

## PA Resources' Production Report for November, 2013

### Average production of oil per day\*

(barrels per day)	Year to date, 2013	November, 2013
West Africa	4,000	2,600
North Africa**	600	500
<b>Group Total</b>	<b>4,600</b>	<b>3,100</b>

\* Production based on Working Interest, which is PA Resources' share of the total gross production of the oil fields before deduction of royalty and taxes etc. Production figures are preliminary.

\*\* Subject to the necessary approvals, PA Resources working interest in the Didon field in Tunisia has been reduced from 100% to 30% through the farm-out transaction with EnQuest. The production numbers have been retrospectively adjusted to a 30% interest as per 1 January 2013

- Production from the Didon field restarted on 24 November and production averaged 776 barrels per day during the first week.
- Production from the Azurite field ceased on 1 November. Field abandonment is already well advanced.
- PA Resources will publish a monthly production report for December 2013, but production figures will thereafter only be reported on a quarterly basis.

Stockholm, 6 December 2013
