Forecast

Eirikuva believes that markets for special products will continue to grow in 2008. Eirikuva will maintain its focus on improving its service concept, with key priorities including the kiosk concept; new value-added products; and easy-to-use, consumer-friendly photo-ordering software.

Proceeds from the planned share issue (1,2 million €) will be invested, as specified in the strategy, in developing the kiosk concept, launching new products, and promoting global growth efforts. As a result, the Board of Directors expects the company be profitable in 2008–2009. The Board also estimates, with the 1,2 million € issue, that its funds are sufficient to continue and develop the company's operations in the coming year.
