IT – OMX launches pre-trade anonymity on Nordic First North alternative markets on June 4, 2007

To members of OMX the Nordic Exchange

OMX has decided, after a customer consultation, to launch pre-trade anonymity in the order book on the First North alternative markets. The implementation will be effective as of **June 4, 2007** in the SAXESS system.

The feature that will be implemented is the removal of broker IDs from the order book on First North alternative markets for all instruments (e.g. anonymous pre-trading).

TESTING: This will be available from Wednesday, March 14, in the external test system SEXTST3.

For further information Please contact your OMX Account Manager.
