

Press release 2008-09-10

## Order and representative in France

**C-RAD AB with its three fully owned subsidiaries is all active in the field of radiation therapy. The company has signed a distribution agreement for the market in France and also received an order of its patient positioning system to France.**

C-RAD has signed an agreement with the French company ARIES to distribute the C-RAD program on the French market. ARIES has a long experience in radiation therapy and is representing some of the most important companies in the field. A first order of the laser scanning system Sentinel has, as part of the agreement, been received. The radiation therapy clinics in France are well equipped with treatment systems that enable advanced treatment methods. C-RAD's laser scanner system Sentinel, which offers high accuracy and increased efficiency in patient positioning and motion detection, is expected to be an appreciated tool in this environment of advanced radiation therapy.

Erik Hedlund, CEO, C-RAD AB:

"We are very pleased to have signed a distribution agreement with the French company ARIES. France is together with Germany the largest market in radiation therapy of Europe. With their solid experience and excellent contacts we have now established a firm presence in France. The high standards of the radiotherapy clinics in France will be able to benefit from the high accuracy and efficiency that our Sentinel concept offers."
