

## **LMA withdraws injunction proceedings against Ambu in the Netherlands**

As stated at the Annual General Meeting and in the subsequent stock exchange announcement, the Singaporean company LMA has commenced legal proceedings against Ambu in Germany, the Netherlands and France on the grounds that the design of the reinforcement on Ambu's Larynx mask infringes LMA's patent rights.

As a result of the most recent exchange of pleadings in the Dutch injunction proceedings, LMA has notified the Dutch court of its decision not to continue the injunction proceedings against Ambu.

*Ambu develops, produces and markets diagnostic and life-supporting devices to hospitals and rescue services. Ambu has five business areas: Respiratory Care, Cardiology, Neurology, Training and Immobilization. The most important business areas are Respiratory Care, Cardiology and Neurology, and the most important products in these areas are ventilation products for artificial respiration and single-use electrodes for ECG recordings and neurophysiological examinations. Ambu's products are sold worldwide. Exports account for 98% of sales, and sales are handled via Ambu's foreign subsidiaries or via distributors. Ambu has approx. 1,300 employees, of whom just under 400 work in Denmark and just over 900 abroad.*
