Formpipe receives order from Uni-C, Danish agency for IT and Learning, worth SEK 3,6 million

Uni-C (Danish agency for IT and Learning) and Formpipe signs a supplementary agreement for development of an application to ease the process of applying for higher education in Denmark. The total order value amounts to SEK 3,6 million, and the agreement covers development of the module.

The solution will include extensions for "Optagelse.dk" a portal that handle student's applications for higher education in Denmark. This is a market with increasing attention due to the extensive reforms in Denmark within the education area. The module will be developed and released during 2014.

Formpipe have previously developed several similar application solutions, with high volumes of applications and can reuse its knowledge to deliver quality solutions within tight deadlines.

"The need for efficient e-governance leads to further investments in existing or new ECM solutions in the public sector. Our products enables our public sector customers to offer more service for less money, such as self-service, automated and digitized processes", says Christian Sundin, CEO of Formpipe .

Uni-C and Formpipe have for several years developed the portal Optagelse.dk to handle student's applications for higher education in Denmark.
