Covered Warrants and Certificates

1. Introduction

Covered warrants, certificates and other similar structured products (hereinafter collectively referred to as "covered warrants") can be admitted to trading if the instrument and the issuer fulfil the terms and conditions mentioned below and if the instrument, in the reasonable opinion of OMX Nordic Exchange Copenhagen A/S, OMX Nordic Exchange Helsinki Oy, OMX Nordic Exchange Iceland hf (when applicable) or OMX Nordic Exchange Stockholm AB (hereinafter collectively referred to as the Exchange), is suitable for trading.

1.1 Applicability

These rules shall apply to the issuer of covered warrants as of the day the issuer signs an undertaking in which the issuer agrees to abide by all rules and guidelines of the Exchange, as amended from time to time, together with all other commitments made to the Exchange (see Appendices 2-4) for such time the issuer's covered warrants are admitted to trading on the Exchange. The rules regarding sanctions (chapter 8 and the appurtenant appendices) are however applicable after a delisting, in case a violation was committed during the period the issuer had covered warrants admitted to trading on the Exchange.

1.2 Amendments to the rules

Amendments to these rules or the appendices shall enter into force in appropriate time after the Exchange has notified the issuer in an appropriate manner and after the amendments have been published on the Exchange's website.

2. Issuer requirements

An issuer must meet the following conditions in order to be approved as an issuer of covered warrants on the Exchange:

2.1. The issuer shall be a credit institution or an investment firm authorized under applicable legislation of an EEA state and shall be granted a license to act as such by the competent supervisory authority. Such firm or institution shall, furthermore, be subject to the supervisory authority's ongoing investigatory and monitoring powers.

If the issuer is a third country issuer, it shall be satisfactorily supervised and authorised by an authority or other competent body being responsible for the regulation of credit institutions, investment firms and similar firms carrying on its activities relating to covered warrants within the approved scope of its business. Such an authority or other competent body shall, furthermore, have signed a Memorandum of Understanding or such third country issuer, alternatively third country supervisory authority, shall otherwise be approved by the competent supervisory authority in Denmark, Finland, Sweden or Iceland (when applicable).

2.3 The issuer shall, on a regular basis, publish annual reports and semi annual financial reports. These reports shall be published and updated on the issuer's webpage in accordance with the applicable legislation for periodic financial information.

3.1 Requirements concerning the underlying instrument of the covered warrant

3.1.1 If the underlying instrument of a covered warrant is a security, the underlying instrument shall be publicly traded and have sufficient liquidity (i.e. the price of the underlying must be reliable and publicly available) on the Exchange or in another regulated market, unless the underlying instrument will be admitted to public trading at the same time as the covered warrant.

3.1.2 If the underlying instrument of a covered warrant is a raw material, another commodity or some type of interest, the price or other value measure of the underlying must be reliable and publicly available.

3.2 Requirements concerning the admission of new covered warrants to trading on the Exchange

3.2.2 All covered warrants that are part of the same issue shall be included in the application.

3.2.3 The covered warrants shall be freely transferable.

3.2.4 Covered warrants may be admitted to trading if a prospectus has been approved by the competent supervisory authority of an EEA state and made available to the public by the issuer in accordance with applicable legislation.

If the issuer ceases to quote prices it shall immediately notify the Exchange and, as soon as possible, provide information regarding the stated circumstances on its website. An announcement shall be disclosed as soon as possible, regarding the cease of quoting prices.

3.2.7 The covered warrants shall be cleared and settled via arrangements for post-trading services for cash equities through the Exchange's clearing and settlement arrangements or via a by the issuer

The issuer is responsible for making the necessary adjustments and recalculations for the covered warrants in accordance with terms and conditions stated in the issuer's prospectus. If the underlying instrument consists of other assets than a share, a basket of shares or an index, the same shall be applied for events which will affect the valuation of such assets.

3.4.2 The issuer shall inform the Exchange of all planned adjustments and recalculations concerning the issuer's covered warrants that are admitted to trading. For every adjustment or recalculation an announcement shall be published as soon as possible.

Appendix 8 Sanctions – OMX Nordic Exchange Copenhagen

In the event that an issuer fails to meet requirements, according to this set of rules, the exchange may give the issuer a reprimand. Moreover, the exchange may give an issuer a fine of not less than one hundred thousand DKK and not more than five million DKK. Decisions made by the exchange concerning a reprimand or a fine are published with the identity of the issuer. In cases with less serious reprimands or where special circumstances apply, the exchange can choose not to publish the identity of the issuer.

If an issuer fails to meet disclosure requirements, according to this set of rules, the exchange will generally give the issuer a direct reprimand, and this reprimand will be published with the identity of the issuer. The identity of the issuer will only be published if the issuer has received a reprimand. Thereby the exchange can provide an opinion and find a situation regrettable without this leading to a publication of the issuer's identity, but where the case will be described in anonymous form. Sanctions may be tightened where there is no continuity between announcements published or where the market has been misled to a certain extent. If it can be established that the issuer has intended to conceal essential information from the market or place facts in a more favorable light, etc., this may be an aggravating factor, not only when the form of sanction is to be chosen, but also when the amount of a fine is to be fixed. Persistent violation may result in publication of a reprimand or imposition of a fine, even though the gravity of the individual violation, in isolated terms, is of no such nature that publication of a reprimand or imposition of a fine would be required.

Appendix 9

Sanctions – OMX Nordic Exchange Iceland

In the event that an issuer fails to meet requirements, according to this set of rules, the exchange may give the issuer a reprimand. Moreover, the exchange may give an issuer a fine of up to three times the annual trading fee, however, not less than DKK 25,000 and not more than DKK 1 million. The exchange may decide to publish decisions to reprimand or fine an issuer.

Comments: If an issuer fails to meet requirements, according to this set of rules, the exchange will generally give the issuer a direct reprimand. In cases involving violations of a more serious nature, the exchange may choose to publish the reprimand and/or combine the reprimand with a fine. Sanctions may be tightened where there is no continuity between announcements published or where the market has been misled to a certain extent. If it can be established that the issuer has intended to conceal essential information from the market or place facts in a more favourable light, etc., this may be an aggravating factor, not only when the form of sanction is to be chosen, but also when the amount of a fine is to be fixed. Persistent violation may result in publication of a reprimand or imposition of a fine, even though the gravity of the individual violation, in isolated terms, is of no such nature that publication of a reprimand or imposition of a fine would be required.
