

Summer holidays curb fall in passenger numbers

More than 1.9 million passengers passed through Copenhagen Airport in June. This represents a 8.7% year-on-year fall. The fall is, however, lower than that of the first five months of 2009.

“Having curbed the fall experienced in spring and stabilised the passenger numbers is definitely positive despite the numbers being below the 2008 level. The economic situation does not cause as many Danes to deselect air travel this summer as we might have feared. The disbursement of SP funds is probably also contributing to people’s increased urge to travel”, said Carsten Nørland, Director of Aviation, Copenhagen Airports A/S.

In June, a total of 1,913,263 passengers passed through Copenhagen Airport. The number of locally departing passengers fell by 5.4%, while the number of transfer passengers was 16.4% lower than that of June last year. International traffic fell by 9.4%, while the number of domestic passengers was 2.1% below the number of June of last year.

Uncertain months

In the first half-year 2009, the overall passenger number was 13% lower than that of the same period last year, and the airport therefore considers the current stabilisation positive. According to Carsten Nørland, some uncertainty is, however, attached to the development in passenger numbers in the months ahead.

“Given the economic situation, it will be interesting to see what we will be facing when the summer holidays are over. If business travellers adopt a different travel pattern than previously, this will continue to have a negative impact on passenger numbers”, said Carsten Nørland.

The total number of passengers at Copenhagen Airport dropped by 8.7 in June 2009 to 1,913,263 passengers
