUDDY – Building infrastructure to accommodate for new products and banking license.**

TrustBuddy is in a transformational stage whereby the company is building up an infrastructure of new personnel and technologies to accommodate new P2P products and the applied banking license. TrustBuddy has invested heavily in the infrastructure development during 2013, funded through running profit. This is a natural progression of the company, increasing the cost base marginally to increase the turnover solidly.
