

BILIA EXPANDING WITH HYUNDAI IN STOCKHOLM

In March, operations at the Bilia facility in Haga Norra will be extended to include the sale and service of Hyundai's cars and transport vehicles. For the past three years, Bilia has been acting as the Hyundai dealer at three dealerships in southern Stockholm.

Commenting on the change, Bilia's managing director, Jan Pettersson, had the following to say.

"By focusing on small and medium-sized environmental vehicles, Hyundai has increased its market share during the past year and we are looking forward with anticipation to representing this brand in northern Stockholm as well. The Hyundai i20, which is being launched to coincide with the start of operations in Haga Norra, is the latest in a line of new models. The new facility will also enable us to reach a number of new fleet customers with the brand."
