Announcement no. 02 - 2007
9 January, 2007

TrygVesta sees 2006 pre-tax profit of DKK 3.7-3.8bn

TrygVesta expects to report a pre-tax profit for 2006 of DKK 3.7-3.8bn compared with DKK 2.9bn in 2005.

The result is, despite slightly lower growth in gross premium income, higher than the expected DKK 3.2bn, which we communicated with the Q3 2006 report. The improvement is due to favourable claims cost and especially a good investment result for the final period of 2006.

The above mentioned result does not change our expectations for 2007, which was communicated with the Q3 report. We still expect gross premium income growth of around 3 percent and a combined ratio in the range of 90-92 percent assuming zero run-offs from reserves.

We emphasize that this statement is a preliminary result and hence deviations may occur in the final results. We will publish the 2006 results as planned on 28 February 2007 in the afternoon.
