Management Report

Dear shareholders and partners!

In the first three months of 2017 (hereinafter also referred to as the Reporting Period), Joint Stock Company Reverta continued efforts to work out the distressed assets and to recover funds, at the same time, working actively to sell the remaining loan portfolios and to get ready for the planned liquidation of the company.

In February 2017, Reverta made a regular interest payment to the State Treasury in the amount of EUR 3.7 M. Overall, since the beginning of this year, the State Treasury has received from Reverta EUR 7.3 M because another payment of EUR 3.6 M was made already after the Reporting Period. Since 1 August 2016 till the end of Reporting Period, Reverta has repaid the State Treasury more than EUR 430 M but the total amount repaid to the State in the form of various payments is EUR 690.3 M, including EUR 16 M paid in tax.

During the Reporting Period, Reverta recovered EUR 13.5 M from the workout and sales of distressed assets, but the total amount of recovered funds since 1 August 2010 has reached EUR 753.7 M which is 67 per cent of all distressed assets left to Reverta after the takeover and split of Parex Bank. This result significantly exceeds initial estimates of the company's management and also the average figures of the distressed assets sector.

Good results have been achieved also in the sales of real estate properties – during the Reporting Period 17 real estate objects, including land plots, were sold for the total amount of EUR 4.3 M. By the end of the Reporting Period, the real estate portfolio had decreased to approximately 50 objects and it is planned that the remaining real estate properties will be sold by the completion of the liquidation of the company. During its operation, Reverta has sold a total of 1800 real estate properties. This result confirms the correctness of Reverta's chosen sales strategy: to establish a small and efficient sales unit with ambitious but clearly defined goals and tasks in place, to review the prices of the real estate objects on a regular basis and in line with market realities, and also to identify and address appropriate target audience.

During the Reporting Period, Reverta's losses were in the amount of EUR 5.7 M and consisted mainly of interest expense on the State aid. In view of the low quality of the assets left to Reverta, losses were incorporated already in the Restructuring Plan and cannot be regarded as the measure of the performance of Reverta.

Reverta's total assets at the end of the Reporting Period were EUR 51.6 M, as compared to EUR 1.1 B at the start of operation. Reverta has already worked out and disposed of all other assets, and the recovered funds have been repaid to the State. To suit the reducing assets and the liquidation process that will be commenced soon, Reverta's operation has been adjusted and the staff numbers have been decreased.

In order to implement the EC approved Restructuring Plan which envisages completion of the workout of Reverta's portfolio and closing of all operations by the end of 2017, Reverta together with the financial consultant KMPG Baltics continued the efforts to sell the remaining loan portfolios. During the Reporting Period, the assessment of four binding offers was commenced.

Events after the end of the Reporting Period:

- On 5th, 12th, and 13th May 2017, Reverta made regular interest payments to the State Treasury in the total amount of EUR 3.6 M;

- On 29 May 2017, annual general meeting of Reverta's shareholders took place, during which the shareholders approved Reverta's Annual Report for the year ended 31 December 2016, selected external auditors for the year 2017, elected Audit Committee, approved amendments to Reverta's Articles of Association, and made a decision to commence the liquidation of Reverta on 1 July 2017;
- The assessment of the binding offers of investors is still going on, and soon the best offer will be submitted to the Cabinet of Ministers of the Republic of Latvia for the reviewing.

Solvita Deglava Chairperson of the Management Board Ruta Amtmane Member of the Management Board

According to Amendments to the Law on Control of Aid for Commercial Activity, which became effective from 1 July 2014, fulfillment of Reverta's subordinated liabilities, i.e. principal and interest payments on subordinated loans will be allowed only after a full repayment of the State aid. Therefore, starting from 1 July 2014, Reverta has suspended calculation and payment of the interest on subordinated loans and the principal.

