

BankID wins European Identity Award

The Swedish company Finansiell ID-Teknik BID AB (BankID) has won the European Identity Award for the best IAM (Identity and Access Management) / GRC (Governance, Risk Management, Compliance) service within the Business to Business segment in Europe.

The price was awarded on the 6th of May during the European Identity Conference in Munich and the justification was: *"BankID – A working approach to support electronic IDs to employees, partners and customers – well established and proven"*.

- In Sweden most people have a basic knowledge of BankID and electronic identities. It is used daily by 1.5 million people for digital identification as well as signature in banks, authorities and companies. We are happy that our achievements have attracted attention throughout Europe, says Kenneth Tessem, Head of Business Development at Finansiell ID-Teknik BID AB.
- I'm proud that products developed by Nexus are a part of the BankID solution and we will continue to support the BankID infrastructure with secure and user friendly products, says Peter Gille CEO at Technology Nexus AB.

About BankID

Finansiell ID-Teknik BID AB provides an infrastructure for electronic identities in Sweden. Currently 9 banks act as issuers of BankID to their customers. Together these banks cover about 5.6 million online banking customers (Sweden has about 7.3 million citizens in the age of 18 or above). BankID is the leading digital identity in Sweden with a market share of 75% - at this point there are approximately 1.5 million active BankIDs. About 60 organizations provide 300 services were citizens can use their BankID for digital identification as well as signing. The services vary from online banking and e-trade to tax declaration and are provided by government authorities, municipalities, banks and other businesses. BankID signatures are advanced electronic signatures and thus legally binding within the EU.

About Nexus

Nexus Technology works internationally with e-communication, information and security solutions. Our clients are companies and organisations for which IT and the Internet are essential to the management of sensitive information and knowledge. Nexus' business concept is to offer solutions, products and services that make the right information available to the right people, at the right time, wherever they need it in the world. We help our clients to not only protect their information, e-communication and knowledge, but also to create opportunities to make more effective use of these. Nexus is an international company with headquarter in Sweden, offices in several European countries and partners all over the world. For more information please visit our web site www.nexussafe.com.
