Principle I: Basic Provisions	Principle I: Basic Provisions				
The overriding objective of a company should be to ope shareholder value.	rate in comm	on interests of all the shareholders by optimizing over time			
1.1. A company should adopt and make public the company's development strategy and objectives by clearly declaring how the company intends to meet the interests of its shareholders and optimize shareholder value.	Yes	The overriding objectives of Company's activity are disclosed to its shareholders in Company's reports and annual reports. Long-term strategy and objectives are introduced to market attendants at the meetings organized by operator OMX of Stock exchanges. Reports, materials of presentation are placed at Company's webpage.			
1.2. All management bodies of a company should act in furtherance of the declared strategic objectives in view of the need to optimize shareholder value.	Yes	Company has its short-term and long-term strategic objectives planned. Company's Management Board, Top Management make every effort to achieve their implementation – new departments belonging to group companies are being established, the team of qualified specialists is being expanded.			
1.3. A company's supervisory and management bodies should act in close co-operation in order to attain maximum benefit for the company and its shareholders.	Yes	This recommendation is carried out by the Head of the Company and the Management Board that following Articles of Association and regulations makes decisions regarding all principle matters of activity. The Management Board approves strategy of Company's activity, annual budget, controls conclusion of contracts and implementation of budget; analyses Company's financial statements and renders it to shareholders. Implementation of decisions is assigned to the Head of the Company and via the latter – to the functional directors. Meetings of the Management Board are convoked according to the need. Meetings are attended by the Head of the Company, at times – by the Heads of functional departments.			
1.4. A company's supervisory and management bodies should ensure that the rights and interests of persons other than the company's shareholders (e.g. employees, creditors, suppliers, clients, local community), participating in or connected with the company's operation, are duly respected.	Yes	Company's Management bodies pursue ensuring interests of all persons concerned with Company's activity. Transparent activity, periodical update of results and problems, communication with press on the part of the Management permit interested parties – creditors to receive necessary information on the Company. Company aims at retaining long-lasting relations with its business partners holding that proper and timely fulfillment of contractual obligations and quality assurance of products is the priority. Employees are informed			

on the ongoing internal changes, presented with	the
Company's strategy during their annual meetings. Comp	oany

Principle II: The corporate governance framework

The corporate governance framework should ensure the strategic guidance of the company, the effective oversight of the company's management bodies, an appropriate balance and distribution of functions between the company's bodies, protection of the shareholders' interests

management bodies, an appropriate balance and distribution of functions between the company's bodies, protection of the			
shareholders' interests.			
2.1. Besides obligatory bodies provided for in the Law on Companies of the Republic of Lithuania – a general shareholders' meeting and the chief executive officer, it is recommended that a company should set up both a collegial supervisory body and a collegial management body. The setting up of collegial bodies for supervision and management facilitates clear separation of management and supervisory functions in the company, accountability and control on the part of the chief executive officer, which, in its turn, facilitate a more efficient and transparent management process.	No	Company has a collegial management body – Management Board. Management Board elects Head of the Company – Managing Director who is to periodically report to the Management Board regarding Company's activity and implementation of the planned objectives. The Management Board approves the results of the previous periods and sets the objectives for the coming periods of time.	
2.2. A collegial management body is responsible for the strategic management of the company and performs other key functions of corporate governance. A collegial supervisory body is responsible for the effective supervision of the company's management bodies.	Yes	Collegial management body - Management Board is responsible for the strategic management of the Company.	
2.3. Where a company chooses to form only one collegial body, it is recommended that it should be a supervisory body, i.e. the supervisory board. In such a case, the supervisory board is responsible for the effective monitoring of the functions performed by the company's chief executive officer.	No	Company does not comply with this recommendation whereas it has only one collegial body and it is the Management Board.	
2.4. The collegial supervisory body to be elected by the general shareholders' meeting should be set up and should act in the manner defined in Principles III and IV. Where a company should decide not to set up a collegial supervisory body but rather a collegial management body, i.e. the board, Principles III and IV should apply to the board as long as that does not contradict the essence and purpose of this body.	Yes	Collegial supervisory body elected by the General Meeting of Shareholders is composed and acts in accordance with principles III and IV, principles III and IV are applied to the Management Board as well in so far as it does not contradict the essence and purpose of this body.	
 2.5. Company's management and supervisory bodies should comprise such number of board (executive directors) and supervisory (non-executive directors) board members that no individual or small group of individuals can dominate decision-making on the part of these bodies. 2.6. Non-executive directors or members of the supervisory board should be appointed for specified terms subject to individual re-election, at maximum intervals provided for in the Lithuanian legislation with a view to ensuring necessary 	Yes Not applicable	Management Board is comprised of 5 (five) Members. Number of Members was set and candidates were offered and elected by the General Meeting of Shareholders. In Company's view, interests of all shareholders are properly represented at the Meeting. The provision is not applicable whereas Company has only collegial management body – Management Board.	
development of professional experience and sufficiently frequent reconfirmation of their status. A possibility to remove them should also be stipulated however this			

