Corporate profile

AS PRFoods (hereinafter "Group") is a company engaged in food processing and sales and is listed on the main list of NASDAQ OMX Tallinn Stock Exchange since 5 May 2010.

AS PRFoods' key market was Finland, where the company is amongst three largest brands, until the acquisition of John Ross Jr. and Coln Valley Smokery. Since acquisition the company has expanded sales to 37 countries in Europe, North and South America and Asia.

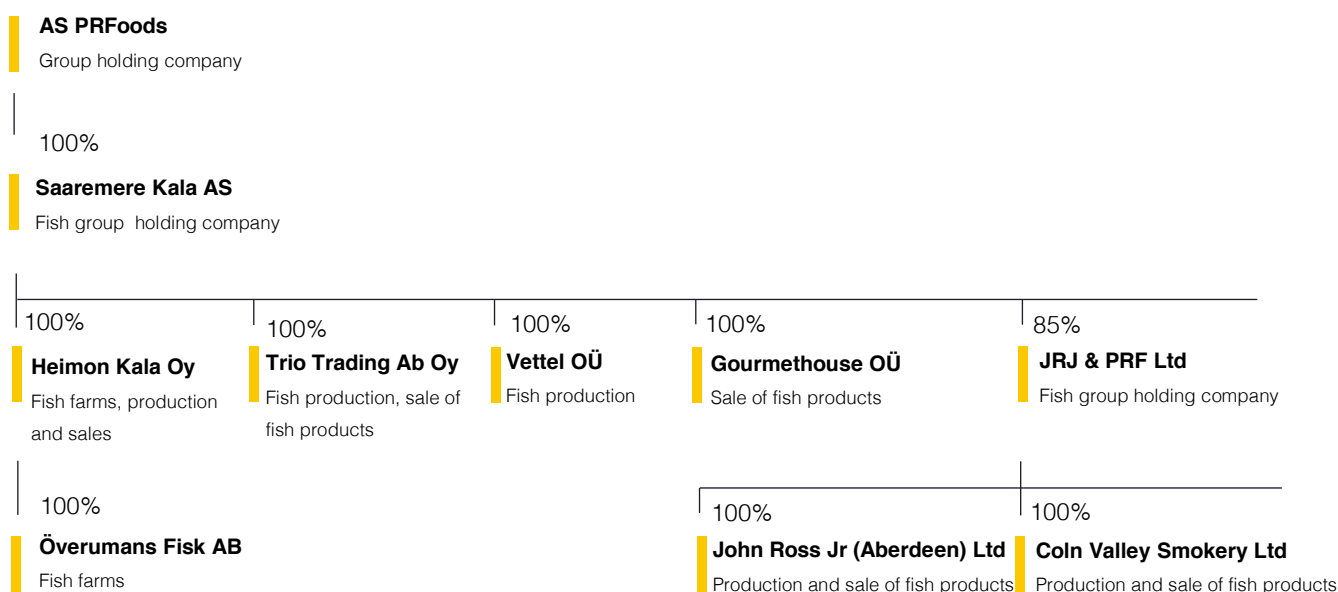

Main activity of the Group is fish manufacturing in five contemporary production buildings in Renko and Kokkola (Finland), Saaremaa (Estonia), Aberdeen and Coln Valley (UK). Main products are salmon and rainbow trout products. Approximately 60% of the rainbow trout used in Group's production is harvested in company's fish farms in Swedish lakes and in Turku Archipelago area in Finland, assuring highest quality and reliable delivery.

Salmon is purchased from Finland and other Scandinavian countries, like Denmark, Norway, Sweden and from Scotland. On a smaller scale company also buys in perch, pike, herring, vendace (freshwater whitefish) and Baltic herring.

PRFoods companies are leading brands in their respective operating markets and are primarily focusing on higher value premium products.

Shareholders approved purchase of John Ross Jr (Aberdeen) and Coln Valley Smokery on EGM held on 19.07.2017. Shareholders approved purchase of Trio Trading Ab Oy on EGM held on 28.08.2017.

Structure from 30.08.2017

The most significant trademarks of PRFoods are "Heimon Gourmet" and "Saaristomeren". The Group's other trademarks include "Gurmé" and "Polar Fish", which are marketed in the Baltic States.

Brands of the new acquired companies are „John Ross Aberdeen“ and „Coln Valley Smokery“ as well “Fishk”.

