Acquisitions shall be paid for primarily with money from funds appropriated by a general meeting. The aim of the acquisition of own shares is to distribute excess capital to the shareholders and to make it possible to use own shares as payment in connection with acquisitions of companies or businesses or in order to finance acquisitions of companies or businesses.

b) conveyance of shares in the Company

The board of directors' proposal: The general meeting authorises the board of directors, for the period until the next annual general meeting of shareholders, to decide on conveyance of shares in the Company to be used as payment in connection with acquisitions of companies or businesses or in order to finance acquisitions of companies or businesses. Conveyance of shares may be made in another way than on a stock exchange up to the number of shares in the Company that at any time are held by the Company. 19. The guidelines for remuneration to the executive officers

The board of directors' proposal: Nordea shall adhere to the remuneration levels and terms of employment that are required to recruit and retain an executive management with competence and capacity to attain the set goals. A fixed salary is paid for satisfactory work. In addition, it shall be possible to offer variable salary, which rewards clearly goal-related performance in a simple and transparent structure. A Long Term Incentive Programme is proposed to be introduced. The programme, which is share- and performance-based, requires an initial investment by the participants. According to the programme the remuneration is proposed to be given in the form of a right to acquire Nordea shares. Variable salary must not in general exceed 50 per cent of a fixed salary and will depend on the extent to which previously agreed targets have been fulfilled. If the proposed Long Term Incentive Programme is approved the variable cash remuneration will as a general rule not exceed 35 per cent of fixed salary. Variable salaries are determined by to what extent predetermined personal objectives are met and the level of return on equity achieved or other financial targets are reached, respectively. Non-monetary benefits are given as a means to facilitate Group Executive Management members in their work performance and should correspond to what may be considered reasonable in relation to established practice in the market. Pension conditions shall also be adapted to conditions on the market in relation to the situation in the country where the member of Group Executive Management permanently resides. Notice and severance pay in total shall not exceed 24 months' of fixed salary, apart from the new CEO who during the first two years will have 30 months' pay.

The above guidelines shall include the managing director and the executives who report to him and who are also members of Group Executive Management.

20. The introduction of a Long Term Incentive Programme and transfer of shares under the programme

a) Introduction of a Long Term Incentive Programme

Background

As from 2003 the Nordea Group has had an Executive Incentive Programme in place, targeting approximately 350 managers and key employees in Nordea. The purpose of the programme has been to support the realisation of Nordea's financial targets. On its Capital Markets Day in December 2006 Nordea introduced a set of new financial targets including the objective of doubling the risk

adjusted profit in seven years, which implies an annual growth rate of 10 per cent. As a consequence of that, the Board now proposes a replacement of the existing programme with a Long Term Incentive Programme ("LTIP 2007") targeting up to 400 managers and key employees identified as essential to the future development of the Nordea Group. The underlying basic principles for compensation under the LTIP 2007, are that the compensation shall be dependent on the creation of long term shareholder value and the fulfilment of Nordea's financial targets, which are based on the principles of risks adjusted profit, total shareholder return and return on equity.

The LTIP 2007

The Board's main objective with the proposal is to strengthen Nordea's capability to retain and recruit the best talent for key leadership positions. The aim is further to stimulate the managers and key employees whose efforts have direct impact on Nordea's result, profitability and value growth, to increased efforts by aligning their interests and perspectives with those of the shareholders.

The implementation of the LTIP 2007 will mean that the participants take direct ownership by investing in Nordea shares. For each ordinary Nordea share the participant invests and locks in to the LTIP 2007, the participant is granted the right ("A Right") to acquire one ordinary share for an exercise price of EUR 4 at a future date ("Matching Share") and the rights ("B, C and D Rights") to acquire three additional ordinary shares for an exercise price per share of EUR 2, at a future date conditional upon fulfilment of certain performance conditions ("Performance Shares").

A requirement for the exercise of the A-D Rights is that the participant, with certain exemptions, remains employed within the Nordea Group during the initial two year vesting period and that all Nordea shares locked in to the LTIP 2007 are kept during this period. The LTIP 2007 is proposed to have a term of four years, including the initial vesting period, and the programme is intended to be followed by similar long term incentive programmes in future years.

The number of Nordea shares each participant may lock in to the LTIP 2007, which in turn entitles to the corresponding number of A, B, C and D Rights, respectively, may not exceed a number equivalent to 10 per cent of the participant's base salary divided by the closing share price of the Nordea share as of yearend 2006. In total, the LTIP 2007 comprises a maximum of 3,120,000 ordinary shares, of which 650,000 consist of Matching Shares and 1,950,000 consist of Performance Shares. The additional 520,000 ordinary shares relate to such shares that may be transferred by Nordea in order to cover certain costs, mainly social security costs. The maximum number of ordinary shares comprised by the LTIP 2007 amounts to approximately 0.12 per cent of the outstanding ordinary shares.

Performance conditions

The exercise of A Rights to acquire Matching Shares is, in addition to the conditions mentioned above, not subject to any performance conditions.