procedure should not be easier than the removal procedure for an executive director or a member of the management board.	
2.7. Chairman of the collegial body elected by the general shareholders' meeting may be a person whose current or past office constitutes no obstacle to conduct independent and impartial supervision. Where a company should decide not to set up a supervisory board but rather the board, it is recommended that the chairman of the board and chief executive officer of the company should be a different person. Former company's chief executive officer should not be immediately nominated as the chairman of the collegial body elected by the general shareholders' meeting. When a company chooses to departure from these recommendations, it should furnish information on the measures it has taken to ensure impartiality of the supervision.	Company complies with this recommendation whereas the President of the Management Board was not and is not the Head of the Company.

Principle III: The order of the formation of a collegial body to be elected by a general shareholders' meeting

The order of the formation a collegial body to be elected by a general shareholders' meeting should ensure representation of minority shareholders, accountability of this body to the shareholders and objective monitoring of the company's operation and its management bodies.

3.1. The mechanism of the formation of a collegial body to be elected by a general shareholders' meeting (hereinafter in this Principle referred to as the 'collegial body') should ensure objective and fair monitoring of the company's management bodies as well as representation of minority shareholders.	Yes	The mechanism of the formation of the Management Board ensures objective and impartial monitoring of Company's management bodies. Information on candidates, their activities and professional background is disclosed to the shareholders prior to election. Minority shareholders' right and ability to have their own representative in the collegial management body is not restricted.
3.2. Names and surnames of the candidates to become members of a collegial body, information about their education, qualification, professional background, positions taken and potential conflicts of interest should be disclosed early enough before the general shareholders' meeting so that the shareholders would have sufficient time to make an informed voting decision. All factors affecting the candidate's independence, the sample list of which is set out in Recommendation 3.7, should be also disclosed. The collegial body should also be informed on any subsequent changes in the provided information. The collegial body should, on yearly basis, collect data provided in this item on its members and disclose this in the company's annual report.	Yes	Company partially complies with the provisions enumerated in this recommendation: names and surnames of candidates offered to the Management Board are announced in advance, more information on candidates may be received along with draft resolutions of the General Meeting of Shareholders. Candidates are likewise introduced during the General Meeting of Shareholders. Information on the Members of the Management Board may be found in Company's reports and annual report.
3.3. Should a person be nominated for members of a collegial body, such nomination should be followed by the disclosure of information on candidate's particular competences relevant to his/her service on the collegial body. In order shareholders and investors are able to ascertain whether member's competence is further relevant, the collegial body should, in its annual report, disclose the information on its composition and particular competences of individual members which are relevant to their service on	Yes	Company's annual report includes information on the composition of the collegial body – Management Board and shortly introduces working experience of its members.

the collegial body.		
3.4. In order to maintain a proper balance in terms of the current qualifications possessed by its members, the collegial body should determine its desired composition with regard to the company's structure and activities, and have this periodically evaluated. The collegial body should ensure that it is composed of members who, as a whole, have the required diversity of knowledge, judgment and experience to complete their tasks properly. The members of the audit committee, collectively, should have a recent knowledge and relevant experience in the fields of finance, accounting and/or audit for the stock exchange listed companies.	Yes	Members of the Management Board have a wide-ranging knowledge in the fields of Finance, Economics, Law, Investment Management as well as sufficient experience in order to have their tasks completed properly.
3.5. All new members of the collegial body should be offered a tailored program focused on introducing a member with his/her duties, corporate organization and activities. The collegial body should conduct an annual review to identify fields where its members need to update their skills and knowledge.	Yes	Company partially complies with this provision: new Members of the Management Board are permitted to get familiarized with Company's internal documentation, business processes, factors having impact on activity results. Periodical submission of analysis of activity results, ensures a regular update of the news on the Company.
3.6. In order to ensure that all material conflicts of interest related with a member of the collegial body are resolved properly, the collegial body should comprise a sufficient number of independent members.	No	The matter of independent members in the collegial management body and a sufficient number thereof is planned to be an object of consideration of the current year. Rational decision is aimed at in order to ensure the compliance with the recommendations of this Code and interests of the shareholders. Specific criteria for the evaluation of independence are also going to be set.
3.7. A member of the collegial body should be considered to be independent only if he is free of any business, family or other relationship with the company, its controlling shareholder or the management of either, that creates a conflict of interest such as to impair his judgment. Since all cases when member of the collegial body is likely to become dependant are impossible to list, moreover, relationships and circumstances associated with the determination of independence may vary amongst companies and the best practices of solving this problem are yet to evolve in the course of time, assessment of independence of a member of the collegial body should be based on the contents of the relationship and circumstances rather than their form. The key criteria for identifying whether a member of the collegial body can be considered to be independent are the following:	No	See comment to the clause 3.6.
 He/she is not an executive director or member of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) of the company or any associated company and has not been such during the last five years; 		
2) He/she is not an employee of the company or some any company and has not been such during the last three years, except for cases when a member of the collegial body does not belong to the senior management and was elected to the collegial body as a representative of the employees;3) He/she is not receiving or has been not receiving		

significant additional remuneration from the company or associated company other than remuneration for the office in the collegial body. Such additional remuneration includes participation in share options or some other performance based pay systems; it does not include compensation payments for the previous office in the company (provided that such payment is no way related with later position) as per plans (inclusive of deferred pension compensations);