MISSION

Our goal is to provide our customers with healthy and high-quality choice of seafood. We try to continually maintain and grow consumer trust. We are a benchmark of care, innovation and quality.

VISION

PRFoods is a well-known and environmentally friendly international company engaged in the production and sale of fresh fish and fish products globally.

STRATEGIC OBJECTIVES

The strategy of PRFoods is as follows:

- To be among three leading brands in our operating markets and to be recognized premium seafood brand globally;
- Our financial target is to achieve minimum operating EBITDA margin at least 7%;
- To distribute up to 30% of the annual net profit as dividends.

STRENGTHS

- Objective-driven organisational development;
- Leading brands in the Scandinavian, Baltic markets and in UK;
- We have had established products on the Finnish and UK market for more than 30 years;
- Geographically suitable scope and diversified product portfolio ensure sustainable development;
- Solid financial stability of the company.

RISKS

- The high volatility of raw materials prices;
- Significant increase of the proportion of *Private label* products on the Finnish market;
- High dependence on the two large retail chains dominating the Finnish retail market;
- Risks related to biological assets in the fish business segment.

FUTURE PLANS AND INTENTIONS

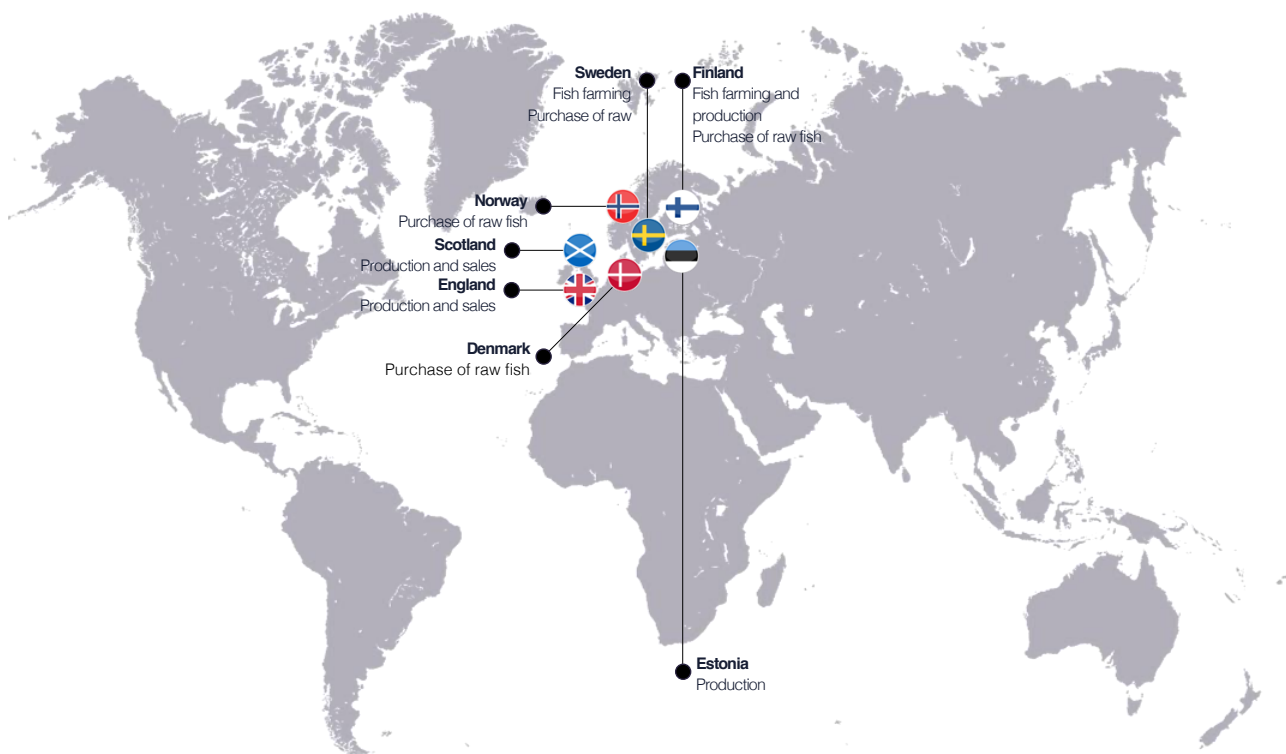

The objective of PRFoods is to increase production capacity and to boost sales volumes of fish products. The Group is actively involved in developing new products to expand into new export markets. As a clear leader in its business area, the objective of PRFoods companies is to increase the Company's profitability and to re-focus on products with higher added value. As designing Company's own brand is in its early stage in Scandinavia and elsewhere in the world, the management expects the Company's growth period is yet to come.

