

**Exchange Notice****IT 33/08****IT – SAXESS 5.0.0 Production Launch Information**

SAXESS release 5.0.0 will be launched Monday 2<sup>nd</sup> of June 2008. **The upgrade is a mandatory upgrade and it is NOT backward compatible.** Starting on Monday 2<sup>nd</sup> of June, SAXESS will only support the new XTP 2.57 Build 101 version of the communication protocol. This means that **all members need to upgrade all systems that communicate with the SAXESS system.**

Please note that the members MUST perform the following actions on 30<sup>th</sup> and 31<sup>st</sup> of May 2008. In particular, note that you need to **fill in a report of your upgrade status on Saturday 31<sup>st</sup> of May.**

Member actions during launch weekend:

- Delete all orders in SAXESS in all markets including GTD (over night)
- Upgrade your system(s);
- Connect your systems to SAXESS and download static data;
- Fill in a connectivity test report
- Verify that the upgrade is completed as planned

OMX Technical Support and the exchanges' trade support will be available for questions and support on Saturday 31<sup>st</sup> of May from 12:00 to 16:00 CET. See the end of this document for contact details.

**PRODUCTION LAUNCH SCHEDULE****Friday 30<sup>th</sup> of May****Member actions:**

1. Flush all order books on all markets, as soon as possible after trading hours.

*Note: Members are responsible for deleting their own orders in the SAXESS system. If orders are not deleted on member's initiative, they will be deleted by the SAXESS system after system has closed and there is a risk that members are not notified about deleted orders.*

*SAXESS will start with empty order books on Monday the 2nd of June.*

2. Start upgrading your systems that connect to SAXESS to a version that is compatible with the SAXESS 5.0.0 release.

**NOREX actions:**

Prior to end of trading hours, we will issue reminders about flushing the order books. Upgrade of SAXESS and other related systems will start after trading hours.

**Saturday 31<sup>st</sup> of May****Member actions:**

1. Complete the upgrade of your system(s).

2. Starting at 13:00 CET connect your system(s) to SAXESS and download static data.

3. When this has been completed, and no later than 15:00 CET, **fill in a connectivity test report via this link:**

<http://web.easyresearch.se/s.asp?WID=696095&Pwd=22669888>

4. Verify the final "GO" decision on one of the member web sites (or IT notice) after 16:00 CET.

**NOREX actions:**

The exchanges will complete the upgrade and verify the changed systems. Based on the incoming member connectivity reports, the final "GO" decision will be made approximately at 16:00 CET.

**Sunday 1<sup>st</sup> of June**

No planned activities. In case of a rollback decision taken on Saturday both NOREX Exchanges and OMX Technical Support will be available for questions and support.

**Monday 2<sup>nd</sup> of June**

**Member actions:**

Be prepared to trade with your upgraded software. We strongly recommend that you organize appropriate technical staffing, in view of the changes that have been made. Please remember to re-insert Good Till Date orders that were removed on Friday.

**NEWS IN SAXESS 5.0.0**

For information about changes in SAXESS on June 2, 2008, please see separate documentation available in the exchanges' member web site.

**SAXESS Trade**

Members using SAXESS Trade must upgrade the SAXESS Trade Server and Client. Supported SAXESS Trade version is 5.00.00.017 or later.

The latest SAXESS Trade versions can be downloaded from the exchanges' member web sites. Version 5.00.00.017 will be made available on Monday, May 12.

Please note that the SAXESS Trade for SAXESS 5.0.0 cannot be used with the current SAXESS 4.8.0 production system.

**SUPPORT**
