IT – CLICK/SECUR Market Wide Test 6th and 7th of September

Market Wide Test 6th and 7th of September 2007

8th of October OMX Derivatives Market CLICK/SECUR system will go live with a new hardware platform. There are NO functional changes or API changes involved. The current Network Gateway IP addresses will be preserved over the platform change.

During the 6th and 7th of September you can login and participate in the Market Wide Test, which will enable full testing in the new hardware platform. For the Market Wide Test, temporary Network Gateway IP addresses will be used.

How to connect to the new platform on temporary addresses

Site A: Trading applications: 192.176.3.139
Clearing applications 192.176.3.140

Site B: Trading applications: 192.176.3.170
Clearing applications: 192.176.3.171

Market opens at 09:00 CET
Market closes at 14:00 CET

On the 7th of October you will also get possibility to do a connectivity test towards the live environment
More information later.
