Uppsala 22 March 2007

Biotage – Change of security type

At the Annual General Meeting held on 27 April 2006, the shareholders resolved to adopt new Articles of Association. According to the new Articles of Association, the company shall have only one class of shares and that shall be common shares. Consequently, the company's A-shares are changed to shares without serial identification. This means that the security type Ak A is changed to Ak in the VPC system. The record date at VPC is 29 March 2007.

The Biotage share will have the new trading name BIOT. First day for trading under the new trading name is 27 March 2007.

New ISIN-code is SE0000454746.

About Biotage

Biotage is a global company active in life science research with strong technologies, a broad range of operations and a long-term view of the market. The company offers solutions, knowledge and experience in the areas of genetic analysis and medicinal chemistry. In 2005 operations and products were acquired from the American company Argonaut, further strengthening the medicinal chemistry product range. The customers include the worlds top 30 pharmaceutical companies, the worlds top 20 biotech companies, and leading academic institutes. The company is headquartered in Uppsala and has offices in the U.S., Japan, UK, Germany and several other European countries. Biotage has 333 employees and had sales of 520 MSEK in 2006. Biotage is listed on the Stockholm stock exchange. Website: www.biotage.com