- 4) He/she is not a controlling shareholder or representative of such shareholder (control as defined in the Council Directive 83/349/EEC Article 1 Part 1):
- 5) He/she does not have and did not have any material business relations with the company or associated company within the past year directly or as a partner, shareholder, director or superior employee of the subject having such relationship. A subject is considered to have business relations when it is a major supplier or service provider (inclusive of financial, legal, counseling and consulting services), major client or organization receiving significant payments from the company or its group;
- 6) He/she is not and has not been, during the last three years, partner or employee of the current or former external audit company of the company or associated company;
- 7) He/she is not an executive director or member of the board in some other company where executive director of the company or member of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) is non-executive director or member of the supervisory board, he/she may not also have any other material relationships with executive directors of the company that arise from their participation in activities of other companies or bodies;
- 8) He/she has not been in the position of a member of the collegial body for over than 12 years;
- 9) He/she is not a close relative to an executive director or member of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) or to any person listed in above items 1 to 8. Close relative is considered to be a

spouse (common-law spouse), children and parents.		
3.8. The determination of what constitutes independence is fundamentally an issue for the collegial body itself to determine. The collegial body may decide that, despite a particular member meets all the criteria of independence laid down in this Code, he cannot be considered independent due to special personal or company-related circumstances.	Yes	Management Board of the Company is not going to be limited of its right to principally determine what constitutes independence. Management Board shall be entitled to decided that despite a particular member meets all the criteria of independence laid down in this Code, he/she may not be held independent due to special personal or Company related circumstances.
3.9. Necessary information on conclusions the collegial body has come to in its determination of whether a particular member of the body should be considered to be independent should be disclosed. When a person is nominated to become a member of the collegial body, the company should disclose whether it considers the person to be independent. When a particular member of the collegial body does not meet one or more criteria of independence set out in this Code, the company should disclose its reasons for nevertheless considering the member to be independent. In addition, the company should annually disclose which members of the collegial body it considers to be independent.	No	Company does not comply with this recommendation, whereas up till now determination of independence of members of the Management Board and announcement thereof has not been applied in practice. In the short run information on the independence of members of collegial body is going to start being collected following the criteria of determination of independence as laid down in this Code.
3.10. When one or more criteria of independence set out in this Code has not been met throughout the year, the company should disclose its reasons for considering a particular member of the collegial body to be independent. To ensure accuracy of the information disclosed in relation with the independence of the members of the collegial body, the company should require independent members to have their independence periodically re-confirmed.	No	Company does not comply with this recommendation whereas up till now determination of independence of members of the Management Board and announcement thereof has not been applied in practice. Moreover, less than one year has passed since the adoption of this Code. Company is going to announce reasons for holding one or another member independent, cases when members of the bodies do not meet the criteria of independence throughout the year and independent members of the Management Board shall be asked to confirm their independence.
3.11. In order to remunerate members of a collegial body for their work and participation in the meetings of the collegial body, they may be remunerated from the company's funds. The general shareholders' meeting should approve the amount of such remuneration.	Not applicable	Members of the Management Board are not remunerated from the Company's funds, therefore this provision is not relevant to the Company.
Principle IV: The duties and liabilities of a collegial body elected by the general shareholders' meeting The corporate governance framework should ensure proper and effective functioning of the collegial body elected by the general shareholders' meeting, and the powers granted to the collegial body should ensure effective monitoring of the company's management bodies and protection of interests of all the company's shareholders.		
4.1. The collegial body elected by the general shareholders'	Yes	Management Board of the Company analyzes, evaluates