The exercise of B-D Rights to acquire Performance Shares is, in addition to the conditions mentioned above, subject to the fulfilment of certain performance conditions. These performance conditions relate to growth in risk adjusted profit per share and total shareholder return in comparison to a tailor-made index consisting of the Nordic and European banks constituting Nordea's peers as defined by the Board. The performance conditions are measured based on financial targets during the financial years of 2007 and 2008.

Exercise price

An exercise price significantly below the current ordinary share price motivates the participants to perform even if the share price falls below the current level, thereby further aligning the participants' interests with those of the shareholders.

In order to equal the participants with the shareholders and to motivate participants to keep their A-D Rights to acquire Matching Shares and Performance Shares also after the vesting period, it is proposed that the exercise price will be adjusted for dividends during the vesting and exercise period (until exercise), however never adjusted below EUR 0.10.

Caps

The profit per A-D Right is capped to a maximum of EUR 25 per Right.

Estimated costs of the LTIP 2007

The cost in the profit and loss accounts of the total value of the LTIP 2007 for the participants is EUR 14.6 m to be expensed over the first 24 months in accordance with IFRS 2 on share-based payments. In the profit and loss accounts social security costs will accrue in accordance with generally accepted accounting principles. The size of these costs will be calculated on the benefits derived from the difference between the exercise price and the share price at exercise. The cost of the LTIP 2007 including social security costs equals approximately EUR 17.7 m, which is equivalent to approximately 0.8 per cent of Nordea's total staff costs in financial year 2006. The maximum cost for the LTIP 2007 equals approximately EUR 38.6 m, including EUR 13.0 m in social security costs.

Effects on key ratios

The costs and the dilution are expected to have a marginal impact on the Nordea Group's key ratios.

Participants

The LTIP 2007 is targeting managers and key employees within the Nordea Group in Denmark, Finland, Norway and Sweden. In addition, a number of managers and key employees working in other countries will be invited to participate in the programme. If delivery of shares cannot be accomplished at reasonable costs and with reasonable administrative efforts to persons outside the mentioned Nordic countries the participating person may instead be offered a cash based settlement.

The board of directors' proposal: Referring to the above-mentioned description, the Board proposes that the Annual General Meeting decides on a Long Term Incentive Programme 2007, basically based upon the below referred conditions and principles.

1. The duration of the LTIP 2007 shall be four years with an initial vesting period of two years and a measurement period of performance conditions during the financial years 2007 and 2008. The LTIP 2007 will target up to 400 managers and key employees identified as essential to the future development of the Nordea Group.
2. For each ordinary share the participant invests and locks in to the LTIP 2007 the participant is granted a right, A Right, to acquire one ordinary share for an exercise price of EUR 4 at a future date (a Matching Share) and rights, B, C and D Rights, to acquire three additional ordinary shares for an exercise price per share of EUR 2, at a future date conditional upon fulfilment of certain performance conditions (Performance Shares). Under certain circumstances participants may instead be offered a cash based settlement.
3. The A-D Rights to acquire Matching Shares and Performance Shares shall be granted in connection with the announcement of the interim report for the first quarter 2007, with certain individual exemptions. The exercise price for the acquisition of Matching Shares and Performance Shares, respectively, in accordance with the A-D Rights shall be adjusted for dividends during the vesting and exercise period (until exercise). The adjusted exercise price may however not be lower than EUR 0.10.

4. The number of granted A-D Rights that finally can be exercised for the acquisition of Matching Shares and Performance Shares is conditional upon continued employment, the holding of locked in shares and, for B-D Rights, on certain predetermined performance conditions, such as increase in risk adjusted profit per share and total shareholder return compared to certain Nordic and European banks.
5. The Board is authorised to decide on detailed terms and conditions of the LTIP 2007.

Majority Requirement

The Board's proposal regarding the introduction of the LTIP 2007 is valid where supported by shareholders holding more than half of the votes cast at the General Meeting of Shareholders.

b) Transfer of shares under the Long Term Incentive Programme*Background*

In order to implement the LTIP 2007 in a cost efficient and flexible manner, the Board has considered different hedging methods for the transfer of Nordea shares under the programme, like issuing redeemable and convertible C-shares, an equity swap agreement with a third party and buy back of own shares over the exchange. Based on these considerations the Board intends to hedge the financial exposure by way of entering into an equity swap agreement with a third party or, provided that the Annual General Meeting of Shareholders resolves in accordance with this item on the agenda, by way of an issue of redeemable and convertible C-shares. The Board regards the alternative including an issue of redeemable and convertible C-shares as the most cost efficient and flexible method for the transfer of shares and for covering certain costs, mainly social security costs, for the LTIP 2007, and for that reason the Board proposes that the Annual General Meeting of Shareholders resolves in accordance with the Board's proposal below.

