ABOUT NUNAMINERALS

NunaMinerals A/S is Greenland's leading company in the exploration of gold and other precious and base metals. The company has a portfolio of 16 exclusive licenses that to date comprise 40 exploration prospects.

Firmly rooted in Greenland, the company is well positioned to exploit the minerals potential of one of the world's few remaining unexplored regions. The geology of Greenland has a number of similarities with that of long-established mining countries such as Canada, South Africa and Australia, which all have substantial mineral deposits of gold, platinum, nickel and copper, among other commodities.

The company has established partnerships with other mining and exploration companies, including the world's second-largest mining company, Rio Tinto.

In June 2009, NunaMinerals established a partnership with Vancouver-based Nuukfjord Gold Mines Ltd regarding the continued exploration and development of the Nuuk Gold District, which includes two advanced exploration plays: the Storoe Gold Deposit and the Qussuk Gold Prospect.

EXPLORING THE MINERAL POTENTIAL OF GREENLAND

NunaMinerals A/S | Issortarfimmut 1 | Box 790 | DK-3900 Nuuk | Tel: +299 36 20 00 | Fax: +299 36 20 10 | www.nunaminerals.com | info@nunaminerals.com

Reg. nr: A/S 247.544 GER-nr: 21174548

Setting up partnerships that may bring further technical and financial expertise to the development of the company's exploration prospects is a key element of NunaMinerals' business model.

NunaMinerals began operations in 1999 and is headquartered in Nuuk, Greenland.

The company is listed on NASDAQ OMX Copenhagen under the symbol "NUNA".
