IMPORTANT NOTICE:

This prospectus (the "**Prospectus**") has been prepared by Icelandair Group hf. (the "**Issuer**", or the "**Company**" or together with its direct and indirect subsidiaries unless otherwise indicated by the context, the "**Group**"), a public limited liability company incorporated in Iceland, having its headquarters located at the address, Reykjavik Airport, 101 Reykjavik Iceland, with reg. no. 631205-1780, in relation to the application for the listing of the senior unsecured floating rate bonds denominated in USD (the "**Bonds**") on the corporate bond list on NASDAQ OMX Stockholm Aktieföretag, reg. no. 556420-8394 ("**Nasdaq Stockholm**"). In this case a short description of the Section is included in the summary with the mention of "not applicable".

Any decision to invest in the securities should be based on consideration of the Prospectus as a whole by the investor. Civil liability can only be imposed on those persons who have put forward the summary including any translation thereof, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Prospectus or it does not provide, when read together with the other parts of the Prospectus, key information in order to aid investors when considering whether to invest in such securities.
SECTION B – ISSUER		
B.1	Legal and commercial name:	Icelandair Group hf., reg. no. 631205-1780.
B.2	Domicile, legal form, legislation and country of incorporation:	Icelandair Group hf., is a public limited liability company incorporated under the laws of Iceland and governed by Icelandic law.
B.4b	Tendencies:	<p>Air travel passenger growth has historically tracked GDP growth closely, however at a multiple in excess of 2x. Long-term forecasts point to a continuation of this trend, with global airline traffic expected to grow at nearly 5 per cent p.a. over the period 2015-2034. In the long run, air travel has shown strong resilience to demand-side shocks such as the Gulf Wars, 9/11 attacks, SARS or the global financial crisis.</p> <p>Following a steep downturn in the wake of the global financial crisis, the Iceland economy has recovered strongly in recent years. GDP grew solidly in excess of the world average in 2015, with outperformance expected to continue over the coming years due to growth in imports and exports, fuelled in particular by the tourist industry. The inflation has stabilised.</p> <p>Following the financial crisis, tourist arrivals to Iceland fell in 2009 and 2010 but recent years have seen a remarkable turnaround in this statistic. The number of tourist arrivals to Iceland reached nearly 1.3 million in 2015, representing growth of more than 30 per cent over</p>

		2014 and a more than two-fold increase over 2011 and approximately 98 per cent of tourist arrivals are through Keflavik. Revenues from tourism to Iceland more than doubled between 2010 and 2015, from USD 1.4 billion to USD 3.2 billion.

SECTION D – RISKS		
D2	Key risks specific to the Group and its industry:	Investing in the Bonds involves inherent risks. A number of risk factors and uncertainties may adversely affect the Issuer and the Group. The risks presented herein are not exhaustive, and other risks not discussed herein, not currently known or not currently considered to be material

		<p>may also affect the Group’s future operations, performance and financial position, and consequently the Group’s ability to meet its obligations under the Terms and Conditions. Further, the risk factors are not ranked in order of importance. Potential investors should consider carefully the information contained in this section and make an independent evaluation before making an investment in the Bonds.</p> <p>Market risk The Group is exposed to general market risk, i.e. fluctuations in market prices such as fuel prices, exchange rates, interest rates and carbon prices can materially impact the Group’s profitability. The failure to control such risks will have a negative impact on the Group and consequently adversely affect the Group’s earnings and financial position.</p> <p>Foreign currency risk The Group is exposed to currency risk on sales, purchases and borrowings that are denominated in currencies other than the respective functional currencies of Group entities. Should the Group be unsuccessful in managing its exposure to foreign currency risks, the Group’s results of operations and financial position will be materially and adversely affected.</p> <p>Liquidity risk The Group faces the risk of having insufficient working capital to meet payments, e.g. due to inability or difficulties in liquidating its assets. There is a risk that the Group’s liquidity policy proves to be insufficient. If liquidity risks are materialized, it risks having a material adverse effect on the Group’s business, results of operations, financial position and future prospects.</p> <p>Credit risk The Group is exposed to credit risk linked to the amount of outstanding trade receivables, allocation of liquid funds, security payments, and agreements with financial institutions relating to financial operations, e.g. credit support annexes concerning hedging. There is a risk that adverse changes in the credit quality of the Group’s customers or other counterparties will affect the recovery and value of the Group’s assets and other provisions and consequently adversely affect the Group’s earnings and financial position.</p> <p>Airport access The Group operates an international route network based on a hub and spoke concept. This makes access to the right airports in its defined geographical market vital to maintain and open up gateways to large and competitive markets. At some airports, an air carrier needs landing and take-off authorisations (slots) before being able to introduce new services or expand its existing services. If the Group is not able to secure and retain slots, it could be restrained from competing in valuable markets. Further, access to airports is vital to minimize the likelihood of delays. Should any of the risks described above materialize, there is a risk that the Group’s results of operations and financial position will be materially and adversely affected.</p>
--	--	--

		<p>Competition The Group faces intensive competition in all its fields of activities. The airline aspect of the Group's operations includes both scheduled and charter services for passengers and freight. The level of competition amongst airlines is high, and pricing decisions are heavily dependent on competition from other airlines. Should competition increase even further in any of the Group's key transport markets, including the Icelandic market, it risks having a considerable negative effect on the Group's profitability.</p> <p>Reassessment of taxes On 15 April 2015 the Internal Revenue Board issued a ruling where a decision made by the Director of Internal Revenue was confirmed. The ruling disallows the Group to recognize as expenses for tax purposes certain interest expenses on loans that were transferred to the Group as a result of a reverse acquisition in 2006. The management does not agree with the ruling and an appeal to the District Court of Reykjavik is in process. The effect of the ruling has not been recognized in the financial statements, but if the court case will be lost the Group's equity would be reduced by USD 7.9 million, thus negatively affecting the Group's financial position.</p>
D.3	Key risks specific to the securities:	<p>Refinancing risk The Group may eventually be required to refinance certain or all of its outstanding debt, including the Bonds. The Group's inability to refinance its debt obligations on favourable terms, or at all, risks having a material adverse effect on the Group's business, financial condition and results of operations and on the bondholders' recovery under the Bonds.</p> <p>Interest rate risks The Bonds' value depends on several factors, one of the most significant over time being the level of market interest. Investments in the Bonds involve a risk that the market value of the Bonds will be adversely affected by changes in market interest rates.</p> <p>The market price of the Bonds may be volatile The market price of the Bonds will be subject to significant fluctuations in response to actual or anticipated variations in the Group's operating results and those of its competitors, adverse business developments, changes to the regulatory environment in which the Group operates, changes in financial estimates by securities analysts and the actual or expected sale of a large number of Bonds, as well as other factors. In addition, in recent years the global financial markets have experienced significant price and volume fluctuations, which, if repeated in the future, will adversely affect the market price of the Bonds without regard to the Group's operating results, financial condition or prospects.</p> <p>Risks relating to the Bonds being unsecured The Bonds constitute unsecured debt obligations of the Issuer. If the Issuer is subject to any foreclosure, dissolution, winding-up, liquidation, recapitalisation, administrative or other bankruptcy or insolvency proceedings, all of the Issuer's secured obligations must first be</p>