Additional information about the Group's various risks and assessments and their possible impact on estimated future events is provided in Chapter "Description of main risks of the group". In addition, it includes risk factors that are related to the price volatility of raw fish, impact of re-valuation of biological assets on the company's financial results, diseases that are putting live fish at risk, risks related to weather conditions, environmental risks, risks involved in trade restrictions, risks related to taxation and accounting, reputation risks and legislation risks as well as the political events that are influencing the whole world.

Legislative risks are related to various provisions and articles of the legislation of the business sector of fish industry, including strict regulations imposed on food safety, and laws, competition and anti-corruption rules targeted at water harvesting production and processing as well as other prescriptions not listed above that must be observed.

In drawing up future plans and intentions, the management of PRFoods is taking into account the information it is aware of at the time, based on available information and its best intentions. Actual results may differ significantly from plans because there are many different factors, variables, risks and insecurity which impact their realization.

OVERVIEW OF THE ECONOMIC ACTIVITIES

MANAGEMENT COMMENTARY

PRFoods is delighted to present the first results after transformational acquisitions of John Ross Jr, Coln Valley and Trio Trading. Sales increase of 70.8% in 3rd quarter and 36.3% increase of revenues in 9 months are obvious results, but also on standalone basis group companies have performed above the expectations. On pro forma annual basis 9 months revenues were 77.9 million euros and pro forma EBITDA 3.4 million euros. PRFoods consolidates according to IFRS acquired companies from moment of acquisition - John Ross John Ross Jr./Coln Valley from July 1, 2017 and Trio Trading from September 1, 2017.

PRFoods is very pleased with 3rd quarter revenues of 17.99 million results, but even more importantly we managed to increase our gross margin by 191.2%. Gross profit increased by 397.6% or 1.97 million euros and was 2.47 million euros.

3rd quarter operational EBITDA improved by 1.51 million euros on year-on-year basis and was 1.23 million euros.

9 months consolidated revenues were 41.62 million euros, increase of 36.3%. Gross profit increased by 90.6% and was 3.98 million euros. EBITDA from operations increased by 455.0% and was 1.07 million.

While increasing our revenues, we have been very conscious of our cost base and I am happy to report that our operating costs on 9 months basis decreased from 11.43% to 10.51%.

Main reasons for increase of the operational profitability is attributed to the decrease of raw material prices, particularly salmon, which represents now higher proportion of our business. Secondly, the good work of our sales teams in increasing end product prices. Thirdly, with newly acquired companies John Ross Jr. and Coln Valley, PRFoods entered a higher margin luxury segment. Trio Trading has been a very valuable addition in providing access to raw material and increasing our sales of fresh products. Since Trio Trading's main business is sourcing raw material and selling of fresh fish with quick turnover, the Group is less exposed to sudden fluctuations in raw material prices, compared older business model where retail prices were fixed for longer period.

Fish farming contribution was less in 3rd quarter compared to year ago, which is in line with our expectation. Positive impact of biomass revaluation was 1.07 million euros in 3rd quarter compared to 2.90 million euros year ago. 3rd quarter 2016 was very unusual, and now we see normalization of the fish prices. Rainbow trout prices remain high, giving us very good advantage compared to other producers. Our biomass is currently 10.55 million euros and harvest amounts are slightly higher compared to last year.

Since biomass contribution was less in 3rd quarter 2017 as year ago, consolidated EBITDA was 2.21 million euros, down 15.8% on year-on-year. Net profit for 9 months was 0.18 million euros compared to 1.21 million euros year ago.

Net debt of the company is 16.7 million euros due to the acquisitions, but overall financial stability of the company remains good and our operational cash flows are improving.

The first effects of synergies are already evident in increased sales and operational profitability. We are happy to say that first Scandinavian-Scottish products have been successfully listed in United Kingdom and German retailers and new products have won several accolades.

As a management we are pleased to see that the multi-national teams are working well together in achieving even better results and building something very exciting in fish sector.

Lower raw material prices allow us to look optimistically towards successful end of the year, particularly in our Scandinavian units. Weaker British pound affects John Ross Jr and Coln Valley results in consolidated reports in euros, but on the standalone basis our UK unit is performing very well.

