

January 16, 2009

Exchange Notice**Norwegian Stock Products 01/09****External Trade Reporting**

From March 2nd 2009, two trade types will be available to the members for external trade reporting:

NT, Normal Trade (if the price is at or within spread at time of registration).

OS, Outside Spread (if the price has been at or within spread within the last 5 minutes).

Currently, NT is the only trade type available and is therefore used for both events.

For members using CLICK, the list of available trade types will be updated automatically. Members using 3rd party trading applications should confirm with the suppliers that the change will be implemented. If not, the members will only be able to register trades with trade type NT (i.e. the price will have to be at or within the spread at time of registration).

Section 2A.12.4 in the Rules and Regulations of NASDAQ OMX Derivatives Markets will be updated accordingly.

Any questions regarding this Exchange Notice can be directed to Linn Furuvald (+47 22 34 17 55, linn.furuvald@oslobors.no) or the MPS desk (+47 22 34 19 80).
