

Exchange Notice

March 13, 2007

SAXESS user news 07/07

Information about changes on the Nordic Exchanges in Copenhagen, Helsinki, Iceland and Stockholm.

- 1 As of March 19, 2007 the Nordic List, turnover list setup will be changed. (Reminder)

Note: The change does not affect the *submarket* or *submarket list* setups – it's only for turnover lists, which is only interesting for the customers presenting turnover figures.

Please read all details on the following pages.

- 2 As of April 2, 2007 the following changes take place.

2.1 Addition of Iceland into the Nordic List. (Reminder)

The Icelandic exchange will join the Nordic List setup in SAXESS.

Please read all details on the following pages.

2.2 Re-structure of Swedish fixed income markets (Reminder)

On April 2 the Nordic Exchange will re-structure the Swedish fixed income market.

The changes will take place in the SAXESS and TARGIN systems. There will be four types of changes:

- name changes of submarkets and new submarkets in SAXESS
- name changes of lists and new lists for traders in SAXESS
- name changes and new lists to media, newspapers, websites etc.
- move of the convertible loan list to retail bond segment

Please read all details on the following pages.

3 As of June 4, launch of pre-trade anonymity on Nordic First North alternative markets

OMX has decided, after a customer consultation, to launch pre-trade anonymity in the order book on the First North alternative markets. The implementation will be effective as of **June 4, 2007** in the SAXESS system.

The feature that will be implemented is the removal of broker IDs from the order book on First North alternative markets for all instruments (e.g. anonymous pre-trading).

TESTING:

Available from Wednesday, March 14, on the external test system SEXTST3

Special note:

Information will be provided later, regarding the launch date for Helsinki First North.

For further information about First North, please contact your OMX Account Manager

4 Trading Safeguards

Previous issue of SAXESS user news included information that the OMX Nordic exchange in Helsinki, Stockholm and Copenhagen will introduce Trading safeguards.

Information regarding the launch date and details for Trading Safeguards will be provided later.

1 Change of Nordic List, turnover list set-up in SAXESS

Note: The change does not affect the *submarket* or *submarket list* setup.
This is a reminder of what was earlier announced in SAXESS user news 05/07.

The Nordic List concept regarding the turnover list setup in SAXESS and TARGIN was established for the Nordic Exchange in Copenhagen, Helsinki and Stockholm on October 2, 2006. The current setup handles these three exchanges and three currencies (DKK, EUR and SEK).

Iceland Stock Exchange is joining the Nordic List. The planned launch-date is April 2, 2007. The addition of Iceland to the existing setup means that there will be one more exchange (ICEX) and also one more currency (ISK) to handle.

Before adding Iceland into the Nordic List, the exchanges will establish a simplified structure of the turnover list set up since the need of duplicates to handle re-calculation of currencies in TARGIN no longer exists.

The modified turnover list setup will be launched into SAXESS- and TARGIN- PROD systems two weeks prior to the Iceland addition into the Nordic List set-up.

Time plan

The modified Turnover List set-up is launched in:

- external SAXESS- and TARGIN- test systems SEXTST3 and TARGIN2 from January 26, 2007
- SAXESS- and TARGIN PROD systems from **March 19, 2007**

Iceland addition to the Nordic List set up, is launched in:

- external SAXESS- and TARGIN test systems SEXTST3 and TARGIN2 from January 26, 2007
- SAXESS- and TARGIN PROD systems from **April 2, 2007**

External test systems

Testing should be performed in the external test systems:

- SAXESS = SEXTST3
- TARGIN = TARGIN2

Information will be provided later on regarding test period for load of transactions on each turnover list.

Detailed descriptions

The following pages contain detailed descriptions of the modified turnover list set-up
The addition of Iceland into the Nordic List is described in section 2.

1.1 Modified turnover list set-up for the Nordic Exchanges in Copenhagen, Helsinki, Stockholm and Iceland.

In order to adapt to improved TARGIN functionality, a simplified set-up of turnover lists is created where the current number of turnover lists will be reduced according to the tables below.

1.1.1 Changes to existing turnover list set-up for Copenhagen

- The turnover lists are only interesting for Vendors and ISV's for presentation of turnover figures.
- The currency on List-level in DKK is calculated from the local currencies from the population of companies in the List Headings.
- The population on Nordic All -level contains ID's and figures for companies from all four exchanges (Copenhagen, Helsinki, Iceland and Stockholm).
- The population on <local> All -level contains only ID's and figures for local companies.
- Adding Iceland means no changes to the "other" exchanges turnover lists structure but Iceland will be added to the population of order books on Nordic All level of each exchange.
- Changed set-up in column "NEW SET-UP" below.