Risk management

The Group's risk is managed according to principles set out in Group's Risk Management Policy. The Group adheres to the following key risk management principles:

- Undertaking an acceptable risk level is one of the Group's main functions in all areas of operation. Risks are always assessed in relation to the expected return. Risk exposures that are not acceptable for the Group are, where possible, avoided, limited or hedged;
- The Group does not assume new high or uncontrollable risks irrespective of the return they provide. Risks should be diversified and those risks that are quantifiable should be limited or hedged;
- Risk management is based on awareness of each and every Group's employee about the nature of transactions he/she carries out and related risks;
- The Group aims to ensure as low as possible risk exposure and low level of operational risk.

Risk management is an essential element of the Group's management process. Risk management within the Group is controlled by an independent unit unrelated to customer servicing - Risk Management & Operational Department.

The Group is exposed to the following main risks: credit risk, liquidity risk, currency risk and operational risk. The Group has approved risk management policies for each of these risks, which are briefly summarised below.

Credit risk

Credit risk is the risk that the Group will incur losses from debtor's non-performance or default. The group is exposed to credit risk in its loan restructuring activities.

Credit risk management is based on adequate risk assessment and decision-making. For material risks, risk analysis is conducted by independent Risk Management & Operational Department. The analysis of credit risk comprises evaluation of customer's creditworthiness and collateral and its liquidity. The analysis of creditworthiness of a legal entity includes analysis of the industry, the company, and its current and forecasted financial position. The analysis of creditworthiness of an individual includes the analysis of the customer's credit history, income and debt-to-income ratio analysis, as well as the analysis of social and demographic factors. All decisions about loan restructuring or changes in loan agreements are made by the Credit Committee and further reviewed by the Company's Management Board.

The Group reviews its loan portfolio on a regular basis to assess its quality and concentrations, as well as to evaluate the portfolio trends.

Credit risk identification, monitoring and reporting is the responsibility of Risk Management & Operational Department.

Liquidity risk

Liquidity risk is the risk that the Group will be unable to meet its legal payment obligations. The purpose of liquidity risk management is to ensure the availability of liquid assets sufficient to meet potential obligations.

Under ordinary circumstances the Group manages its liquidity risk in accordance with the Group's Liquidity Risk Management Policy. Liquidity risk is assessed and related decisions are made by the Company's Management Board. Daily liquidity management, as well as liquidity risk measurement, monitoring and reporting, is ensured by the Finance, Risk Management & Operational Department. Liquidity risk management in the Group is coordinated by the Finance, Risk Management & Operational Department. The main source of liquidity are debt securities issued by the Company.

Operational risk

Operational risk is the risk of suffering losses resulting from processes that are deficient or non-compliant with requirements of external and internal regulations, losses resulting from actions of employees and system malfunctioning, as well as losses resulting from actions of third parties or from other external conditions, including legal risk (risk of penalty fees, sanctions applied by external institutions, losses resulting from litigation and other similar events), but excluding strategic risk and reputation risk. The Group further divides operational risk into the following categories: personnel risk, process risk, IT and systems risk, external risk.

The Group does not undertake / accept operational risks with unquantifiable impact that are concurrently unmanageable (it is impossible to prevent such risks or provide for their consequences – e.g. non-compliance with legal regulations etc.), irrespective of the financial gains this could bring (i.e., the Group does not perform business activities incurring such operational risks).

The Group applies following approaches for operational risk management:

- Defining operational risk indicators use of statistical, financial and other indicators that reflect the level of various operational risk types and its changes within the Group;
- Operational risk measurement by recording and analysing operational risk events, the extent of the respective damage incurred, causes and other related information (data base of operational risk losses and incidents);
- "Four-eye-principle" and segregation of duties;
- Business continuity planning;
- Insurance;
- Investments in appropriate data processing and information protection technologies.

Currency risk

Currency risk is related to mismatch in foreign currency asset and liability positions that impact the Group's cash flow and financial results via fluctuations in currency exchange rates.

Currency risk management in the Group is carried out in accordance with the Group options. Day-to-day currency risk monitoring, management and reporting is the responsibility of Finance, Risk Management & Operational Department.
