Arcam receives order from Aerospace industry in the US

Arcam, listed on NASDAQ OMX, has received an EBM system order from a major aerospace industry client in the US. The system will be used for aerospace components.

”This new order strengthens our position as a supplier to the aerospace industry. We expect that the aerospace market will continue to grow for us during the coming years”, says Magnus René, CEO of Arcam.

The above information has been made public in accordance with the Securities Market Act and/or the Financial Instruments Trading Act. The information was published on January 22, 2014.