EXISTING SET-UP					NEW SET-UP					
Exchange: XCSE					Exchange: XCSE					
Turnover list: Name	Code	Source-ID	List Heading SAXESS-ID / Name		Turnover list: Name	Code	Source-ID	Targin-ID Code ¹	List Heading ² SAXESS-ID / Name	
Nordic All DKK	NADK	70961	126,10	Large Cap Helsinki EUR	Nordic All DKK	NADK	70961	3244

1.1.2 Changes to existing turnover list set-up for Helsinki

- The turnover lists are only interesting for Vendors and ISV's for presentation of turnover figures.
- The currency on List-level in EUR is calculated from the local currencies from the population of companies in the List Headings.
- The population on Nordic All -level contains ID's and figures for companies from all four exchanges (Copenhagen, Helsinki, Iceland and Stockholm).
- The population on <local> All -level contains only ID's and figures for local companies.
- Adding Iceland means no changes to the "other" exchanges turnover lists structure but Iceland will be added to the population of order books on Nordic All level of each exchange.
- Changed set-up in column "NEW SET-UP" below.

1.1.3 Changes to existing turnover list set-up for Stockholm

- The turnover lists are only interesting for Vendors and ISV's for presentation of turnover figures.
- The currency on List-level in SEK is calculated from the local currencies from the population of companies in the List Headings.
- The population on Nordic All -level contains ID's and figures for companies from all four exchanges (Copenhagen, Helsinki, Iceland and Stockholm).
- The population on <local> All -level contains only ID's and figures for local companies.
- Adding Iceland means no changes to the "other" exchanges turnover lists structure but Iceland will be added to the population of order books on Nordic All level of each exchange.
- Changed set-up in column "NEW SET-UP" below.

70577	196	10
70578	197	10

2 As of April 2, 2007 the following changes take place.

2.1 Addition of Iceland into the Nordic List

2.1.1 Name-change for Iceland submarket lists

The existing set-up of submarket lists for the Iceland exchange will be changed according to table below.

Exchange	Current submarket list name	ID ⁷	Changed
ICEX	Most traded	23,5	Renamed to Large Cap Iceland
	Main list-others	23,10	Renamed to Mid Cap Iceland
	Observation section.	23,30	Discontinued
	>new submarket list<	23,40	Small Cap Iceland

Note: The contents of the submarket lists will be populated with Icelandic companies distributed to Large-, Mid-, and Small Cap segments according to separate information.

2.1.2 New turnover list set-up for Iceland

- The turnover lists are only interesting for Vendors and ISV's for presentation of turnover figures.
- The currency on List-level in ISK is calculated from the local currencies from the population of companies in the List Headings.
- The population on Nordic All -level contains ID's and figures for companies from all four exchanges (Copenhagen, Helsinki,

⁷ The ID codes consist of two numbers. The first one is the submarket code found in Static Basic Data table at the Member Extranet web site (click on "Customer log in" from The Nordic Exchange web): <http://omxgroup.com/nordicexchange> and the second code is the ID of the submarket list. These two codes correspond to the codes in the SAXESS Transaction Protocol (XTP).

Iceland and Stockholm).

- The population on <local> All -level contains only ID's and figures for local companies.
- Adding Iceland means no changes to the "other" exchanges turnover lists structure but Iceland will be added to the population of order books on Nordic All level of each exchange.
- Changed set-up of Iceland turnover lists according to table below.

NEW SET-UP					
Exchange: ICEX					
<i>Turnover list: Name</i>	<i>Code</i>	<i>Source-ID</i>	<i>Targin-ID Code⁸</i>	<i>List Heading⁹ SAXESS-ID / name</i>	
Nordic All ISK	NAIS	81188	3498		
		81190	3500	220,10	Nordic Large Cap ISK
		81191	3501	220,20	Nordic Mid Cap ISK
		81192	3502	220,30	Nordic Small Cap ISK
Iceland All ISK	IAIS	81189	3499		
		81193	3503	221,10	Large Cap Iceland ISK
		81194	3504	221,20	Mid Cap Iceland ISK
		81195	3505	221,30	Small Cap Iceland ISK

Note: figures in table above with red text is updated from previous information.

