Postponement to implementation of 4 decimals in trade reporting at OMX Nordic Exchange

As earlier communicated, OMX Nordic Exchange aims to further enhance the Nordic markets by implementing 4 decimals in trade reporting on the Nordic exchanges. In order to secure full technical readiness, OMX Nordic Exchange has decided to postpone the launch until further notice.

Hence, the planned configuration changes in conjunction with the SAXESS release 5.0.0 on June 2, 2008, will **not** include 4 decimals in trade reporting for OMX Nordic Exchange.

After the SAXESS release 5.0.0 on June 2, 2008, decimals will remain as in 4.8.0 release.

For further information concerning this Exchange notice, please contact Kristian Wikman or Hanna Kirk, on +358 9 6166 71.
