

## IT – INET Nordic – Market Segment reversal for four Tracker Certificates (5/18)

Based on request from Market participants, Nasdaq Nordic will reverse the transfer of the four Tracker Certificates previously moved December 28, 2017 ([92/17](#)).

The Certificates, currently listed on “STO Tracker Certificates” will be moved back to segment “STO NMMO Tracker Certificates” on First North Stockholm. The change will mean that these Certificates will open with an auction, but not utilize the Market Maker Order/Market Price Protection functionality. However the Order books will benefit from Volatility Guards protection during continuous trading.

The change is valid from **January 18, 2018**. By this change, the Market Segment STO NMMO Tracker Certificates will be active again. Please find the INET identifiers below:
