IT – New Warrant Opening Sequence

OMX Nordic Exchange¹ Stockholm and Helsinki will implement a new Warrant Opening Sequence. External testing in SAXTST3 is possible from February 26, 2008.

New Warrant Opening Sequence

OMX Nordic Exchange will implement a more efficient opening of the Warrant submarkets in Stockholm and Helsinki. They are presented below with the new submarket names, communicated in IT 11/08.

MARKET	SUBMARKET CODE	SUBMARKET NAME	INSTRUMENT TYPE
OMX HEL Equities and related	FIEQ WAR	OMX HEL Covered Warrants	WAR
OMX STO Equities and related	SEEQ WAR	OMX STO Warrants	WAR

This will be carried out in two steps.

Step 1: Change of start time for opening of the submarkets (COTR) from 09:05 to 09:00.

Step 2: Change of opening order of the submarket lists and new order numbers per list as below:

ORDER NUMBER TODAY		NEW ORDER NUMBER	
1	Plain vanilla	10	Turbo
2	Turbo	20	Plain Vanilla
3	Exotics	30	Exotics
5	Other Financial Instruments (Helsinki only)	40	Financial Instruments

As communicated earlier, in IT 11/08, the submarket lists called 'Certificates' will be moved from the warrants submarkets to the new certificates submarkets.

The technical implementation a new opening of the Warrant submarkets will be open to external system testing in SAXTST3 for members during period February 26 to March 7, 2008.

Date for production is March 10, 2008.