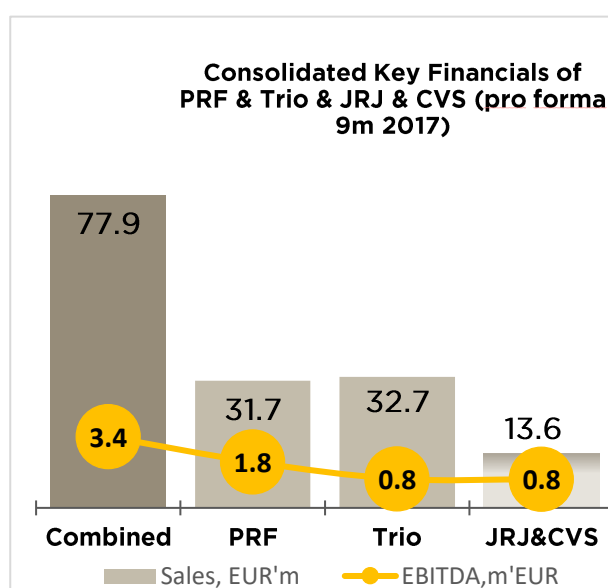

PRFoods is planning to hold on 11.12.2017 extraordinary shareholders meeting to change our financial year, to be in line with financial year of John Ross Jr, Coln Valley and Trio Trading. Current financial year will be extended until 30.06.2018 and in future PRFoods financial year will run from July to June.

PRFoods is pleased to see that our share is one of the best performing shares on Tallinn Stock Exchange, annualized return being 50.68%.

2017 has been very transformational for our business, but as management, we believe this is just the beginning of our new journey. I would like to thank entire team of our companies for their effort and professionalism.

In 9 months of 2017 revenue in Finnish target market grew +7.2 million euros, i.e. +28.7%. The share of Finnish market from total sales decreased by -4.6 percentage points. The increase in revenues in Finnish target market is caused by price increase of salmon and rainbow trout as well as sales volume of Trio Trading Ab in September.

Revenue from Estonian market dropped by -0.3 million euros i.e. -7.3%. The drop in Estonian market is driven by increasing prices of salmon and rainbow trout, which has reduced consumption and number of campaigns in retail chains. The share of Estonia's target market decreased by -3.8 percentage points. Revenue from new target market UK increased to 3.1 million euros. The share of UK's market was 7.5% of total revenue. Export revenue in other markets increased by +1.0 million euros, i.e. +58.4%.

COST ANALYSIS

Sales revenue increased by +11.1 million euros, i.e. +36.3%, in the 9 months of 2017. Cost of goods sold increased by +9.2 million euros, i.e. +32.4%, and the percentage of cost of goods from the revenue decreased -2.7 percentage points compared to the same period in 2016. As the price of raw material has been very volatile this year, the Company is focused on abandoning low margin product groups.

Main proportion, more than 80%, of costs of goods sold constitutes to be raw material cost (raw fish). The rest is mainly packaging and fish feed costs.

FISH FARMING

The competitive advantage of the Group is its vertical integration – fish farming, production and sales. About 1/3 of the Group’s fish production is harvested in the company’s fish farms in the lakes of Sweden and in the archipelago in Turku area in Finland, ensuring that customers receive fast and high-quality deliveries. The Group mainly harvests rainbow trout and, in a smaller degree, whitefish (*Coregonus lavaretus*).

Vertical integration means integration towards upstream or downstream of the technological chain which in turn enables the Company to reduce costs in implementing certain phases in fish harvesting. Vertical integration in the value chain of fish business means, in addition to fish harvesting, also having control especially over fish processing and marketing functions. In the fish business, one has to take into account that fish are livestock and quality assurance in technology requires a focus on the whole product lifecycle. In addition to cutting costs, vertical integration enables to reduce risks in fish farming, for instance due to poor quality of feed or base materials and to ensure the volume of raw material required for processing as well as price stability.

THE MARKET PRICE OF FISH

Large producers establish their production plans for three years in advance since it is difficult and more expensive to use a shorter production cycle in fish farms dependent of market needs. Therefore, the supply of fish in the world market is extremely rigid in the short-term, while market demand is shifting depending on the season. This is causing an imbalance in the supply and demand of fish on the world market which is why the market price of raw fish is always fluctuating.

PRFOODS

As at 30.09.2017, the market price of salmon has decreased by -1.3% and the price of rainbow trout has risen by +5.2% compared to the prices the year before. Compared to 31.12.2016, the price of salmon has dropped by -32.2% and the price of trout has decreased by -15.4%.