Management Board submits to the General Meeting of Shareholders review and proposals regarding Company's annual financial statements, distribution of profit.
4.2. Members of the collegial body should act in good faith, with care and responsibility for the benefit and in the interests of the company and its shareholders with due regard to the interests of employees and public welfare. Independent members of the collegial body should (a) under all circumstances maintain independence of their analysis, decision-making and actions (b) do not seek and accept any unjustified privileges that might compromise their independence, and (c) clearly express their objections should a member consider that decision of the collegial body is against the interests of the company. Should a collegial body have passed decisions independent member has serious doubts about, the member should make adequate conclusions. Should an independent member resign from his office, he should explain the reasons in a letter addressed to the collegial body or audit committee and, if necessary,	Yes	Company's data show that all members of the Management Board act in good faith with regard to the Company, not in the interest of their own or third parties, but in that of the Company striving to maintain their independence when making their decisions.
respective company-not-pertaining body (institution). 4.3. Each member should devote sufficient time and attention to perform his duties as a member of the collegial body. Each member of the collegial body should limit other professional obligations of his (in particular any directorships held in other companies) in such a manner they do not interfere with proper performance of duties of a member of the collegial body. In the event a member of the collegial body should be present in less than a half of the meetings of the collegial body throughout the financial year of the company, shareholders of the company should be notified.	Yes	Company complies with this recommendation whereas members perform their duties properly: they actively take part in the meetings of the Management Board and devote sufficient time for the performance of the duties of members of collegial body.
4.4. Where decisions of a collegial body may have a different effect on the company's shareholders, the collegial body should treat all shareholders impartially and fairly. It should ensure that shareholders are properly informed on the company's affairs, strategies, risk management and resolution of conflicts of interest. The company should have a clearly established role of members of the collegial body when communicating with and committing to shareholders.	Yes	Collegial body of the Company always acts fairly and impartially with regard to all shareholders of the Company. Moreover, following this recommendation of the Code, regulation of work of the Management Board is going to be revised trying to find out means of setting out the role of members in the process of communication with shareholders more precisely.
4.5. It is recommended that transactions (except insignificant ones due to their low value or concluded when carrying out routine operations in the company under usual conditions), concluded between the company and its shareholders, members of the supervisory or managing bodies or other natural or legal persons that exert or may exert influence on the company's management should be subject to approval of the collegial body. The decision concerning approval of such transactions should be deemed adopted only provided the majority of the independent members of the collegial body voted for such a decision.	Yes	Company complies with this recommendation. Following regulation of work of the Management Board, contracts with Company's employees, members of the Management Board, shareholders, other interested persons or those closely related to the aforementioned are subject to the approval of the Management Board.

4.6. The collegial body should be independent in passing decisions that are significant for the company's operations and strategy. Taken separately, the collegial body should be independent of the company's management bodies. Members of the collegial body should act and pass decisions without an outside influence from the persons who have elected it. Companies should ensure that the collegial body and its committees are provided with sufficient administrative and financial resources to discharge their duties, including the right to obtain, in particular from employees of the company, all the necessary information or to seek independent legal, accounting or any other advice on issues pertaining to the competence of the collegial body and its committees.	Yes	Management Board of the Company is independent when making decisions having impact on Company's activity and strategy. Members of the Management Board are properly provided with all resources necessary for discharging their duties. Company's employees provide members of the Management Board with necessary information in order to make them able to properly discharge their duties and decide on matters pertaining to their competence.
4.7. Activities of the collegial body should be organized in a manner that independent members of the collegial body could have major influence in relevant areas where chances of occurrence of conflicts of interest are very high. Such areas to be considered as highly relevant are issues of nomination of company's directors, determination of directors' remuneration and control and assessment of company's audit. Therefore when the mentioned issues are attributable to the competence of the collegial body, it is recommended that the collegial body should establish nomination, remuneration, and audit committees. Companies should ensure that the functions attributable to the nomination, remuneration, and audit committees are carried out. However they may decide to merge these functions and set up less than three committees. In such case a company should explain in detail reasons behind the selection of alternative approach and how the selected approach complies with the objectives set forth for the three different committees. Should the collegial body of the company comprise small number of members, the functions assigned to the three committees may be performed by the collegial body itself, provided that it meets composition requirements advocated for the committees and that adequate information is provided in this respect. In such case provisions of this Code relating to the committees of the collegial body (in particular with respect to their role, operation, and transparency) should apply, where relevant, to the collegial body as a whole.	No	Matters referred to in this recommendation are decided by the Management Board of the Company and committees of nomination and remuneration have not been established up till now. The matter of the establishment of committee of remuneration, extension of functions of audit committee or reorganization thereof is going to be decided after analyzing factual demands and possibilities.
4.8. The key objective of the committees is to increase efficiency of the activities of the collegial body by ensuring that decisions are based on due consideration, and to help organize its work with a view to ensuring that the decisions it takes are free of material conflicts of interest. Committees should present the collegial body with recommendations concerning the decisions of the collegial body. Nevertheless the final decision shall be adopted by the collegial body. The recommendation on creation of committees is not intended, in principle, to constrict the competence of the collegial body or to remove the matters considered from the purview	No	Company has no committee of nomination and remuneration. According to the demand and following recommendations of the Governance Code for the Companies listed on the regulated market, the matter of the establishment of these committees is going to be resolved in the nearest future