	<p>satisfied, potentially leaving little or no remaining assets in the Issuer for the bondholders. As a result, there is a risk that the bondholders will not recover any or full value. The bondholders will only have an unsecured claim against the assets (if any) in the Issuer for the amounts under or in respect of the Bonds, which means that the bondholders normally would receive payment (pro rata with other unsecured non-priority creditors) after any priority creditors have been paid in full.</p> <p>Subsidiaries, structural subordination and insolvency of subsidiaries A significant part of the Group's assets and revenues relate to the Issuer's subsidiaries. The subsidiaries are legally separated from the Issuer and the subsidiaries' ability to make payments to the Issuer is restricted by, among other things, the availability of funds, corporate restrictions and law. Furthermore, in the event of insolvency, liquidation or a similar event relating to one of the subsidiaries, all creditors of such subsidiary would be entitled to payment in full out of the assets of such subsidiary before any entity within the Group, as a shareholder, would be entitled to any payments. Thus, the Bonds are structurally subordinated to the liabilities of the subsidiaries. There is a risk that the Group and its assets will not be protected from any actions by the creditors of any subsidiary of the Group, whether under bankruptcy law, by contract or otherwise. In addition, defaults by, or the insolvency of, certain subsidiaries of the Group could result in the obligation of the Group to make payments under parent Group financial or performance guarantees in respect of such subsidiaries' obligations or the occurrence of cross defaults on certain borrowings of the Group.</p> <p>Currency risks The Bonds will be denominated and payable in USD. If bondholders holding Bonds measure their investment return by reference to a currency other than USD, an investment in the Bonds will entail foreign exchange-related risks due to, among other factors, possible significant changes in the value of the USD relative to the currency by reference to which investors measure the return on their investments. This could decrease the effective yield of the Bonds to below their stated coupon rates and could result in a loss to investors when the return on the Bonds is translated into the currency by reference to which the investors measure the return on their investments. Government and monetary authorities may impose (as some have done in the past) exchange controls that risks adversely affecting an applicable exchange rate or the ability of the Issuer to make payments in respect of the Bonds. As a result, there is a risk that investors receive less interest or principal than expected, or no interest or principal at all.</p> <p>Risks relating to the clearing and settlement in Verdipapirsentralen ASA (VPS)' book-entry system The Bonds will be issued in uncertificated and dematerialized book-entry form in the electronic register of Verdipapirsentralen ASA's account-based system, and no physical notes will be issued. Clearing and settlement relating to the Bonds is carried out within Verdipapirsentralen ASA's book-entry system as well as payment of interest and repayment of the principal. Investors are therefore dependent on the functionality of Verdipapirsentralen ASA's account-based system.</p>

RISK FACTORS

Investing in the Bonds involves inherent risks. The financial performance of the Group and the risks associated with its business are important when making a decision on whether to invest in the Bonds. A number of risk factors and uncertainties may adversely affect the Issuer and the Group. These risk factors include, but are not limited to, market risks, financial risks and risks related to the business operations of the Group. If any of these risks or uncertainties were to materialise, the business, operating results and financial position of the Group could be materially and adversely affected, which ultimately could affect the Group's ability to make payments of interest and repayments of principal under the Terms and Conditions. In this section, a number of risk factors are illustrated, both general risks pertaining to the Group's business operations and material risks relating to the Bonds as financial instruments. The risks presented herein are not exhaustive, and other risks not discussed herein, not currently known or not currently considered to be material may also affect the Group's future operations, performance and financial position, and consequently the Group's ability to meet its obligations under the Terms and Conditions. Further, the risk factors are not ranked in order of importance. Potential investors should consider carefully the information contained in this section and make an independent evaluation before making an investment in the Bonds.

Group and market specific risks

Market risk

The Group is exposed to general market risk, i.e. fluctuations in market prices such as fuel prices, exchange rates, interest rates and carbon prices can materially impact the Group's profitability. The failure to control such risks will have a negative impact on the Group and consequently adversely affect the Group's earnings and financial position.

Foreign currency risk

The Group is exposed to currency risk on sales, purchases and borrowings that are denominated in currencies other than the respective functional currencies of Group entities. Historically, the biggest currency mismatch has been a USD deficit, where the annual USD cash inflow falls short of the USD outflow, mainly due to investment, maintenance, fuel costs, and funding-related payments, which are to a large extent denominated in USD. In recent years the ISK deficit has emerged and expanded from being trivial to a significant and growing ISK shortfall since 2009. This trend stems from the revenue growth in foreign markets, whilst the consequential added operations are domestic and need to be covered by ISK. This shortage is financed by a surplus of European currencies, most importantly the EUR, CAD and Scandinavian currencies. Should the Group be unsuccessful in managing its exposure to foreign currency risks, the Group's results of operations and financial position will be materially and adversely affected.

Fuel price and availability

Airline operators are highly sensitive to jet fuel prices and availability. Jet fuel has been subject to significant price volatility due to fluctuations in supply and demand and investor behaviour through speculative trading. These are influenced by factors ranging from political unrest to terrorist attacks and producer market strategies. Extreme price movements and/or restricted availability of aviation fuel may affect the profitability of the Group. The Group integrates hedging into its purchases of jet fuel. While hedging provides certain constancy in this important cost item, there are always substantial risks involved when entering into hedging transactions. If fuel prices rise, and the Group has little or no hedging in place to mitigate its effect, the Group's cost structure and its competitiveness vis-à-vis its competitors will be damaged. However, if

prices were to fall with the Group having a higher level of hedging than its rivals, its competitiveness would also be damaged. Then there is also the side effect of liquidity strain due to possible collateral payments and margin calls under such circumstances. Should any of the risks described above materialize, the Group's results of operations and financial position will be materially and adversely affected.

Carbon price risk

Since the beginning of 2012 all airlines offering European destinations have been required to comply with the EU Emissions Trading Scheme (ETS), which commits them to raise their carbon permits in proportion to their emissions of carbon. In November 2012 the EU decided to offer airlines flying to and from European destinations an exemption from the Scheme with respect to international flights. Icelandair accepted this offer and its commitment was therefore reduced to covering internal European flights.

Again, in April 2014, the EU extended this exemption to 2016 and has therefore relieved airlines temporarily from the uncertainty of the carbon exposures within this time frame. Emission permits are mainly purchased with spot and forward contracts, and carbon exposure is subject to the same scrutiny and risk management as jet fuel. The consequences of the ETS compliance are not as economically important compared to the magnitude of fuel cost volatility, but still constitute a risk for the Issuer and consequently adversely affect the Group's earnings and financial position.

Liquidity risk

The Group faces the risk of having insufficient working capital to meet payments, e.g. due to inability or difficulties in liquidating its assets. There is a risk that the Group's liquidity policy proves to be insufficient. If liquidity risks are materialized, it risks having a material adverse effect on the Group's business, results of operations, financial position and future prospects.

Credit risk

The Group is exposed to credit risk linked to the amount of outstanding trade receivables, allocation of liquid funds, security payments, and agreements with financial institutions relating to financial operations, e.g. credit support annexes concerning hedging. The relative spread of trade receivables across counterparties is also crucial for credit risk exposure. The risk involved is directly related to the fulfilment of outstanding obligations by the Group's counterparties. There is a risk that adverse changes in the credit quality of the Group's customers or other counterparties will affect the recovery and value of the Group's assets and other provisions and consequently adversely affect the Group's earnings and financial position.