Fish market is extremely dependent on availability and market price of raw fish. The Group compensates the impact of external environment and volatility of salmon price through the changes of Company's production and sales strategy. The Group's main product is rainbow trout, which has historically been cheaper than salmon. Consumers start to buy cheaper salmon species, including rainbow trout, when the market price of salmon increases. In addition, high quality fish which is produced in its own fish farming helps to mitigate the increase of market price of salmon and because of that it is critically important for the Group to have its own fish farming.

BIOLOGICAL ASSETS

Biological assets include fish stock accounted in fish farms in live weight, including the following species:

- rainbow trout (*Oncorhynchus mykiss*)
- whitefish (*Coregonus lavaretus*)

The Group uses the Norwegian export statistics for evaluation of the fish stock of rainbow trout (Source: akvafakta.no). For evaluation of the fish stock of whitefish, the monthly market price survey of the Finnish Fish Farmers' Association is used. When the market price of raw fish increases or decreases, so does the value of fish harvested in fish farms of PRFoods, which has a positive or negative impact on the company's financial results. The high price of rainbow trout had a direct impact on the Company's financial results of 2017. Although the price of Norwegian trout has decreased during summer of 2017, it remained on very high level compared to historical prices. The average prices of Finnish and Danish markets are also higher.

SEASONALITY OF THE BUSINESS

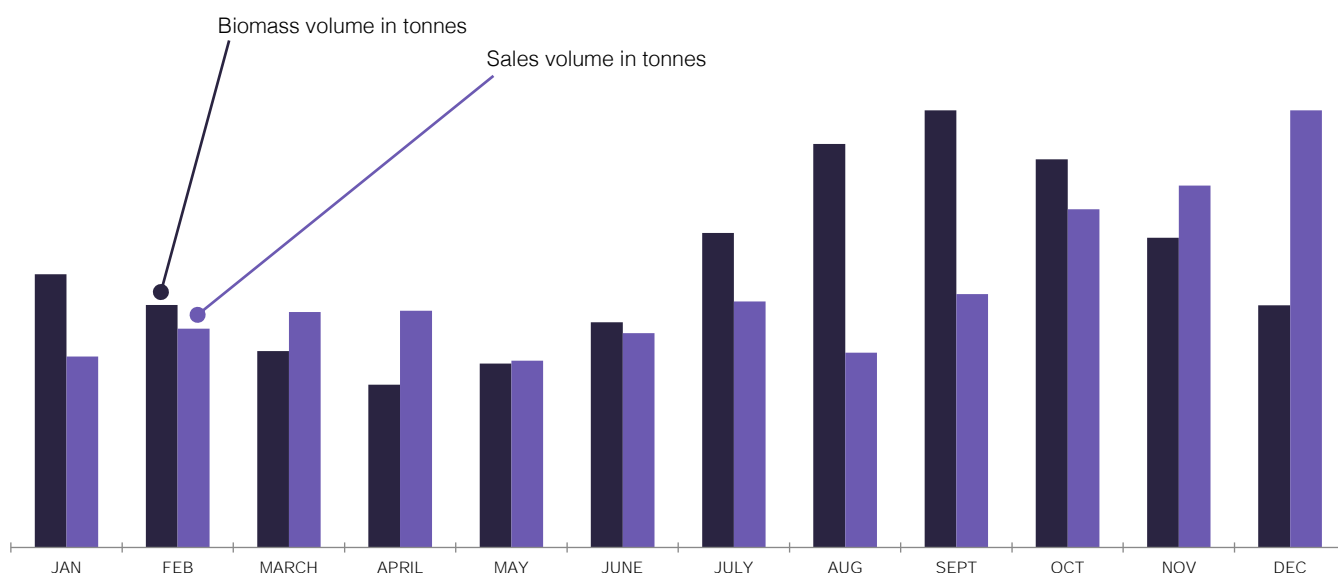

Due to the growth of biomass, the low season in fish farming lasts from November until May, while the high season lasts from June to September. Biomass growth is being influenced by the temperature in seas and lakes. Trout, for instance, grows faster from summer until autumn when the water is warmer. Between winter and spring, i.e. the cold period, fish practically stop growing. In fish processing facilities production volumes increase between September and Christmas and between March and May.

