**Exchange Notice****IT 20/09****IT – Full draft version of the new FIX for Click specification now available**

As announced earlier, NASDAQ OMX Nordic is pleased to announce the new FIX initiative for derivatives trading on CLICK.

By introducing FIX 4.4 for CLICK, NASDAQ OMX Nordic creates an additional connectivity option for existing and new trading members on CLICK.

The **full** draft version of the new FIX for Click protocol is now available on the NASDAQ OMX Nordic Member extranet.

Learn more about our Beta Customer program, time schedule and the draft specification. For more information, please visit:
