

**Exchange Notice****IT 25/09****IT – Full final version of the new FIX for CLICK specification now available - Invitation to non-mandatory member tests**

NASDAQ OMX Nordic is pleased to announce that the new FIX initiative for derivatives trading on CLICK is progressing according to plan.

By introducing FIX 4.4 for CLICK, NASDAQ OMX Nordic creates an additional connectivity option for existing and new trading members on CLICK.

The full final version of the new FIX for CLICK protocol is now available at the NASDAQ OMX Nordic Member extranet.

Non-mandatory member tests will start April 9, 2009. Please contact Mattias Eriksson for further information.
