

**Exchange Notice****IT 103/08**

IT – On November 28, between 15.00 and 17.00 CET, SAXESS External Test databases will be unavailable

**Oracle patch 7354523 will be installed on the SAXESS external test databases**

On Friday November 28, between 15.00 and 17.00 CET, Oracle database patching will be performed.

This patch is needed to address a core dump situation that could potentially occur.

During this time period you can continue to use the system. However, no data (i.e. overnight orders and deferred trades) will be written to or read from the databases. This means that entering of overnight orders and reporting of deferred trades during this time period will not be saved.

**Environments affected**

The following environments will be affected:

**SAXTST1**  
**SAXTST3**

We apologize for any inconvenience this may cause you.