When dealing with issues related to executive directors or members of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) and senior management, chief executive officer of the company should be consulted by, and entitled to submit proposals to the nomination committee.
- 4.13. Remuneration Committee.
- 4.13.1. Key functions of the remuneration committee should be the following:
- Make proposals, for the approval of the collegial body, on the remuneration policy for members of management bodies and executive directors. Such policy should address all forms of compensation, including the fixed remuneration, performance-based remuneration schemes, pension arrangements, and termination payments. Proposals considering performance-based remuneration schemes should be accompanied with recommendations on the related objectives and evaluation criteria, with a view to properly aligning the pay of executive director and members of the management bodies with the long-term interests of the shareholders and the objectives set by the collegial body;
- Make proposals to the collegial body on the individual remuneration for executive directors and member of management bodies in order their remunerations are consistent with company's remuneration policy and the evaluation of the performance of these persons concerned. In doing so, the committee should be properly informed on the total compensation obtained by executive directors and members of the management bodies from the affiliated companies;
- Make proposals to the collegial body on suitable forms of contracts for executive directors and members of the management bodies;
- Assist the collegial body in overseeing how the company complies with applicable provisions regarding the remuneration-related information disclosure (in particular the remuneration policy applied and individual remuneration of directors);
- Make general recommendations to the executive directors and members of the management bodies on the level and structure of remuneration for senior management (as defined by the collegial body) with regard to the respective information provided by the executive directors and members of the management bodies.
- 4.13.2. With respect to stock options and other share-based incentives which may be granted to directors or other employees, the committee should:
- Consider general policy regarding the granting of the above mentioned schemes, in particular stock options, and make any related proposals to the collegial body;
- Examine the related information that is given in the company's annual report and documents intended for the use during the shareholders meeting;
- Make proposals to the collegial body regarding the choice between granting options to subscribe shares or granting

• Observe the integrity of the financial information provided		
by the company, in particular by reviewing the relevance		
and consistency of the accounting methods used by the		
company and its group (including the criteria for the		
consolidation of the accounts of companies in the group);		
• At least once a year review the systems of internal control		
and risk management to ensure that the key risks (inclusive		
of the risks in relation with compliance with existing laws		
and regulations) are properly identified, managed and		
reflected in the information provided;		
• Ensure the efficiency of the internal audit function, among		
other things, by making recommendations on the selection,		
appointment, reappointment and removal of the head of the		
internal audit department and on the budget of the		
department, and by monitoring the responsiveness of the		
management to its findings and recommendations. Should		
there be no internal audit authority in the company, the need		
for one should be reviewed at least annually;		
Make recommendations to the collegial body related with		
selection, appointment, reappointment and removal of the		
external auditor (to be done by the general shareholders'		
meeting) and with the terms and conditions of his		
engagement. The committee should investigate situations		
that lead to a resignation of the audit company or auditor and		
make recommendations on required actions in such		
situations;		
• Monitor independence and impartiality of the external		
auditor, in particular by reviewing the audit company's		
compliance with applicable guidance relating to the rotation		
of audit partners, the level of fees paid by the company, and		
similar issues. In order to prevent occurrence of material		
conflicts of interest, the committee, based on the auditor's		
disclosed inter alia data on all remunerations paid by the		
company to the auditor and network, should at all times		
monitor nature and extent of the non-audit services. Having		
regard to the principals and guidelines established in the 16		
May 2002 Commission Recommendation 2002/590/EC, the		
committee should determine and apply a formal policy		
establishing types of non-audit services that are (a)		
excluded, (b) permissible only after review by the		
committee, and (c) permissible without referral to the		
committee;		
Review efficiency of the external audit process and		
responsiveness of management to recommendations made in		
the external auditor's management letter.		
4.14.2. All members of the committee should be furnished		
with complete information on particulars of accounting,		
financial and other operations of the company. Company's		
management should inform the audit committee of the		
methods used to account for significant and unusual		
transactions where the accounting treatment may be open to		
different approaches. In such case a special consideration		
should be given to company's operations in offshore centers		
		

and/or activities carried out through special purpose vehicles (organizations) and justification of such operations.

4.14.3. The audit committee should decide whether participation of the chairman of the collegial body, chief executive officer of the company, chief financial officer (or superior employees in charge of finances, treasury and accounting), or internal and external auditors in the meetings of the committee is required (if required, when). The committee should be entitled, when needed, to meet with any relevant person without executive directors and members of the management bodies present.		
4.14.4. Internal and external auditors should be secured with not only effective working relationship with management, but also with free access to the collegial body. For this purpose the audit committee should act as the principal contact person for the internal and external auditors.		
4.14.5. The audit committee should be informed of the internal auditor's work program, and should be furnished with internal audit's reports or periodic summaries. The audit committee should also be informed of the work program of the external auditor and should be furnished with report disclosing all relationships between the independent auditor and the company and its group. The committee should be timely furnished information on all issues arising from the audit.		
4.14.6. The audit committee should examine whether the company is following applicable provisions regarding the possibility for employees to report alleged significant irregularities in the company, by way of complaints or through anonymous submissions (normally to an independent member of the collegial body), and should ensure that there is a procedure established for proportionate and independent investigation of these issues and for appropriate follow-up action.		
4.14.7. The audit committee should report on its activities to the collegial body at least once in every six months, at the		
time the yearly and half-yearly statements are approved.		
4.15. Every year the collegial body should conduct the	No	Collegial body is going to conduct the assessment of its

collegial body member's and committee's competence and		
work efficiency and assessment whether the collegial body		
has achieved its objectives. The collegial body should, at		
least once a year, make public (as part of the information the		
company annually discloses on its management structures		
and practices) respective information on its internal		
organization and working procedures, and specify what		
material changes were made as a result of the assessment of		
the collegial body of its own activities.		

