IT – Genium INET 5.0.0201 MiFID II Project Update (60/17)

This message contains important information regarding the Genium INET upgrade on November 18th, 2017 to version 5.0.0201 which includes new mandatory functionalities and enhancements going live November 20th.

Update to the OMnet Message Reference

The previously announced addition of the VIMed struct *trade_report_trade_ticker* to messages/queries: BD71, TR71, TA71 is now fully included in the OMnet Message Reference. This is technically a non-mandatory change and recompilation is only required if the information is to be used. The updated OMnet Message Reference and Header file are available on the Enhancement web.

Information on the 5.0.0201 MiFID II release is available on the Technical Information web site. The site will be continuously updated.
