

Press Release, November 5, 2007

Record trading at OMX Nordic Exchange

- October saw a record in share trading at the Nordic Exchange. On October 16, the share trading value was ISK 973.7 billion (previous record: ISK 843.3 billion on May 3, 2007).
- Record figures in share trading were also recorded for the month, reaching ISK 11 260 billion in total (previous record: ISK 11 244 billion, August 2007).
- During the month 6 new companies have been listed at main market and 5 new companies have joined First North.

“The fact that we have been able to handle all the peaks in the trading during this year shows that we have invested in the right infrastructure for our market and we foresee this trend to continue given new trading behaviors and the increased international interest for the listed companies. We have also completed a significant upgrade of our trading system that enables market participants to benefit from the opportunities that MiFID offers,” says Jukka Ruuska, President of Nordic Marketplaces at OMX.

Share trading

The value of average daily share trading amounted to ISK 489.6 billion, as compared to ISK 455.8 billion during the past 12-month period. The average number of trades per business day amounted to 202,580, as compared to 178,441 during the past 12-month period. The total market cap of listed companies at OMX Nordic Exchange amounted to ISK 87,560 billion, compared to ISK 74,989 billion in October 2006.