Principle V: The working procedure of the company's collegial bodies

The working procedure of supervisory and management bodies established in the company should ensure efficient operation of these bodies and decision-making and encourage active co-operation between the company's bodies.

5.1. The company's supervisory and management bodies (hereinafter in this Principle the concept 'collegial bodies' covers both the collegial bodies of supervision and the collegial bodies of management) should be chaired by chairpersons of these bodies. The chairperson of a collegial body is responsible for proper convocation of the collegial body meetings. The chairperson should ensure that information about the meeting being convened and its agenda are communicated to all members of the body. The chairperson of a collegial body should ensure appropriate conducting of the meetings of the collegial body. The chairperson should ensure order and working atmosphere during the meeting.	Yes	This recommendation is complied with by the Management Board of the Company. The Management Board is supervised by its president. Pursuant to the work regulation of the Management Board, president convokes meetings of the Management Boards on time and in place as set forth therein. Meetings of the Management Board are chaired by the president of the Management Board or other member of the Management Board, elected for chairing a particular meeting.
5.2. It is recommended that meetings of the company's collegial bodies should be carried out according to the schedule approved in advance at certain intervals of time. Each company is free to decide how often to convene meetings of the collegial bodies, but it is recommended that these meetings should be convened at such intervals, which would guarantee an interrupted resolution of the essential corporate governance issues. Meetings of the company's supervisory board should be convened at least once in a quarter, and the company's board should meet at least once a month.	Yes	Company complies with this recommendation. Pursuant to work regulation of the Management Board meetings have to be convoked not rarer that once in a quarter.
5.3. Members of a collegial body should be notified about the meeting being convened in advance in order to allow sufficient time for proper preparation for the issues on the agenda of the meeting and to ensure fruitful discussion and adoption of appropriate decisions. Alongside with the notice about the meeting being convened, all the documents relevant to the issues on the agenda of the meeting should be submitted to the members of the collegial body. The agenda of the meeting should not be changed or supplemented during the meeting, unless all members of the collegial body are present or certain issues of great importance to the company require immediate resolution.	Yes	Notice on a Meeting of the Management Board is sent to each member of the Management Board not later than 3 business days till the Meeting. The notice on the Management Board meeting has to include date, time, and location of the meeting as well as draft agenda. Final agenda and materials for meetings of the Management Board, including detailed description on issues to be discussed in the Management Board Meeting and draft resolutions shall be sent to members of the Management Board by the President of the Management Board no later than 2 business days till the Meeting of the Management Board. Members of the Management Board have the right to decide to discuss and vote for issues not included into agenda or make decisions the drafts whereof were not properly presented, if the Meeting is attended by all members of the Management Board and each of them agrees with it.
5.4. In order to co-ordinate operation of the company's collegial bodies and ensure effective decision-making process, chairpersons of the company's collegial bodies of supervision and management should closely co-operate by co-coordinating dates of the meetings, their agendas and resolving other issues of corporate governance. Members of the company's board should be free to attend meetings of the company's supervisory board, especially where issues concerning removal of the board members, their liability or remuneration are discussed.	No	Company can not comply with this recommendation whereas it has only one collegial body – Management Board.

Principle VI: The equitable treatment of shareholders and shareholder rights

The corporate governance framework should ensure the equitable treatment of all shareholders, including minority and foreign