The proposal includes that the shareholders' meeting resolves on an amendment of the Articles of Association to the effect that redeemable C-shares can be issued and that a conversion clause is incorporated in the Articles of Association to the effect that C-shares can be converted to ordinary shares. Further, a directed cash issue of a total amount of 3,120,000 C-shares shall be offered to Alecta, and the subscription price shall be equal to the quotient value of the share (EUR 1), and the Board is authorised to decide on a directed offer to acquire all outstanding C-shares at a lowest price of EUR 1 and a highest price of EUR 1.05 per share and also that C-shares, subsequent to a conversion to ordinary shares, shall be transferred to participants in the LTIP 2007, and moreover that a portion of the shares also can be transferred on a stock exchange in order to cover certain costs, mainly social security costs.

The board of directors' proposal: With reference to the background above, the Board of Directors proposes that the Annual General Meeting resolves on transfer of shares under the LTIP 2007 in accordance with the terms and conditions set out below.

1) Amendment of the Articles of Association, article 6

The Articles of Association are amended to the effect that a new class of shares, called C-shares, can be issued, carrying a voting power of one tenth (1/10) of a vote per share. The C-share does not entitle to any dividend. Further, the C-share is redeemable at the initiative of the Company's Board. In case of redemption, the share redemption amount shall be the share's quotient value, indexed with an interest factor of Euribor for the relevant period supplemented by 1.00 percentage units. Further, C-shares may, after a decision of the Company's Board, be converted to ordinary shares.

2) Directed Cash Issue

Copenhagen, Helsinki, Oslo, Stockholm, 25 October 2001 11(11)

Increase of Nordea's share capital by EUR 3,120,000 through an issue of 3,120,000 C-shares, each share having a quotient value of EUR 1.

The issue will be effected on the following terms.

- a) The new shares shall – with deviation from the shareholders' preferential right to subscribe for shares – be subscribed for only by Alecta pensionsförsäkring, ömsesidigt.
- b) The new shares shall be issued at a price of EUR 1 per share.
- c) The new shares shall be subscribed for during the period 28 May – 8 June 2007, with a right for the Board to extend the subscription period. Oversubscription is not permitted.
- d) Payment for shares subscribed for shall be effected at subscription of the shares.
- e) The new shares do not entitle to any dividend.
- f) The new shares will be subject to restrictions as set forth in Chapter 4, Section 6 (conversion provision) and Chapter 20, Section 31 (redemption provision) in the Swedish Companies Act (2005:551).

3) Authorisation for the Board to decide on a directed offer to acquire own shares

Authorisation for the Board to decide on acquisition of C-shares in Nordea on the following terms.

- a) **Acquisitions may be made through a public offer directed to all owners of C-shares in Nordea.**
- b) **The authorisation is valid and may be exercised until the Annual General Meeting of Shareholders 2008.**
- c) **The number of C-shares permitted to be acquired shall amount to 3,120,000.**
- d) **Acquisition of shares shall be made at a lowest price of EUR 1 and a highest price of EUR 1.05 per share.**
- e) **Payment for shares acquired shall be made in cash.**
- f) **The Board shall be authorised to establish additional terms for the acquisition.**

4) Transfer of shares acquired

The Board intends, in accordance with provisions in the Articles of Association, to decide on conversion of all C-shares to ordinary shares.

Resolution on transfer of the Company's own shares may be made on the following terms.

- a) **Transfer may be made only of ordinary shares in Nordea and a maximum of 2,600,000 shares may be transferred to participants in the LTIP 2007.**
- b) **Right to acquire shares shall be granted to persons within the Nordea Group who are covered by the terms and conditions for the LTIP 2007.**
- c) **The right to acquire shares shall be exercised during the period the participant in the LTIP 2007 has the right to acquire shares in accordance with the terms of the LTIP 2007, i.e. during certain periods within the period commencing on and including the first trading day following Nordea's announcement of its first quarterly report in the year 2009 up to and including the fourteenth calendar day following Nordea's announcement of its first quarterly report in the year 2011.**
- d) **The participant in the LTIP 2007 shall pay for each ordinary share within 10 banking days from the day the participant has requested to exercise his or her right to acquire the share.**
- e) **The participant in the LTIP 2007 shall for each share pay the price, which follows from the terms and conditions of the LTIP 2007 (in accordance with item 20 a) on the agenda). Such price, and the number of shares, may be subject to recalculation as a result of intervening bonus issues, splits, preference issues, dividends and/or similar actions.**
- f) **Further, Nordea shall have the right, prior to the Annual General Meeting of Shareholders 2008, to convey a maximum of 520,000 ordinary shares of the total possession of 3,120,000 ordinary shares, in order to cover certain costs, mainly social security costs. Conveyance of the shares shall be effected at the Stockholm Stock Exchange at a price within the price interval registered at each time for the share.**

The reasons for the deviation from shareholders' preferential rights are the following. The issue of shares, the acquisition and the transfer of own shares are integrated parts of the proposed Long Term Incentive Programme 2007. Therefore, and in light of the above, the Board considers it to be to an advantage for Nordea and the shareholders that the participants in the LTIP 2007 are offered to become shareholders in Nordea. For the purpose of minimising Nordea's costs for the LTIP 2007, the subscription price has been fixed at a price equivalent to the quotient value of the share.

Majority Requirement
