**Exchange Notice****IT 25/08****IT – Postponement to implementation of Round Lot One at OMX Nordic Exchange Stockholm**

As earlier communicated OMX Nordic Exchange aims to further harmonize the Nordic markets by implementing round lot size one on the exchanges in Stockholm and Iceland. Round lot one is already in effect in Helsinki. In Copenhagen the decision is still pending.

In order to secure full technical member readiness OMX Nordic Exchange has decided to postpone the launch until further notice. Hence, the planned changes in SAXESS release 5.0.0, on June 2, 2008, will not include Round Lot One for OMX Nordic Exchange Stockholm. However, please note that the implementation in Iceland is still planned for June 2, 2008.

Because of this there will be changes in the test system: Round Lot One for OMX Nordic Exchange Stockholm order books is planned to be removed and reverted to Production Round Lot sizes in the SEXTST1 environment prior to MWAT, April 10, 2008.