shareholders. The corporate governance framework should protect the rights of the shareholders.			
6.1. It is recommended that the company's capital should consist only of the shares that grant the same rights to voting, ownership, dividend and other rights to all their holders.	Yes	Company's statutory capital consists of ordinary registered shares granting the same rights to all their holders.	
6.2. It is recommended that investors should have access to the information concerning the rights attached to the shares of the new issue or those issued earlier in advance, i.e. before they purchase shares.	Yes	Company gives public announcements to investors on the rights that new or previously issued shares confer. Prospectuses on newly issued shares for public distribution are available on Company's webpage, at Company's seat.	
6.3. Transactions that are important to the company and its shareholders, such as transfer, investment, and pledge of the company's assets or any other type of encumbrance should be subject to approval of the general shareholders' meeting. All shareholders should be furnished with equal opportunity to familiarize with and participate in the decision-making process when significant corporate issues, including approval of transactions referred to above, are discussed.	No	Current Articles of Association of the Company do not contain material criteria for contracts that could be the basis for definition of contracts requiring approval of the General Meeting of Shareholders. In future Company shall consider necessity of the implementation of this recommendation.	
6.4. Procedures of convening and conducting a general shareholders' meeting should ensure equal opportunities for the shareholders to effectively participate at the meetings and should not prejudice the rights and interests of the shareholders. The venue, date, and time of the shareholders' meeting should not hinder wide attendance of the shareholders. Prior to the shareholders' meeting, the company's supervisory and management bodies should enable the shareholders to lodge questions on issues on the agenda of the general shareholders' meeting and receive answers to them.	Yes	Company complies with this recommendation. Information on the prospective General Meetings of Shareholders is announced via informational system of Vilnius stock exchange and in the newspaper indicated in Articles of Association. Meetings are usually convoked at the end of a business day and in such a place that all shareholders could have conditions to attend them. Material of the Meeting is available not later than 10 days till the Meeting, telephone for inquiries is given.	
6.5. It is recommended that documents on the course of the general shareholders' meeting, including draft resolutions of the meeting, should be placed on the publicly accessible website of the company in advance. It is recommended that the minutes of the general shareholders' meeting after signing them and/or adopted resolutions should be also placed on the publicly accessible website of the company. Seeking to ensure the right of foreigners to familiarize with the information, whenever feasible, documents referred to in this recommendation should be published in English and/or other foreign languages. Documents referred to in this recommendation may be published on the publicly accessible website of the company to the extent that publishing of these documents is not detrimental to the company or the company's commercial secrets are not revealed.	Yes	Draft resolutions prepared for the General Meeting of Shareholders are announced in advance in Lithuanian and English on Company's webpage. Beginning with this year Company is going to publicly announce Minutes of General Meetings of Shareholders.	
6.6. Shareholders should be furnished with the opportunity to vote in the general shareholders' meeting in person and in absentia. Shareholders should not be prevented from voting in writing in advance by completing the general voting ballot.	Yes	Company's shareholders can realize their right to attend General Meeting of Shareholders either personally or through a representative, if a person has a duly issued authorization or following relevant law he has a contract on the transfer of voting right concluded. Company furnishes shareholders with opportunity to vote by filling a general voting ballot as it is set forth by the Law on Companies of the Republic of Lithuania.	

6.7. With a view to increasing the shareholders' opportunities to participate effectively at shareholders' meetings, the companies are recommended to expand use of modern technologies in voting processes by allowing the shareholders to vote in general meetings via terminal equipment of telecommunications. In such cases security of telecommunication equipment, text protection and a possibility to identify the signature of the voting person should be guaranteed. Moreover, companies could furnish its shareholders, especially foreigners, with the opportunity to watch shareholder meetings by means of modern technologies.

Not applicable

Up till this date Company had no necessity in complying with this recommendation, because there are only a few foreign shareholders and they successfully realize their rights by sending their representatives to attend General Meeting of Shareholders or by casting their vote in advance in the form of general voting ballot.

Principle VII: The avoidance of conflicts of interest and their disclosure

The corporate governance framework should encourage members of the corporate bodies to avoid conflicts of interest and assure transparent and effective mechanism of disclosure of conflicts of interest regarding members of the corporate bodies.

7.1. Any member of the company's supervisory and management body should avoid a situation, in which his/her personal interests are in conflict or may be in conflict with the company's interests. In case such a situation did occur, a member of the company's supervisory and management body should, within reasonable time, inform other members of the same collegial body or the company's body that has elected him/her, or to the company's shareholders about a situation of a conflict of interest, indicate the nature of the conflict and value, where possible. 7.2. Any member of the company's supervisory and management body may not mix the company's assets, the use of which has not been mutually agreed upon, with his/her personal assets or use them or the information which he/she learns by virtue of his/her position as a member of a corporate body for his/her personal benefit of for the benefit of any third person without a prior agreement of the general sharcholders' meeting or any other corporate body authorized by the meeting. 7.3. Any member of the company's supervisory and management body may conclude a transaction with the company, a member of a corporate body or which he/she is. Such a transaction (except insignificant ones due to their low value or concluded when carrying out routine operations in the company is the meeting. 7.4. Any member of the company's supervisory and management body should abstain from voting when decisions concerning transactions or other issues of personal or business interest are voted on.		T

Prior to the annual general meeting that is intended to consider decision stipulated in Article 8.8, the shareholders must be provided an opportunity to familiarize with draft resolution and project-related notice (the documents should be posted on the company's website). The notice should contain the full text of the share-based remuneration schemes or a description of their key terms, as well as full names of the participants in the schemes. Notice should also specify the relationship of the schemes and the overall remuneration policy of the directors. Draft resolution must have a clear reference to the scheme itself or to the summary of its key terms. Shareholders must also be presented with information on how the company intends to provide for the shares required to meet its obligations under incentive schemes. It should be clearly stated whether the company intends to buy shares in the market, hold the shares in reserve or issue new ones. There should also be a summary on scheme-related expenses the company will suffer due to the anticipated application of the scheme. All information given in this article must be posted on the company's website.