Discontinued turnover list for Iceland:

<i>Turnover list: Name</i>	<i>Code</i>	<i>Source-ID</i>	<i>List Heading SAXESS-ID / Name</i>		
ICEX Equities, Main List	ISEQ	34118	31,10	ICEX Equities, Main List	

⁸ TARGIN-ID is valid for the test period in TARGIN2 and also for TARGIN PROD at launch date.

⁹ Each List Heading on Nordic Large, Mid- and Small Cap is populated with corresponding companies from all of the Nordic Exchanges in Copenhagen, Helsinki and Stockholm.

- The turnover lists are only of interest to Vendors and ISV's presenting turnover figures on this level.
- The turnover lists will be placed under each exchange in local currency.
For example the Nordic All DKK list is placed under Copenhagen; Nordic All EUR under Helsinki; Nordic All ISK under Iceland and Nordic All SEK under Stockholm.
- With the same principle as on the submarket lists, the Large Cap companies are included in the Large Cap turnover list; the Mid Cap companies on the Mid Cap turnover list and Small Cap companies on the Small Cap turnover list.

2.2 Re-structure of Swedish fixed income markets

On April 2 the Nordic Exchange will re-structure the Swedish fixed income market. The changes will take place in the SAXESS and TARGIN systems.

There will be four types of changes:

2.2.1 name changes of submarkets and new submarkets in SAXESS (see details below)

2.2.2 name changes of lists and new lists for traders in SAXESS (see details below)

2.2.3 name changes and new lists to media, newspapers, websites etc. (see details below)

2.2.4 move of the convertible loan list to retail bond segment (see details below)

The new submarkets that will be implemented will have the same market model as the current submarket called OMX SSE SOX Index linked bonds (Tailor Made Products Price) and OMX SSE SOX Bonds Yield (Tailor Made Products Yield).

2.2.1 Submarkets: Name changes of submarkets and new submarkets in SAXESS

Existing Submarket name	Source ID	Targin ID	New Submarket name	Source ID	Targin ID	Note
OMX SSE Premium Bonds	5	23	OMX SSE Retail Bonds Premium Bonds	5	23	
OMX SSE SOX Bonds	7	25	OMX SSE Retail Bonds Price	7	25	
OMX SSE SOX Bonds Yield	10	26	OMX SSE Retail Bonds Yield	10	26	
OMX SSE SOX Indexed Linked Bonds	6	24	OMX SSE Retail Bonds Structured Products	6	24	
			OMX SSE Tailor made Products Price	105	140	New!
			OMX SSE Tailor made Products Yield	106	141	New!
OMX SSE Bulletin Board and Reporting	27	44	OMX SSE Benchmark Bonds	27	44	

2.2.2 Submarket lists: name change of lists and new lists for traders in SAXESS

Existing Submarket list name	Source ID	New Submarket list name	Source ID	Note
Bond loans	5	Bond Price	5	Name change
Debenture loans	10	Subordinated loans	10	Name change
Swedish government	1	Bonds Yield	1	Name change
SBAB	2	Bonds Yield	1	
Indexed linked bonds	1	Structured Products	1	Name change
		Tailor Made Products Price	1	NEW!
		Tailor Made Products Price	1	NEW!

2.2.3 Turnover lists: new lists to media, newspaper and websites.

Existing Turnover list name	Source ID	Targin ID	List Heading	New Turnover list name	Source ID	Targin ID	New List heading	
Sv Government Lottery Bonds	22	167	Premium 1986, 1989-2006	Swedish Government Lottery	22	167	Same as existing	
SOX Bond/Debenture/Index linked loans	715	172	Bond Loans	Retail Bonds	715	172	Bonds Price	
			Debenture loans				(new)	Subordinated loans
			Indexed Linked loans				(new)	Structure Products
								Bonds Yield
								Convertible Loans
Convertible loans & subscr. options	25	168	Convertible bonds Stockholm	Subscription options	25	168	Subscription options	
				Tailor Made Products (new)	81113	3602	Products Price	
					(new)		Products Yield	

2.2.4 Move of convertible bonds

The current turnover list for convertible bonds will be moved to list; Retail Bonds. The purpose of this change is to harmonise with the Finnish market structure.

2.2.5 Testing

Testing should be performed in the external test systems:

- SAXTST3
- TARGIN2

The new fixed income structure will be available to members and vendors for testing, starting on February 21.