The long production cycle and the need to balance the volatility of market prices of raw materials require notably bigger investments in net working capital as compared to some other food industry businesses. In the high season of harvesting, there is a considerable need for working capital for purchasing feed and livestock. In addition, day-to-day production operations require sufficient stocks. For instance, in the autumn period when the supply of raw fish exceeds the market demand and the price level is the lowest during the year, companies consider purchasing large quantities of favourably priced raw materials (mainly trout) that are used in the ongoing production process. In the final third of the year, in the autumn-winter period when producers are selling fish harvested in their fish farms, the cash flow from operating activities is positive. In other words, notable fluctuation of net working capital is an entirely normal phenomenon in the fish business during the year.

In the period when cash flow from operations is negative, the Group pays special attention to cash conversion cycle by optimising the use of current assets. For balancing the cash circulation, the Company uses factoring and, if necessary, borrows in the form of overdraft. The volatility level of current assets depends on the specific financial year due to the specific features of seasonal business and is influenced by various factors including high dependence on weather conditions.

SEASONALITY OF THE BUSINESS

The graph shows the seasonal character of business by month, reflecting the growth of biomass volume in fish farming and sales volume in production.

DESCRIPTION OF MAIN RISKS OF THE GROUP

The Group's risk management policy is based on the requirements established by regulatory bodies, generally accepted practices and the Group's internal rules. The Group is guided by the principle to manage risks in a manner that ensures an optimal risk to reward ratio. As part of the Group's risk management, all potential risks, their measurement and control are defined, and an action plan is prepared to reduce risks while ensuring the attainment of the Company's financial and other strategic objectives.

The Management Board of the Parent Company has the main role in management of risks. The Supervisory Board of the Parent Company exercises supervision over the measures taken by the Management Board to manage risks. The Group assesses and limits risks through systematic risk management. For managing financial risks, the Group has involved its financial unit that finances the Parent Company as well as its subsidiaries and, directly as a result of that, also manages liquidity risk and interest rate risk.

Management of financial risks is a significant and integral part in managing the Group's business processes. The ability of the management to identify, measure and control different risks have a significant effect on the Group's profitability. Risk is defined by the Group's management as a possible negative deviation from the expected financial result.

The activities of the Group are accompanied by several financial risks, of which the credit risk, liquidity risk and market risk, including currency risk and interest rate risk, have the most significant influence.

CREDIT RISK

Credit risk expresses a potential loss that arises in the event of clients failing to perform their contractual obligations. To reduce credit risk, the payment discipline of clients is consistently monitored.

To minimize credit risk, solvency of a potential future contractual partner is assessed based on the information received from the Commercial Register, Tax Board or other public sources. Contracts for purchase and sale of products are concluded with all contractual partners, and a payment term is granted only to reliable partners. If possible, the Group uses factoring without recourse as an additional measure to manage credit risk.

LIQUIDITY RISK

Liquidity risk represents a threat to solvency of the company. Liquidity risk means that the Group might not have available resources to settle its financial liabilities in a timely manner.

The Group aims at keeping the financing need and financing possibilities of the Group in balance. Cash flow planning is used as a tool to manage liquidity risks. For efficient management of the Group's cash flows, the bank accounts of the Parent Company and Estonian subsidiaries make up a cash pool account that enables the members of the cash pool account to use the Group's financial resources within the limit established by the Parent Company.

To manage liquidity risks, the Group uses different financing sources, including bank loans, overdraft facilities, continuous monitoring of trade receivables and delivery contracts.

Overdraft facilities are used to finance working capital, long-term bank loans or finance lease agreements are used to purchase non-current assets.

As at 30 Sept 2017, the Group's working capital was 5.1 million euros (30.09.2016: 13.3 million euros).

The management considers it important to monitor liquidity risks; the additional need for capital can be covered by overdraft facilities or by refinancing the loan portfolio. The overdraft facility was taken into use in amount of 5.8 million euros in subsidiaries (30.09.2016: 3.5 million euros).

CURRENCY RISK

Currency risk arises when business transactions, assets and liabilities are denominated in a currency that is not the entity's functional currency. The Group is operating in Estonia (currency EUR), Finland (currency EUR), Sweden (currency SEK) and UK (currency GBP). For hedging the currency risk, all substantial agreements with foreign parties are signed in EUR. The Group has majority of substantial receivables and liabilities in euros. Majority of existing long-term capital rent contracts are signed in EUR, therefore they are treated as liabilities free from currency risk. The Group is monitoring currency risk related to GBP and taking measures to control the risk.