Principle IX: The role of stakeholders in corporate governance

The corporate governance framework should recognize the rights of stakeholders as established by law and encourage active cooperation between companies and stakeholders in creating the company value, jobs and financial sustainability. For the purposes of this Principle, the concept "stakeholders" includes investors, employees, creditors, suppliers, clients, local community and other persons having certain interest in the company concerned.

- 9.1. The corporate governance framework should assure that the rights of stakeholders that are protected by law are respected.
- 9.2. The corporate governance framework should create conditions for the stakeholders to participate in corporate governance in the manner prescribed by law. Examples of mechanisms of stakeholder participation in corporate governance include: employee participation in adoption of certain key decisions for the company; consulting the employees on corporate governance and other important issues; employee participation in the company's share capital; creditor involvement in governance in the context of the company's insolvency, etc.
- 9.3. Where stakeholders participate in the corporate governance process, they should have access to relevant information.

Yes Company's management system ensures that the rights of shareholders are not infringed. Rights of employees are protected by labor law,

Principle X: Information disclosure and transparency

The corporate governance framework should ensure that timely and accurate disclosure is made on all material information regarding the company, including the financial situation, performance and governance of the company.

Yes

- 10.1. The company should disclose information on:
- The financial and operating results of the company;
- Company objectives;
- Persons holding by the right of ownership or in control of a block of shares in the company;
- Members of the company's supervisory and management bodies, chief executive officer of the company and their remuneration:
- Material foreseeable risk factors;
- Transactions between the company and connected persons, as well as transactions concluded outside the course of the company's regular operations;
- Material issues regarding employees and other stakeholders;
- Governance structures and strategy.

This list should be deemed as a minimum recommendation, while the companies are encouraged not to limit themselves to disclosure of the information specified in this list.

10.2. It is recommended that consolidated results of the whole group to which the company belongs should be disclosed when information specified in item 1 of Recommendation 10.1 is under disclosure.

10.3. It is recommended that information on the professional background, qualifications of the members of supervisory and management bodies, chief executive officer of the company should be disclosed as well as potential conflicts of interest that may have an effect on their decisions when information specified in item 4 of Recommendation 10.1 about the members of the company's supervisory and management bodies is under disclosure. It is also recommended that information about the amount of remuneration received from the company and other income should be disclosed with regard to members of the company's supervisory and management bodies and chief executive officer as per Principle VIII.

10.4. It is recommended that information about the links between the company and its stakeholders, including employees, creditors, suppliers, local community, as well as the company's policy with regard to human resources, employee participation schemes in the company's share capital, etc. should be disclosed when information specified in item 7 of Recommendation 10.1 is under disclosure.

10.5. Information should be disclosed in such a way that neither shareholders nor investors are discriminated with regard to the manner or scope of access to information. Information should be disclosed to all simultaneously. It is recommended that notices about material events should be announced before or after a trading session on the Vilnius Stock Exchange, so that all the company's shareholders and investors should have equal access to the information and make informed investing decisions.

Information on the Company set forth in these recommendations is published on Company's webpage, via Vilnius stock exchange informational system, in Company's activity reviews.

Company implements this recommendation by announcing information both, in Lithuanian and English, whenever possible, via information disclosure system of Vilnius Stock Exchange. Vilnius Stock Exchange publishes this information on its webpage and in its market system ensuring simultaneous provision of information to everyone. Moreover, Company announces information before or after a trading session on the Vilnius Stock Exchange and presents it simultaneously to all markets trading in Company's stock. Information prospectively able of influencing price of issued stock is not

disclosed by the Company in its comments, interview or by other means as long as this type of information is not publicly

		announced via informational system of Vilnius Stock Exchange.
10.6. Channels for disseminating information should provide for fair, timely and cost-efficient access to relevant information by users. It is recommended that information technologies should be employed for wider dissemination of information, for instance, by placing the information on the company's website. It is recommended that information should be published and placed on the company's website not only in Lithuanian, but also in English, and, whenever possible and necessary, in other languages as well.	Yes	Company ensures fair, timely and cost-efficient access to information by announcing it on its webpage in Lithuanian and English.
10.7. It is recommended that the company's annual reports and other periodical accounts prepared by the company should be placed on the company's website. It is recommended that the company should announce information about material events and changes in the price of the company's shares on the Stock Exchange on the company's website too.	Yes	Company complies with this recommendation by announcing all information enumerated in this recommendation on Company's webpage.

Principle XI: The selection of the company's auditor

The mechanism of the selection of the company's auditor should ensure independence of the firm of auditor's conclusion and opinion.
