

## Net Insight receives additional expansion order for Digital Terrestrial TV network from Levira

30 September 2009

**Stockholm, Sweden – Net Insight, a leading provider of efficient optical transport solutions for media, broadcast and IP networks today announced an order from the Estonian media network operator Levira, for a major upgrade and expansion of their Nimbra-based contribution and distribution network.**

In 2006 Levira, owned by the Estonian state and the French telecom and broadcasting company, TDF, deployed Net Insight's Nimbra platform in the Estonian network for contribution, production and distribution of Digital Terrestrial TV.

Levira is making a major network upgrade as well as extending the capacity and adding new international transmission links across the Baltic states. New functionality is also introduced to the network including Net Insight's unique Time Transfer feature for GPS-free time synchronization.

The Nimbra equipment will be delivered in the third quarter 2009.
