

Adequate capital base for BRFkredit a/s for Q2 2017

To comply with the requirement of quarterly publication of the adequate capital base for BRFkredit a/s, a separate document regarding the solvency need situation has been prepared as a supplement to the publication of the interim report for Q2 2017.

The determination of the adequate capital base for BRFkredit a/s takes place according to the 8+ method based on the capital base requirement of 8% of the total risk-weighted exposure amount with additions to cover further risks that are assessed not to be covered by the capital base requirement. These may be risks that are assessed not to be covered by the capital base requirement or risks that are assessed to above normal in relation to the capital base requirement for the risk type on question.

When assessing the adequate capital base, all circumstances as mentioned in appendix 1 in the Executive Order on Calculation of Risk Exposures, Own Funds and Solvency Need are included. Based on BRFkredit's business model and risk profile, the importance of the individual circumstances on BRFkredit a/s' capital structure is assessed, and for important circumstances, the size of the capital addition is quantified based on the guidelines in the instructions on adequate capital base and solvency requirements.

Credit risks

BRFkredit a/s has assumed credit risks necessitating separate additions for the capital base requirement for credit risk. These additions cover

- credit risk for large clients with financial problems,
- credit risk for weak clients in the remaining credit portfolio,
- credit risk concentration on individual exposures,
- model uncertainty.

Market risks

BRFkredit a/s has market risks necessitating a separate addition for the capital base requirement for market risk.

Operational risks

BRFkredit a/s has operational risks necessitating a separate addition for the capital base requirement for operational risk.

Other risks

BRFkredit a/s has no other risks, including the risk of low earnings, lending growth, liquidity risk and re-financing risk that will necessitate separate initiatives.

Capital requirement

The capital requirement for BRFkredit a/s amounts to DKK 6.6bn at Q2 2017, corresponding to a capital requirement ratio of 9.3 %. The own funds requirement, inclusive of the transitional rules for the determination of credit risk according to the IRB approach, amounts to DKK 9.4bn (13.3 %).

The capital base for BRFkredit a/s amounts to DKK 12.6bn at Q2 2017, corresponding to a capital ratio of 17.9 %. Incorporating the current profit of the year in the capital base, would raise the capital ratio to 18.5.