A client of a subsidiary, with whom the Group has conducted business for a period lasting in excess of eight years and which currently represents less than five percent of the Group's total revenues, is late in paying its dues to the aforementioned subsidiary.

Airport access

The Group operates an international route network based on a hub and spoke concept. This makes access to the right airports in its defined geographical market vital to maintain and open up gateways to large and competitive markets. At some airports, an air carrier needs landing and take-off authorisations (slots) before being able to introduce new services or expand its existing services. If the Group is not able to secure and retain slots, it could be restrained from competing in valuable markets. Further, access to airports is vital to minimize the likelihood of

delays. Should any of the risks described above materialize, there is a risk that the Group's results of operations and financial position will be materially and adversely affected.

Competition

The Group faces intensive competition in all its fields of activities. The airline aspect of the Group's operations includes both scheduled and charter services for passengers and freight. The level of competition amongst airlines is high, and pricing decisions are heavily dependent on competition from other airlines. In general the airline industry is susceptible to fare discounting due to low marginal costs of adding passengers to otherwise empty seats. New market entrants, especially low-cost brands, mergers, acquisitions, consolidations, new partnerships and increased transparency of pricing in the air travel market add to airline competition. Should competition increase even further in any of the Group's key transport markets, including the Icelandic market, it risks having a considerable negative effect on the Group's profitability. Despite Icelandair ehf. being the most important subsidiary in the Group, the Group, in other segments of the industry, faces intense competition with hotels, B&Bs, hostels, home exchange websites and, as of late, private individuals letting their apartments. As a result, the overall accommodation capacity has substantially increased in Iceland, especially in the capital region.

Seasonality

The Group operates in a seasonal industry where there has traditionally been much higher demand for air travel and general tourism in the summer. Although strides have been made in reducing seasonality in the past years, the Group's earnings in the second and third quarters continue to be significantly higher than those of the first and fourth each year. Lower demand for air travel, flight cancellations or other factors affecting aircraft utilisation will therefore have a proportionately greater impact on the Group during the summer than during other periods.

The seasonality in turnover and profitability poses greater risk for the annual financial outcome than otherwise, leaving the Group more vulnerable against disruptions to production inputs or external demand shocks. Any interruptions during the high season risks having adverse effects on the financial outcome of operations for the whole financial year.

Volcanic eruptions

Iceland, home to the Group's Hub and Spoke base, is an active volcanic site with eruptions occurring somewhat regularly. The airline industry, in general, is vulnerable to volcanic ash clouds due to resulting disruptions of flights and cancelled bookings. In the event of an eruption, near or under the flight path of the Group's scheduled route network aircraft, resulting in disruptions or cancellations, the Group's earnings and financial position will be negatively and adversely impacted.

Labour disputes and strikes

The airline and tourism industries are inherently labour-intensive industries. The majority of the Group's employees are unionised and represented by several unions, each of which has its own agreement on salaries and benefits with the Group. Each union's contract comes up for renegotiation every few years, bringing with it a risk that the parties will not reach an immediate agreement; resulting in a strike being organised. Strikes can materially affect the Group's operations and financial results; a worst case scenario being a complete halt in the operations of one or more of its subsidiaries for a prolonged period of time. Strikes in the aviation industry are particularly taxing for airlines due to the nature of the business, which is burdened with high fixed costs. In addition to relying on hired personnel, the Group relies on third parties to provide its customers with services on behalf of and in cooperation with it. Any inability of the relevant

third parties to provide such services or the occurrence of strikes will negatively and adversely affect the Group's results of operations and financial standing.

Covenants – contractual risk

The Group is contractually bound to honour various contracts in loan and leasing agreements as well as under the terms and conditions of its outstanding debt instruments via covenants or default event conditions, e.g. through certain accounting figure minimum requirements. Should the Group become unable to fulfil the relevant covenants, or for some reason discontinue to do so, the lessors and bondholders may become entitled to rescind these agreements, which will have negative financial consequences for the Group's business, financial condition and results of operations and on the bondholders' recovery under the Bonds.

Aviation regulations

Air transportation is subject to intensive regulation. An Air Operator's Certificate (AOC) has been issued to the relevant subsidiaries of the Group authorising it to conduct its airline operations. The risk exists that the Group will not be issued such licenses in the future. Occasionally, the Federal Aviation Administration (FAA) and its European counterparts issue directives and other regulations relating to the maintenance of aircraft that may result in significant costs for the Group. There is a risk that the Group will be unable to compensate for this through higher ticket prices, thus adversely affecting the Group. Further, the Group's operating authority is subject to aviation agreements between governmental authorities of the European Union and the respective countries. Those agreements are periodically subject to renegotiation. Changes in the aviation policies of those countries could result in the termination of such agreements and adversely affect the Group's operations. Also, individual airline regulators, including the regulator in Iceland, may impose restrictions and requirements that would impact the Group's profitability and have a material and adverse effect on its business and results of operations.

Securities regulations

The Group's shares are traded on Nasdaq Iceland and therefore subject to Icelandic securities regulations, e.g. those in the Securities Transactions Act No. 108/2007, government regulations and rules adopted by Nasdaq Iceland. Violation, whether intended or unintentional, of these provisions risks having a financial impact on the Group. Serious breaches may result in penalties and Nasdaq Iceland halting trading in the Group's securities, and will consequently adversely affect the Group's reputation and financial position.

Litigation

Given the Issuer's size and the scope of its operations, it can easily find itself involved in some form of litigation at any given time which risks adversely affecting its financial position. At the time of the publishing of this Presentation, the Issuer is involved in disputes with the tax and competition authorities.

The Icelandic Competition Authority (ICA) has recently been investigating Icelandair's alleged predatory pricing in 2012-13 which could be considered as a breach of Article 11 of the Icelandic Competition Act. If the investigation will conclude that Icelandair had a dominant position in the market, and abused its position by predatory pricing, the ICA could lay an administrative fine on Icelandair for the alleged breach of the Competition Act. Should the ICA's ruling be unfavorable to the Issuer, there is a risk that it causes negative effects on the Group's financial standing and market position.

Reassessment of taxes

On 15 April 2015 the Internal Revenue Board issued a ruling where a decision made by the Director of Internal Revenue was confirmed. The ruling disallows the Group to recognize as expenses for tax purposes certain interest expenses on loans that were transferred to the Group as a result of a reverse acquisition in 2006. The management does not agree with the ruling and an appeal to the District Court of Reykjavik is in process. The effect of the ruling has not been recognized in the financial statements, but if the court case will be lost the Group's equity would be reduced by USD 7.9 million, thus negatively affecting the Group's financial position.

Risks relating to the Bonds

Credit risks

Investors in the Bonds carry a credit risk relating to the Group. The investors' ability to receive payment under the Terms and Conditions is dependent on the Issuer's ability to meet its payment obligations, which in turn is largely dependent upon the performance of the Group's operations and its financial position. The Group's financial position is affected by several factors of which some will be mentioned on the proceeding pages. An increased credit risk may cause the market to charge the Bonds a higher risk premium, and that will affect the Bonds' value negatively. Another aspect of the credit risk is that a deteriorating financial position of the Group risks reducing the Group's possibility to receive debt financing at the time of the maturity of the Bonds.

Refinancing risk

The Group may eventually be required to refinance certain or all of its outstanding debt, including the Bonds. The Group's ability to successfully refinance its debt is dependent on the conditions of the capital markets and its financial condition at such time. The Group's access to financing sources may not be available on favourable terms, or at all. The Group's inability to refinance its debt obligations on favourable terms, or at all, risks having a material adverse effect on the Group's business, financial condition and results of operations and on the bondholders' recovery under the Bonds.

Ability to comply with the Terms and Conditions

The Group is required to comply with the Terms and Conditions, inter alia, to pay interest under the Bonds. Events beyond the Group's control, including changes in the economic and business conditions in which the Group operates, may affect the Group's ability to comply with, among other things, the undertakings set out in the Terms and Conditions. There is a risk that a breach of the Terms and Conditions could result in a default under the Terms and Conditions, which could lead to an acceleration of the Bonds, resulting in the Issuer having to repay the bondholders at the applicable call premium. It is possible that the Issuer will not have sufficient funds at the time of the repayment to make the required redemption of Bonds.

Interest rate risks

The Bonds' value depends on several factors, one of the most significant over time being the level of market interest. Investments in the Bonds involve a risk that the market value of the Bonds will be adversely affected by changes in market interest rates.

Liquidity risks and secondary market

The Issuer intends to list the Bonds on the corporate bond list of Nasdaq Stockholm within 30 calendar days from the Issue Date, and an obligation to list the Bonds on the corporate bond list of Nasdaq Stockholm no later than 60 calendar days from the Issue Date. Even if the Bonds are

admitted to trading on the aforementioned market, active trading in the Bonds does not always occur and a liquid market for trading in the Bonds might not occur even if the Bonds are listed. There is a risk that this will result in the bondholders not being able to sell their Bonds when desired or at a price level which allows for a profit comparable to similar investments with an active and functioning secondary market. Lack of liquidity in the market will have a negative impact on the market value of the Bonds. Furthermore, there is a risk that the nominal value of the Bonds will not be indicative compared to the market price of the Bonds if the Bonds are admitted to trading on Nasdaq Stockholm. It should also be noted that during any given period of time there is a risk that it will be difficult or impossible to sell the Bonds (at all or at reasonable terms) due to, for example, severe price fluctuations, close down of the relevant market or trade restrictions imposed on the market.

The market price of the Bonds may be volatile

The market price of the Bonds will be subject to significant fluctuations in response to actual or anticipated variations in the Group's operating results and those of its competitors, adverse business developments, changes to the regulatory environment in which the Group operates, changes in financial estimates by securities analysts and the actual or expected sale of a large number of Bonds, as well as other factors. In addition, in recent years the global financial markets have experienced significant price and volume fluctuations, which, if repeated in the future, will adversely affect the market price of the Bonds without regard to the Group's operating results, financial condition or prospects.

Dependency on other companies within the Group

A significant part of the Group's assets and revenues relate to the Issuer's subsidiaries. The Issuer is thus dependent upon receipt of sufficient income and cash flow related to the operations of the subsidiaries. Consequently, the Issuer is dependent on the subsidiaries' availability of cash and their legal ability to make dividends which will from time to time be restricted by corporate restrictions and law. Should the Issuer not receive sufficient income from its subsidiaries, the investor's ability to receive payment under the Terms and Conditions will be adversely affected.

Majority owner

Following any potential change of control in the Issuer, the Issuer may be controlled by a majority shareholder whose interest may conflict with those of the bondholders, particularly if the Group encounters difficulties or is unable to pay its debts as they fall due. A majority shareholder has legal power to control many of the matters to be decided by vote at a shareholder's meeting. For example, a majority shareholder will have the ability to elect the Board of Directors of the Issuer. Furthermore, a majority shareholder may also have an interest in pursuing acquisitions, divestitures, financings or other transactions that, in their judgment, could enhance their equity investments but might involve risks to the bondholders. There is nothing that prevents a shareholder or any of its affiliates from acquiring businesses that directly compete with the Group. If such an event were to arise, it risks having a material negative impact on the Group's operations, earnings and financial position. According to the Terms and Conditions, if a change of control event occurs, the bondholders have a right of prepayment of the Bonds (put option). There is a risk that the Issuer lacks liquidity to repurchase the Bonds if the bondholders were to exercise their right of prepayment. Please see the risk factor "Early redemption and put option" on the following page for further information.

Risks relating to the Bonds being unsecured

The Bonds constitute unsecured debt obligations of the Issuer. If the Issuer is subject to any foreclosure, dissolution, winding-up, liquidation, recapitalisation, administrative or other bankruptcy or insolvency proceedings, all of the Issuer's secured obligations must first be satisfied, potentially leaving little or no remaining assets in the Issuer for the bondholders. As a result, there is a risk that the bondholders will not recover any or full value. The bondholders will only have an unsecured claim against the assets (if any) in the Issuer for the amounts under or in respect of the Bonds, which means that the bondholders normally would receive payment (pro rata with other unsecured non-priority creditors) after any priority creditors have been paid in full. Each investor should be aware that by investing in the Bonds, they risk losing the entire, or part of, its investment in the event of the Issuer's liquidation, bankruptcy or Group re-organisation. Further, the Issuer currently has outstanding secured debt. Consequently, an enforcement of security furnished under the secured obligations risks having a material negative effect on the bondholders' recovery under the Bonds.

Subsidiaries, structural subordination and insolvency of subsidiaries

A significant part of the Group's assets and revenues relate to the Issuer's subsidiaries. The subsidiaries are legally separated from the Issuer and the subsidiaries' ability to make payments to the Issuer is restricted by, among other things, the availability of funds, corporate restrictions and law. Furthermore, in the event of insolvency, liquidation or a similar event relating to one of the subsidiaries, all creditors of such subsidiary would be entitled to payment in full out of the assets of such subsidiary before any entity within the Group, as a shareholder, would be entitled to any payments. Thus, the Bonds are structurally subordinated to the liabilities of the subsidiaries. There is a risk that the Group and its assets will not be protected from any actions by the creditors of any subsidiary of the Group, whether under bankruptcy law, by contract or otherwise. In addition, defaults by, or the insolvency of, certain subsidiaries of the Group could result in the obligation of the Group to make payments under parent Group financial or performance guarantees in respect of such subsidiaries' obligations or the occurrence of cross defaults on certain borrowings of the Group.

Security over assets granted to third parties

The Group may, subject to limitations, incur additional financial indebtedness and provide additional security for such indebtedness. In the event of bankruptcy, reorganisation or winding-up of the Issuer, the bondholders will be subordinated in right of payment out of the assets being subject to security. In addition, if any such third party financier holding security provided by the Group would enforce such security due to a default by any Group company under the relevant finance documents, such enforcement will have a material adverse effect on the Group's assets, operations and ultimately the position of the bondholders.

Currency risks

The Bonds will be denominated and payable in USD. If bondholders holding Bonds measure their investment return by reference to a currency other than USD, an investment in the Bonds will entail foreign exchange-related risks due to, among other factors, possible significant changes in the value of the USD relative to the currency by reference to which investors measure the return on their investments. This could decrease the effective yield of the Bonds to below their stated coupon rates and could result in a loss to investors when the return on the Bonds is translated into the currency by reference to which the investors measure the return on their investments. Government and monetary authorities may impose (as some have done in the past) exchange controls that risks adversely affecting an applicable exchange rate or the ability

of the Issuer to make payments in respect of the Bonds. As a result, there is a risk that investors receive less interest or principal than expected, or no interest or principal at all.

Early redemption and put options

Under the Terms and Conditions, and as described in the term sheet for the Bonds, the Issuer has reserved the possibility to redeem all outstanding Bonds before the final redemption date. If the Bonds are redeemed before the final redemption date, the holders of the Bonds have the right to receive an early redemption amount which exceeds the nominal amount in accordance with the Terms and Conditions. However, there is a risk that the market value of the Bonds is higher than the early redemption amount and that it will not be possible for bondholders to reinvest such proceeds at an effective interest rate as high as the interest rate on the Bonds and will only be able to do so at a significantly lower rate. According to the Terms and Conditions, the Bonds are subject to prepayment at the option of each bondholder (put options) if (i) the Issuer's shares are not listed and admitted to trading on Nasdaq Stockholm or any other regulated market, (ii) trading of the Issuer's shares on the aforementioned stock exchange is suspended for a period of 15 consecutive banking days, or (iii) if one or more persons, acting together acquire control over the Issuer and where "control" means (a) acquiring or controlling, directly or indirectly, more than 50.00 per cent of the voting rights of the Issuer, or (b) the right to, directly or indirectly, appoint or remove the whole or a majority of the directors of the Board of Directors of the Issuer.

There is, however, a risk that the Issuer will not have sufficient funds at the time of such prepayment to make the required prepayment of the Bonds which will adversely affect the Issuer, e.g. by causing insolvency or an event of default under the Terms and Conditions, and thus adversely affect all bondholders and not only those that choose to exercise the option.

No action against the Issuer and bondholders' representation

In accordance with the Terms and Conditions, a bondholders' agent (the "Agent") (being on the Issue Date Nordic Trustee & Agency AB (publ)) will represent all bondholders in all matters relating to the Bonds and the bondholders are prevented from taking actions on their own against the Issuer. Consequently, individual bondholders do not have the right to take legal actions to declare any default by claiming any payment from or enforcing any security granted by the Issuer and will therefore lack effective remedies unless and until a requisite majority of the bondholders agree to take such action. However, there is a risk that an individual bondholder, in certain situations, will bring its own action against the Issuer (in breach of the Terms and Conditions) which will negatively impact an acceleration of the Bonds or other action against the Issuer. To enable the Agent to represent bondholders in court, the bondholders and/or their nominees may have to submit a written power of attorney for legal proceedings. The failure of all bondholders to submit such a power of attorney will negatively affect the legal proceedings. Under the Terms and Conditions, the Agent will in some cases have the right to make decisions and take measures that bind all bondholders. Consequently, the actions of the Agent in such matters could impact a bondholder's rights under the Terms and Conditions in a manner that would be undesirable for some of the bondholders.

Bondholders' meetings

The Terms and Conditions include certain provisions regarding bondholders' meetings. Such meetings may be held in order to resolve on matters relating to the bondholders' interests. The Terms and Conditions will allow for stated majorities to bind all bondholders, including bondholders who have not taken part in the meeting and those who have voted differently to the required majority at a duly convened and conducted bondholders' meeting. Consequently,

the actions of the majority in such matters could impact a bondholder's rights in a manner that will be undesirable for some of the bondholders.

Restrictions on the transferability of the Bonds

The Bonds have not been and will not be registered under the U.S. Securities Act of 1933, as amended, or any U.S. state securities laws. Subject to certain exemptions, a holder of the Bonds may not offer or sell the Bonds in the United States. The Issuer has not undertaken to register the Bonds under the U.S. Securities Act or any U.S. state securities laws or to effect any exchange offer for the Bonds in the future. Furthermore, the Issuer has not registered the Bonds under any other country's securities laws. It is each potential investor's obligation to ensure that the offers and sales of Bonds comply with all applicable securities laws. Due to these restrictions, there is a risk that a bondholder cannot sell their Bonds as desired.

Risks relating to the clearing and settlement in Verdipapirsentralen ASA (VPS)' book-entry system

The Bonds will be issued in uncertificated and dematerialized book-entry form in the electronic register of Verdipapirsentralen ASA's account-based system, and no physical notes will be issued. Clearing and settlement relating to the Bonds is carried out within Verdipapirsentralen ASA's book-entry system as well as payment of interest and repayment of the principal. Investors are therefore dependent on the functionality of Verdipapirsentralen ASA's account-based system.

Amended or new legislation

This document is and the Terms and Conditions will be based on Swedish law in force at the date of issuance of the Bonds. There is a risk that amended or new legislation and administrative practices will adversely affect the investor's ability to receive payment under the Terms and Conditions.

Conflict of interests

The Sole Bookrunner may in the future engage in investment banking and/or commercial banking or other services for the Group in the ordinary course of business. Accordingly, there is a risk that conflicts of interest may exist or arise as a result of the Sole Bookrunner having previously engaged, or engaging in the future, in transactions with other parties, having multiple roles or carrying out other transactions for third parties with conflicting interests.

The rights of bondholders depend on the Agent's actions and financial standing

By subscribing for, or purchasing, or accepting the assignment of, any Bond, each holder of a Bond will accept the appointment of the Agent to act on its behalf and to perform administrative functions relating to the Bonds. The Agent shall have, among other things, the right to represent the holders of the Bonds in all court and administrative proceedings in respect of the Bonds. However, the rights, duties and obligations of the Agent as the representative of the holders of the Bonds will be subject to the provisions of the Terms and Conditions for the Bonds and the agency agreement, and there is no specific legislation or market practice in Sweden (under which laws the Terms and Conditions for the Bonds are governed) which would govern the Agent's performance of its duties and obligations relating to the Bonds. A failure by the Agent to perform its duties and obligations properly or at all will adversely affect the enforcement of the rights of the holders of the Bonds. Under the Terms and Conditions for the Bonds, the funds collected by the Agent as the representative of the holders of the Bonds must be held separately from the funds of the Agent and be treated as escrow funds to ensure that in the event of the

Agent's bankruptcy, such funds can be separated for the benefit of the holders of the Bonds. However, there is a risk that such segregation of funds will not be respected by a bankruptcy administrator in case of the trustee's bankruptcy. Also, in the event the Agent would fail to separate the funds in an appropriate manner, there is a risk that the funds will be included in the Agent's bankruptcy estate. The Agent may be replaced by a successor bondholders' agent in accordance with the Terms and Conditions for the Bonds.

DESCRIPTION OF THE GROUP

History and development

The Company was incorporated on 20 December 2005 and is an Icelandic public limited liability company operating under the laws of Iceland with ID No. 631205-1780.

The registered office of the Company is Reykjavík Airport, 101 Reykjavík Iceland and the Company's headquarters is located the same address, with telephone number +354 50 50 300.

In accordance with the articles of association of the Company, on the latest version of which was adopted on 10 March 2016, the objects of the Company are to own and run airlines and tourism companies, purchase and sale of shares, especially shares in other companies working in the field of aviation, travel industry and transport, purchase and sale of real estate, lending and other related business.

The Group traces its roots to the year 1937 when one of its predecessors, Flugfélag Akureyrar, was founded. In 1943, the company moved its headquarters to Reykjavík and changed its name to Flugfélag Íslands, which later assumed the international trade name Icelandair.

