Adjustment due to Scania's split and redemption

At Scania's Annual General Meeting the proposed share split 5:1, whereby every Scania share will be replaced by four (4) ordinary shares and one (1) redemption share, was approved. OMX Derivatives Markets has carried out a re-calculation of options and futures in Scania and adjusted the OMXS30 index.

Following the adjustment for split, every contract has been replaced by four (4) new contracts. All contracts have then been adjusted for the redemption process whereby the number of shares per

contract, after rounding down to nearest full share, has increased to 105. Exercise and future prices have decreased. New exercise and futures prices have been rounded off to two decimal places and received an "X" in the series designation. The series have also received new ISIN-codes which are published below. The rounding off of future prices was made "trade by trade" and not on the net position.

B (SE0000308280) in the OMXS30 Index on the Ex-date. The start price for Scania ser. B (SCV B) on May 18 will be the closing price on May 16 subtracted by the redemption amount per share.

In accordance with Stockholm Stock Exchange's Rules and Regulations for Derivatives 4.8.4.4 the number of shares for SCVB in the calculation of OMXS30 index will be adjusted according to the terms for the split (4:1). New number of shares from Ex-day May 18, 2007 for SCV B will be 400 000 000.