INTEREST RATE RISK

In case of short- and long-term loans, the Group uses interest rates based on EURIBOR base interest. In managing interest rate risks, possible losses arising from changes in interest rates are regularly compared to the expenses incurred for hedging them.

CAPITAL MANAGEMENT

The Group's capital consists of borrowings and total equity. As at 30.09.2017 the equity totalled 23.4 million euros (30.09.2016: 24.3 million euros). The Group's principle is to maintain strong equity base with the purpose of maintaining credibility for shareholders, creditors and the market as well as for ensuring sustainable development of the Company. In the long term, the Company's objective is to increase shareholder income and to ensure the capacity to pay dividends.

For preserving or improving the capital structure, the Group may regulate the amount of dividends payable to shareholders, return capital to shareholders, issue new shares or sell assets to reduce the debt.

The Group considers it important to ensure that its equity structure is at the optimum level. Therefore, it is monitored that the Group's equity-to-assets ratio is at least 35% (30.09.2017: 35.9%, 30.09.2016: 70.7%) and that the ratio of interest-bearing liabilities to assets does not exceed 25% (30.09.2017: 34.9%, 30.09.2016: 14.2%). Interest-bearing liabilities to assets ratio is temporarily exceeded due to acquiring subsidiaries as purchase analysis are not yet completed. According to the overdraft contract signed with AS SEB Pank, the Company's working capital financing rate cannot fall below 60% and the Group has met this requirement.

According to the practice prevailing in the industry, the Group uses the debt to equity ratio to monitor capital. That ratio is arrived at by dividing net debt by total capital. Net debt equals total debt (total amount of short-term and long-term borrowings recognised in the consolidated statement of financial position) less cash and cash equivalents.

The net debt of Group at 30.09.2017 was positive 16.7 million euros (30.09.2016: positive 1.3 million euros).

MANAGEMENT AND SUPERVISORY BOARD

The Management Board of AS PRFoods is comprised of one member. Indrek Kasela serves as the sole member of Management Board since 02.02.2015 pursuant to the Supervisory Board's decision. The Management Board of the company is independent in its day-to-day management of the business, protects the best interests of all shareholders and thereby ensures the company's sustainable development in accordance with set objectives and strategy. The Management Board of the company is also responsible for the functioning of internal control and risk management processes in the company.

The Supervisory Board of AS PRFoods elects Management Board members for a three-year term. The Management Board must be comprised of one to four members pursuant to the articles of association of the company.

Indrek Kasela (born 1971), who holds LL.M (master of laws) degree from New York University (1996), BA degree in law from the University of Tartu (1994) and serves as a member of Supervisory Board of several group entities, such as Saaremere Kala AS and Vettel OÜ. CONFIRMATION OF COMPLIANCE

The current unaudited consolidated interim report complies with the requirements of international accounting standards IAS 34 "Interim Financial Reporting" on condensed interim financial statements.

While preparing the interim report at hand, the same accounting principles as in the annual report for the financial year ended on 31.12.2016 have been applied. The report does not hold all the information that must be presented in a complete annual report, so it should be read together with the Parent Company's audited consolidated annual report for the financial year that ended on 31 December 2016, which is in compliance with international finance reporting standards (IFRS) as adopted by the European Union.

The Management Board approved the publication of this condensed unaudited consolidated interim report on 24th November 2017.

In the opinion of the management, this interim report for 3rd quarter and 9 months of 2017 of AS PRFoods presents correctly and fairly the financial results of the Group as a going concern. Current interim report is neither audited nor reviewed by auditors in any other way and contains only the consolidated reports of the Group.

BASIS OF PREPARATION

The functional currency is euro. The consolidated interim report is presented in thousands of euro and all numerical indicators have been rounded to thousand, if not indicated otherwise. In the report, thousand euro is indicated as an abbreviation EUR '000.

Share capital

As at 30.09.2017, the Company's registered share capital was 7,736,572 euros. As at 31.12.2016, the Company had registered share capital in the amount of 7,736,572 euros.

On 30 June 2016, shares of AS PRFoods without nominal value were registered in the Commercial Register instead of shares with nominal value, based on the resolutions adopted by the Company's general meeting of shareholders held on 26 May 2016. The registered share capital of the Company is 7,736,572 euros, divided into 38,682,860 ordinary shares without nominal value having a book value of 0.20 euro per share. A new version of the Company's Articles of Association also came into force, stating that the minimal share capital is 7,000,000 euros and the maximum share capital is 28,000,000 euros. The Articles of Association are available on AS PRFoods website at www.prfoods.ee.