Another important milestone was passed in 1944, when three young Icelandic pilots, returning from flight training in Canada, founded Loftleiðir, which later became known as Icelandic Airlines. Initially, both companies concentrated on Icelandic domestic air services. However, in 1945 Icelandair made its first international flight to Scotland and Denmark. Loftleiðir Icelandic Airlines began international operations in 1947, and its pioneering low-fare services across the North-Atlantic commenced in 1953.

In 1973, the two airlines, Icelandair and Loftleiðir Icelandic Airlines, were merged under a new holding company, Flugleiðir. In October 1979, Flugleiðir assumed all the operating responsibilities of its two parent companies, and decided to use Icelandair as its international trade name, only retaining the Flugleiðir name in the domestic market.

Although Icelandair Group's formal founding date is 20 December 2005, the Group, in its current day form, is the result of a series of acquisitions, mergers, de-mergers, in- and divestments and comprehensive restructuring spanning the three decades, from 1979 - 2010. The Group's shares have been traded on the Nasdaq Iceland since 12 February 2007.

In 2012, the Group celebrated 75 years of successful operations in scheduled flight services making the name Icelandair one of the longest serving airline names in the world.

Business and operations

The Group operates in the international airline and tourism sectors, with Iceland as the focal point of its international Route Network. In addition to the passenger flights operated by Icelandair, the Group has extensive interests in most other parts of Icelandic tourism and aviation, including hotel chains, travel agencies, domestic airline and cargo, support services and ground handling and technical services, in addition to its leasing and charter operations. The Company splits its operations into two business segments: Route Network and Tourism Services.

The Group's long-term strategy remains firmly centred on five key points:

- Focus on the Route Network and tourism services;
- Focus on reducing seasonality in the Group's operations;
- Focusing on organic growth and business development;
- Focus on achieving greater synergies between Group companies; and
- Focus on improving efficiency with special emphasis on continuous cost control.

The Group's vision

To unlock Iceland's potential as a year-round destination, to strengthen Iceland's position as a connecting hub and to maintain our focus on flexibility and experience

Business Segments: Route Network

This business segment is focused on the well-established international route networks based on the Hub and Spoke concept. Seven companies are categorised as being part of the Route Network business segment:

- Loftleidir-Icelandic, aircraft leasing operation;
- FERIA, parent company of travel agencies VITA and Ferð.is; and
- Icelandair Shared Services (Fjárvakur-fjármálathjónusta), the accounting and financial support company of the Group.

These companies work closely together and have long historical ties. The main common task of the focus group is to run a profitable airline network operation with growth potential while supporting local tourism in Iceland. This is done through sales and marketing activity on behalf of all companies, as well as through placing emphasis on revenue management and cost control throughout the operation.

Market overview

Air travel passenger growth has historically tracked GDP growth closely, however at a multiple in excess of 2x. Long-term forecasts point to a continuation of this trend, with global airline traffic expected to grow at nearly 5 per cent p.a. over the period 2015-2034. In the long run, air travel has shown strong resilience to demand-side shocks such as the Gulf Wars, 9/11 attacks, SARS or the global financial crisis.

Following a steep downturn in the wake of the global financial crisis, the Iceland economy has recovered strongly in recent years. GDP grew solidly in excess of the world average in 2015, with outperformance expected to continue over the coming years due to growth in imports and exports, fuelled in particular by the tourist industry. The inflation has stabilised.

Following the financial crisis, tourist arrivals to Iceland fell in 2009 and 2010 but recent years have seen a remarkable turnaround in this statistic. The number of tourist arrivals to Iceland reached nearly 1.3 million in 2015, representing growth of more than 30 per cent over 2014 and a more than two-fold increase over 2011 and approximately 98 per cent of tourist arrivals are through Keflavik. Revenues from tourism to Iceland more than doubled between 2010 and 2015, from USD 1.4 billion to USD 3.2 billion.

 - (i) the amount of the payment due from the Issuer will be increased to such amount which is necessary to ensure that the Bondholders or the Agent, as the case may be, receive a net amount which is (after making the required withholding) equal to the payment which would have been received if no withholding had been required; and

- (k) Any decision which extends or increases the obligations of the Issuer or the Agent, or limits, reduces or extinguishes the rights or benefits of the Issuer or the Agent, under the Finance Documents shall be subject to the Issuer's or the Agent's consent, as applicable.
- (l) A Bondholder holding more than one Bond need not use all its votes or cast all the votes to which it is entitled in the same way and may in its discretion use or cast some of its votes only.
- (m) The Issuer may not, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any Bondholder for or as inducement to any consent under these Terms and Conditions, unless such consideration is offered to all Bondholders that

consent at the relevant Bondholders' Meeting or in a Written Procedure within the time period stipulated for the consideration to be payable or the time period for replies in the Written Procedure, as the case may be.

- (n) A matter decided at a duly convened and held Bondholders' Meeting or by way of Written Procedure is binding on all Bondholders, irrespective of them being present or represented at the Bondholders' Meeting or responding in the Written Procedure. The Bondholders that have not adopted or voted for a decision shall not be liable for any damages that this may cause other Bondholders.
- (o) All reasonable costs and expenses incurred by the Issuer or the Agent for the purpose of convening a Bondholders' Meeting or for the purpose of carrying out a Written Procedure, including reasonable fees to the Agent, shall be paid by the Issuer.
- (p) If a decision shall be taken by the Bondholders on a matter relating to the Finance Documents, the Issuer shall promptly at the request of the Agent provide the Agent with a certificate specifying the number of Bonds owned by Group Companies, irrespective of whether such person is directly registered as owner of such Bonds. The Agent shall not be responsible for the accuracy of such certificate or otherwise be responsible to determine whether a Bond is owned by a Group Company.
- (q) Information about decisions taken at a Bondholders' Meeting or by way of a Written Procedure shall promptly be sent by notice to the Bondholders and published on the websites of the Issuer and the Agent, provided that a failure to do so shall not invalidate any decision made or voting result achieved. The minutes from the relevant Bondholders' Meeting or Written Procedure shall at the request of a Bondholder be sent to it by the Issuer or the Agent, as applicable.

17. Bondholders' Meeting

- (a) The Agent shall convene a Bondholders' Meeting by sending a notice thereof to each Bondholder no later than five (5) Business Days after receipt of a request from the Issuer or the Bondholder(s) (or such later date as may be necessary for technical or administrative reasons).
- (b) Should the Issuer want to replace the Agent, it may convene a Bondholders' Meeting in accordance with Clause 17(a) with a copy to the Agent. After a request from the Bondholders pursuant to Clause 20.4(c), the Issuer shall no later than five (5) Business Days after receipt of such request (or such later date as may be necessary for technical or administrative reasons) convene a Bondholders' Meeting in accordance with Clause 17(a).
- (c) The notice pursuant to Clause 17(a) shall include (i) time for the meeting, (ii) place for the meeting, (iii) agenda for the meeting (including each request for a decision by the Bondholders) and (iv) a form of power of attorney. Only matters that have been included in the notice may be resolved upon at the Bondholders' Meeting. Should prior notification by the Bondholders be required in order to attend the Bondholders' Meeting, such requirement shall be included in the notice.
- (d) The Bondholders' Meeting shall be held no earlier than ten (10) Business Days and no later than twenty (20) Business Days from the notice.

- (e) Without amending or varying these Terms and Conditions, the Agent may prescribe such further regulations regarding the convening and holding of a Bondholders' Meeting as the Agent may deem appropriate. Such regulations may include a possibility for Bondholders to vote without attending the meeting in person.

