Appendix 1

(this Appendix forms part of the Final Terms to which it is attached)

On the Maturity Date, the Final Redemption Amount per Denomination will be determined by the Calculation Agent as:

$$100\% + \textit{Participation Rate} \times \textit{MAX} \left(\frac{\textit{Index}(\textit{end}) - \textit{Index}(\textit{start})}{\textit{Index}(\textit{start})}; 0 \right)$$

Where

Index(start) is the arithmetic average of the official Index Values of the Index on each of 2 May 2007, 3 May 2007 and 4 May 2007, each of these dates an Averaging Date.

Index(end) is the arithmetic average of the official Index Values of the Index on each of 4 November 2009, 4 December 2009, 4 January 2010, 4 February 2010, 4 March 2010, 4 April 2010 and 4 May 2010, each of these dates an Averaging Date.

Index is the MSCI Taiwan Index as can be observed on Bloomberg page TWY Index.

Index Values are the value of the Index at close of market on each of the applicable Averaging Dates, as observed by the Calculation Agent. If an Averaging Date is not an Index Business Day or the Index for any other reason the Index is not published, the Averaging Date will be postponed, and the following Business Day will be used as Averaging Date. If an Averaging Date has been postponed for eight days then the Index Value will be determined by the Calculation Agent in its full discretion, acting in good faith and in a commercially reasonable manner.

Participation Rate will be fixed by the Calculation Agent on 30 April 2007. Should it not be possible for the Calculation Agent to fix the Participation Rate at or above 85 per cent., the issue of the Notes will be cancelled.

Index Business Day means for the observation of the Averaging Dates days on which the Taiwan Stock Exchange is open for business.
