Central Asia Gold AB is a Swedish mining company focused on gold production and exploration in Russia and Mongolia in the central parts of Asia. The gold production was initiated in late January 2005 and the assets were as at end of 2007 estimated to encompass some 645,000 troy ounces (1 troy ounce = 31.1 g) of C1/ C2 Russian gold reserves.

Cautionary Statement: Statements and assumptions made in this report with respect to Central Asia Gold AB's ("CAG") current plans, estimates, strategies and beliefs, and other statements that are not historical facts, are forward-looking statements about the future performance of CAG. Forward-looking statements include, but are not limited to, those using words such as "may", "might", "seeks", "expects", "anticipates", "estimates", "believes", "projects", "plans", "strategy", "forecast" and similar expressions. These statements reflect management's expectations and assumptions in light of currently available information. They are subject to a number of risks and uncertainties, including, but not limited to, (i) changes in the economic, regulatory and political environments in the countries where CAG operates; (ii) changes relating to the geological information available in respect of the various projects undertaken; (iii) CAG's continued ability to secure enough financing to carry on its operations as a going concern; (iv) the success of its potential joint ventures and alliances, if any; (v) exchange rates, particularly between the Russian rouble and the U.S. dollar. In the light of the many risks and uncertainties surrounding any gold production and exploration company at an early stage of its development, the actual results could differ materially from those presented and forecast in this report. CAG assumes no unconditional obligation to immediately update any such statements and/or forecasts.