Share premium

The Company's share premium comprises mainly of the amount received over the nominal value upon issue of shares, less costs associated with the issue of shares. According to the Commercial Code, a premium may be used to cover a loss of a company if such loss cannot be covered by retained profit from previous periods or the capital reserve prescribed in the Articles of Association and other reserves prescribed by the Articles of Association. The premium may also be used to increase share capital by a bonus issue. No payments to shareholders are allowed to be made from the share premium funds.

The ordinary general meeting of shareholders held on 26 May 2016 decided to cover the retained loss in the previous periods of AS PRFoods from reserves and share premium in the total amount of 2,026,000 euros, where the share premium was used to cover 2,019,500 euros and the reserve was used to cover 6,500 euros.

Own shares

As of 01.07.2014, the Company initiated its own shares buy-back programme in accordance with the resolution of the general meeting of shareholders held on 29.05.2014, according to which up to 500,000 own shares will be bought back before 31 May 2017. The initial own shares buy-back programme was completed on 18.05.2016. The ordinary general meeting of shareholders held on 26 May this year adopted a resolution to expand the existing buy-back programme, according to which up to 500,000 additional own shares will be bought back before 29.05.2019. On 14 June 2016, the Management Board of AS PRFoods entered into a service agreement with AS SEB Pank to continue the implementation of the own shares buy-back programme.

The buy-back programme is implemented in compliance with the resolutions of the general meetings of shareholders held on 29.05.2014 and 26.05.2016, and Commission Regulation (EU) No. 2016/1052 of 8 March 2016 supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council with regard to regulatory technical standards for the conditions applicable to buy-back programmes and stabilisation measures.

As at 27.03.2017 the expanded own shares buy-back programme was completed. Between 14.06.2016 and 27.03.2017 the Company purchased 500,000 own shares with average price 0.3834 euro per share. As at 30.09.2017, AS SEB Pank has acquired a total of 1,000,000 own shares with average price 0.4915 euro per share in the name and on behalf of AS PRFoods. As at 30.09.2016, the Company had bought back 519,048 own shares.

Capital reserve

The Estonian Commercial Code requires companies to create a capital reserve. Each year at least 1/20 of profit for the year has to be transferred to the capital reserve until the reserve amounts to 1/10 of share capital. The capital reserve may be used for covering losses and increasing share capital but not for making distributions to shareholders.

The shareholders adopted a resolution at the general meeting held on 30 May to transfer 35,750 euros from the profit of 2016 of the group to the capital reserve, and not to distribute the remaining profit. The shareholders adopted a resolution at the general meeting held on 26 May to cover the retained loss from previous periods of AS PRFoods from reserve and share premium in the amount of 2,026,000 euros and transfer 12,400 euros from the profit of 2015 of the parent company to the reserve, and not to distribute the remaining profit. The loss covered from the reserve was in the amount of 6,500 euros.

EARNINGS PER SHARE

Earnings per share have been calculated by dividing the net profit attributable to the shareholders of the Parent Company by the average number of shares for the period.

NOTE 13. SEGMENT REPORTING

The Group's segments are determined based on the reports monitored and analysed by the Management Board of the Parent Company. The Management Board of the Parent Company monitors financial performance by business areas and geographic areas. Reports by business areas include information of more significant importance for the management of the Group for monitoring financial performance and allocating resources. Therefore, this division is used to define business segments.

Two business segments – the fish segment and other segments - are presented together since the proportion of other segments in business operations is marginal. The proportion of other segments was 0.51% in reporting period and 0.08% in 2016.

NOTE 17. CONTINGENT LIABILITIES

Contingent liabilities in connection with setting a mortgage for the benefit of the Customs Board of Finland

A mortgage was set for the benefit of the Finnish Customs Board in the amount of 84 thousand euros. The purpose of the transaction was a more streamlined organisation of the day-to-day operations by reducing persistent prepayments to the Customs Board.

The management estimated that it is improbable that the Finnish Customs Board will liquidate the pledged asset.

NOTE 18. EVENTS AFTER BALANCE SHEET DATE

On 15th of November the Supervisory Board of AS PRFoods decided to convene extraordinary general meeting to approve:

- changing the beginning and ending of financial year of AS PRFoods and lengthen the financial year 2017 to 18 months. New financial year would be 01.07.-30.06.;
- to extend current Supervisory Board member's term of office by 5 years from 11th December 2017;
