

# Press release

For immediate release

23 April 2007

**Dynamic annual report published: [www.cybercomgroup.com/2006](http://www.cybercomgroup.com/2006)**

**Cybercom Group Europe AB (publ) today announced publication of its 2006 annual report (AR) at [www.cybercomgroup.com/2006](http://www.cybercomgroup.com/2006).**

For the first time, Cybercom is presenting a *dynamic* AR, which is displayed from a new electronic platform for ARs. Cybercom developed the platform with Hallvarsson & Halvarsson, a financial communication consultancy. The AR will not be published in print; it is totally developed for the web, with functionality adapted for this medium.

“Cybercom’s assignments are often on the cutting edge technological developments,” says Kristina Svensson, Cybercom’s Communications manager. “So it’s natural that we are on the cutting edge in other areas, such as annual reports.”

**A few functions:**

- Expandable/contractible income statements, balance sheets, and cash flow statements that facilitate financial reporting transparency
- User-generated diagrams
- Sophisticated search and navigation
- User-generated comments/notes that can be saved and that are printable
- Fast links to spread sheets and other parts of the AR
- Audio – so users can listen to the AR
- Downloading and printing from a PDF file

**For more information, please contact:**