18. Written Procedure

- (a) The Agent shall instigate a Written Procedure no later than five (5) Business Days after receipt of a request from the Issuer or the Bondholder(s) (or such later date as may be necessary for technical or administrative reasons) by sending a communication to each such person who is registered as a Bondholder on the Business Day prior to the date on which the communication is sent.
- (b) Should the Issuer want to replace the Agent, it may send a communication in accordance with Clause 18(a) to each Bondholder with a copy to the Agent.
- (c) A communication pursuant to Clause 18(a) shall include (i) each request for a decision by the Bondholders, (ii) a description of the reasons for each request, (iii) a specification of the Business Day on which a person must be registered as a Bondholder in order to be entitled to exercise voting rights, (iv) instructions and directions on where to receive a form for replying to the request (such form to include an option to vote yes or no for each request) as well as a form of power of attorney, and (v) the stipulated time period within which the Bondholder must reply to the request (such time period to last at least fifteen (15) Business Days from the communication pursuant to Clause 18(a)). If the voting shall be made electronically, instructions for such voting shall be included in the communication.
- (d) When the requisite majority consents of the total Adjusted Nominal Amount pursuant to Clauses 16(g) and 16(g)(i) have been received in a Written Procedure, the relevant decision shall be deemed to be adopted pursuant to Clause 16(g) or 16(g)(i), as the case may be, even if the time period for replies in the Written Procedure has not yet expired.

19. Amendments and Waivers

- (a) The Issuer and the Agent (acting on behalf of the Bondholders) may agree to amend the Finance Documents or waive any provision in a Finance Document, provided that:
 - (i) such amendment or waiver is not detrimental to the interest of the Bondholders as a group, or is made solely for the purpose of rectifying obvious errors and mistakes;
 - (ii) such amendment or waiver is required by applicable law, a court ruling or a decision by a relevant authority;
 - (iii) such amendment will not negatively affect the Bondholders or the Agent and is necessary for the purpose of the listing of the Bonds pursuant to Clause 13.3 (*Listing of the Bonds*); or
 - (iv) such amendment or waiver has been duly approved by the Bondholders in accordance with Clause 16 (*Decisions by Bondholders*).

- (b) The consent of the Bondholders is not necessary to approve the particular form of any amendment or waiver to the Finance Documents. It is sufficient if such consent approves the substance of the amendment or waiver.
- (c) The Agent shall promptly notify the Bondholders of any amendments or waivers made in accordance with Clause 19(a), setting out the date from which the amendment or waiver will be effective, and ensure that any amendments to the Finance Documents are published in the manner stipulated in Clause 11.4 (*Publication of Finance Documents*). The Issuer shall ensure that any amendments to the Finance Documents are duly registered with the CSD and each other relevant organisation or authority.
- (d) An amendment or waiver to the Finance Documents shall take effect on the date determined by the Bondholders Meeting, in the Written Procedure or by the Agent, as the case may be.

20. Appointment and Replacement of the Agent

20.1 Appointment of Agent

- (a) By subscribing for Bonds, each initial Bondholder appoints the Agent to act as its agent in all matters relating to the Bonds and the Finance Documents, and authorises the Agent to act on its behalf (without first having to obtain its consent, unless such consent is specifically required by these Terms and Conditions) in any legal or arbitration proceedings relating to the Bonds held by such Bondholder.
- (b) By acquiring Bonds, each subsequent Bondholder confirms the appointment and authorisation for the Agent to act on its behalf as set out in Clause 20.1(a).
- (c) Each Bondholder shall immediately upon request provide the Agent with any such documents, including a written power of attorney (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents. The Agent is under no obligation to represent a Bondholder which does not comply with such request.
- (d) The Issuer shall promptly upon request provide the Agent with any documents and other assistance (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents.
- (e) The Agent is entitled to fees for its work and to be indemnified for costs, losses and liabilities on the terms set out in the Finance Documents and the Agency Agreement and the Agent's obligations as Agent under the Finance Documents are conditioned upon the due payment of such fees and indemnifications.
- (f) The Agent may only act as agent or trustee for several issues of securities issued by or relating to the Issuer and other Group Companies where these issues are ranked *pari passu* and do not otherwise entail any obvious conflicts of interest for the Agent.

20.2 Duties of the Agent

- (a) The Agent shall represent the Bondholders in accordance with the Finance Documents.

- (b) When acting in accordance with the Finance Documents, the Agent is always acting with binding effect on behalf of the Bondholders. The Agent shall carry out its duties under the Finance Documents in a reasonable, proficient and professional manner, with reasonable care and skill.
- (c) The Agent's duties under this Agreement are solely mechanical and administrative in nature and the Agent only acts in accordance with these Terms and Conditions and upon instructions from the Bondholders, unless otherwise set out in these Terms and Conditions. In particular, the Agent is not acting as an advisor (whether legal, financial or otherwise) to the Bondholders or any other person.
- (d) The Agent is not obligated to assess or monitor the financial condition of the Issuer or compliance by the Issuer of the terms of the Finance Documents unless to the extent expressly set out in the Terms and Conditions and the other Finance Documents, or to take any steps to ascertain whether any Event of Default has occurred. Until it has actual knowledge to the contrary, the Agent is entitled to assume that no Event of Default has occurred.
- (e) The Agent is entitled to delegate its duties to other professional parties, provided that such professional parties are selected with due care.
- (f) The Agent shall treat all Bondholders equally and, when acting pursuant to the Finance Documents, act with regard only to the interests of the Bondholders and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other person, other than as explicitly stated in the Finance Documents.
- (g) The Agent is entitled to engage external experts when carrying out its duties under the Finance Documents. The Issuer shall on demand by the Agent pay all reasonable costs for external experts engaged after the occurrence of an Event of Default, or for the purpose of investigating or considering (i) an event which the Agent reasonably believes is or may lead to an Event of Default or (ii) a matter relating to the Issuer which the Agent reasonably believes may be detrimental to the interests of the Bondholders under the Finance Documents. Any compensation for damages or other recoveries received by the Agent from external experts engaged by it for the purpose of carrying out its duties under the Finance Documents shall be distributed in accordance with Clause 15 (*Distribution of Proceeds*).
- (h) Notwithstanding any other provision of the Finance Documents to the contrary, the Agent is not obliged to do or omit to do anything if it would or might in its reasonable opinion constitute a breach of any law or regulation.
- (i) Unless it has actual knowledge to the contrary, the Agent may assume that all information provided by or on behalf of the Issuer (including by its advisors) is correct, true and complete in all aspects.
- (j) If in the Agent's reasonable opinion the cost, loss or liability which it may incur (including reasonable fees to the Agent) in complying with instructions of the Bondholders, or taking any action at its own initiative, will not be covered by the Issuer or the Bondholders (as applicable), the Agent may refrain from acting in accordance with such instructions, or taking such action, until it has received such indemnities (or adequate Security has been provided therefore) as it may reasonably require.

