Correction of notice 24/07: New adjustment factor for TietoEnator

OMX Derivatives Markets published yesterday (in exchange notice 24/07) an incorrect adjustment factor for TietoEnator. The correct adjustment factor is **0,9702952**. As a result of the adjustment the number of shares per contract has increased to **103** after rounding down to nearest full share, whereas exercise and future prices have decreased. The series will not be available for trading on Friday March 23, 2007.

New exercise and futures prices have been rounded off to two decimal places and received an "Y" in the series designation. The series have also received new ISIN codes, which are published at the end of this Exchange Notice. The rounding off of future prices was made "trade by trade" and not on the net position.

Members are encouraged to ensure that clients are aware of the above-mentioned correction.
