

Exchange Notice**IT 43/10****IT – INET Nordic – Specification updates**

Some of our protocol specifications have been updated to reflect the coming technical changes on INET Nordic. See the revision history for respective protocol at: http://nordic.nasdaqomxtrader.com/memberextranet/inetnordic/inet_nordic_enhancements/

**FIX for NASDAQ OMX Nordic Order Entry /
OUCH for NASDAQ OMX Nordic**

The protocols have been changed to reflect the support for Minimum Acceptable Quantity on non-displayed orders. We have also done a few other minor clarifications. Please see revision history.

OTF: Currently in OTF

Production: 2010-05-03

The change is not mandatory to take on.

Nordic Equity TotalView-ITCH

The protocol has been changed to reflect the capping in four separate quantity fields in the NOII message to 999 999 999. The reason for the capping is Icelandic Fixed income that have volumes exceeding the allowed 9 digits. This change affects these fields (bidQuantity, askQuantity, imbalanceQuantity, pairedShares).

OTF: Currently in OTF

Production: TBD

No action is needed due to this change.

Protocol specifications

The protocol specification is available at NASDAQOMXtrader.com via the following link: http://nordic.nasdaqomxtrader.com/memberextranet/inetnordic/Connectivity_and_Protocols/