20.3 Limited liability for the Agent

- (a) The Agent will not be liable to the Bondholders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its negligence or wilful misconduct. The Agent shall never be responsible for indirect loss.
- (b) The Agent shall not be considered to have acted negligently if it has acted in accordance with advice from or opinions of reputable external experts addressed to the Agent or if the Agent has acted with reasonable care in a situation when the Agent considers that it is detrimental to the interests of the Bondholders to delay the action in order to first obtain instructions from the Bondholders.
- (c) The Agent shall not be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to the Finance Documents to be paid by the Agent to the Bondholders, provided that the Agent has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by the Agent for that purpose.
- (d) The Agent shall have no liability to the Bondholders or the Issuer for damage caused by the Agent when acting in accordance with instructions of the Bondholders given to the Agent in accordance with Clause 16 (*Decisions by Bondholders*) or a demand by Bondholders given pursuant to Clause 14.10(a).
- (e) The Issuer is liable for, and shall indemnify the Agent fully in respect of, all losses, expenses and liabilities incurred by the Agent as a result of negligence by the Issuer (including its directors, management, officers, employees, agents and representatives) to fulfil its obligations under the Finance Document or otherwise towards the Agent.
- (f) The Agent is not liable for information provided to the Bondholders by or on behalf of the Issuer or by any other person.
- (g) Any liability towards the Issuer which is incurred by the Agent in acting under, or in relation to, the Finance Documents shall not be subject to set-off against the obligations of the Issuer to the Bondholders under the Finance Documents.

20.4 Replacement of the Agent

- (a) Subject to Clause 20.4(f), the Agent may resign by giving notice to the Issuer and the Bondholders, in which case the Bondholders shall appoint a successor Agent at a Bondholders' Meeting convened by the retiring Agent or by way of Written Procedure initiated by the retiring Agent.
- (b) Subject to Clause 20.4(f), if the Agent is Insolvent, the Agent shall be deemed to resign as Agent with immediate effect and the Issuer shall within ten (10) Business Days appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- (c) A Bondholder (or Bondholders) representing at least ten (10) per cent. of the Adjusted Nominal Amount may, by notice to the Issuer (such notice may only be validly given

by a person who is a Bondholder on the Business Day immediately following the day on which the notice is received by the Issuer and shall, if given by several Bondholders, be given by them jointly), require that a Bondholders' Meeting is held for the purpose of dismissing the Agent and appointing a new Agent. The Issuer may, at a Bondholders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the Bondholders that the Agent be dismissed and a new Agent appointed.

- (d) If the Bondholders have not appointed a successor Agent within ninety (90) days after (i) the earlier of the notice of resignation was given or the resignation otherwise took place or (ii) the Agent was dismissed through a decision by the Bondholders, the Issuer shall appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- (e) The retiring Agent shall, at its own cost, make available to the successor Agent such documents and records and provide such assistance as the successor Agent may reasonably request for the purposes of performing its functions as Agent under the Finance Documents.
- (f) The Agent's resignation or dismissal shall only take effect upon the appointment of a successor Agent and acceptance by such successor Agent of such appointment and the execution of all necessary documentation to effectively substitute the retiring Agent.
- (g) Upon the appointment of a successor, the retiring Agent shall be discharged from any further obligation in respect of the Finance Documents but shall remain entitled to the benefit of the Finance Documents and remain liable under the Finance Documents in respect of any action which it took or failed to take whilst acting as Agent. Its successor, the Issuer and each of the Bondholders shall have the same rights and obligations amongst themselves under the Finance Documents as they would have had if such successor had been the original Agent.
- (h) In the event that there is a change of the Agent in accordance with this Clause 20.4, the Issuer shall execute such documents and take such actions as the new Agent may reasonably require for the purpose of vesting in such new Agent the rights, powers and obligation of the Agent and releasing the retiring Agent from its further obligations under the Finance Documents and the Agency Agreement. Unless the Issuer and the new Agent agree otherwise, the new Agent shall be entitled to the same fees and the same indemnities as the retiring Agent.

21. Appointment and Replacement of the Paying Agent

- (a) The Issuer appoints the Paying Agent to manage certain specified tasks under these Terms and Conditions and in accordance with the legislation, rules and regulations applicable to and/or issued by the CSD and relating to the Bonds.
- (b) The Paying Agent may retire from its assignment or be dismissed by the Issuer, provided that the Issuer has approved that a commercial bank or securities institution approved by the CSD accedes as new Paying Agent at the same time as the old Paying Agent retires or is dismissed. If the Paying Agent is Insolvent, the Issuer shall immediately appoint a new Paying Agent, which shall replace the old Paying Agent as paying agent in accordance with these Terms and Conditions.

22. No Direct Actions by Bondholders

- (a) A Bondholder may not take any steps whatsoever against the Issuer to enforce or recover any amount due or owing to it pursuant to the Finance Documents, or to initiate, support or procure the winding-up, dissolution, liquidation, company reorganisation or bankruptcy of the Issuer in accordance with Icelandic law (or its equivalent in any other jurisdiction) in relation to any of the liabilities of the Issuer under the Finance Documents.
- (b) Clause 22(a) shall not apply if the Agent has been instructed by the Bondholders in accordance with these Terms and Conditions to take certain actions but is legally unable to take such actions.

23. Prescription

- (a) The right to receive repayment of the principal of the Bonds shall be prescribed and become void ten (10) years from the Redemption Date. The right to receive payment of interest (excluding any capitalised interest) shall be prescribed and become void three (3) years from the relevant due date for payment. The Issuer is entitled to any funds set aside for payments in respect of which the Bondholders' right to receive payment has been prescribed and has become void.
- (b) If a limitation period is duly interrupted in accordance with the Swedish Act on Limitations (*Sw. preskriptionslag (1981:130)*), a new limitation period of ten (10) years with respect to the right to receive repayment of the principal of the Bonds, and of three (3) years with respect to receive payment of interest (excluding capitalised interest) will commence, in both cases calculated from the date of interruption of the limitation period, as such date is determined pursuant to the provisions of the Swedish Act on Limitations.

24. Notices

- (a) Any notice or other communication to be made under or in connection with the Finance Documents:
 - (i) if to the Agent, shall be given at the address registered with the Swedish Companies Registration Office (*Sw. Bolagsverket*) on the Business Day prior to dispatch or, if sent by email by the Issuer, to the email address notified by the Agent to the Issuer from time to time;
 - (ii) if to the Issuer, to the following address:
 - (A) Reykjavik Airport, 101 Reykjavik, Iceland; or
 - (B) if sent by email by the Agent, to the email address notified by the Issuer to the Agent from time to time.
 - (iii) if to the Bondholders, shall be given by letter to their addresses as registered with the CSD on the Business Day prior to dispatch.
- (b) Any notice to the Bondholders shall also be published on the websites of the Issuer and the Agent.

- (c) Any notice or other communication made by one person to another under or in connection with the Finance Documents shall be sent by way of letter, or, if between the Issuer and the Agent, by email, and will only be effective three (3) Business Days after being deposited postage prepaid in an envelope addressed to the address specified in Clause 24(a) or, in case of email, when received in readable form by the email recipient.

25. Governing Law and Jurisdiction

- (a) These Terms and Conditions, and any non-contractual obligations arising out of or in connection therewith, shall be governed by and construed in accordance with the laws of Sweden.
- (b) The Issuer submits to the non-exclusive jurisdiction of the City Court of Stockholm (Sw. *Stockholms tingsrätt*).
- (c) Paragraphs (a) and (b) above shall not limit the right of the Agent (or the Bondholders, as applicable) to take proceedings against the Issuer in any court which may otherwise exercise jurisdiction over the Issuer or any of its assets.

We hereby certify that the above terms and conditions are binding upon ourselves.
