NASDAQ OMX changes Post Trade Anonymity for the equity market trading in Stockholm and Helsinki

On June 2nd 2008, NASDAQ OMX Nordic introduced post trade anonymity on the Helsinki market and on the five most traded shares in Stockholm. That decision was based on member consultation conducted at the end of 2007 and in early 2008.

Following further consultation in February and March 2009, NASDAQ OMX has decided to remove the anonymity for the five shares on the Stockholm market, and change to have post trade anonymity for only the five largest shares listed in Helsinki.

The five shares at NASDAQ OMX Helsinki which will have anonymity are: Nokia Oyj (NOK), Fortum Oyj (FUM), UPM-Kymmene Oyj (UPM), Sampo Oyj (SAM), Stora Enso Oyj (STE).

The change in the post trade anonymity functionality on the Helsinki and Stockholm markets will be implemented in SAXESS as of April 14th, 2009.

As a result of the change in Helsinki, the member identity will be removed from the market data feed and SAXESS trade ticker on those given instruments. The publication of trades, including member identity, for the affected shares will be public after the close of each trading day.

For further information concerning this exchange notice please contact Mattias Hammarqvist or Henrik Husman, telephone +46 8 405 60 00.
