Notes to the Consolidated Financial Statements 11

Endorsement and Statement by the Board of Directors and the CEO

Operations in the year 2009

The financial statements comprise the consolidated financial statements of Icelandair Group hf. (the "Company") and its subsidiaries together referred to as the "Group".

For the past year the Company has been working with its commercial bank, Islandsbanki hf., on improving its debt maturity profile and equity ratio. In March 2010 the Company entered into an agreement with its major stakeholders which sets forth the basic terms and conditions and the intensions of the Parties regarding the financial restructuring plan. The contents of the agreement is described in more details in note 53.

At the end of second quarter the share capital in the subsidiary Travel Service was increased and the non-controlling shareholders in the company subscribed for the increase. Following the share capital increase, Icelandair Group's share in the company decreased from 66.0% to 50.1%. As stated in note 49, Icelandair Group sold 20% of its shares in Travel Service on 25 November 2009 so the Company is not be part of the consolidated financial statements as of that date.

According to the consolidated statement of comprehensive income, net loss for the year 2009 amounted to ISK 10,665 million. Total comprehensive loss for the year amounted to ISK 4,374 million. According to the consolidated statement of financial postition, equity at the end of the year amounted to ISK 14,605 million, including share capital in the amount of ISK 975 million. Reference is made to the notes to the consolidated financial statements regarding information on changes in equity.

Dividend is not allowed to be paid to shareholders in the year 2010 due to accumulated deficit at year end 2009.

Share capital and Articles of Association

The share capital amounted to ISK 1,000 million at the end of the year, from which the Company held own shares in the amount of ISK 25 million. The share capital is divided into shares of ISK 1, each with equal rights within a single class of shares listed on the Icelandic Stock Exchange (OMX Iceland). The Board of Directors has the right to increase the share capital until 7 September 2014 up by ISK 60 million in the purpose to satisfy share option agreements. The Company issued 5 year convertible notes in October 2006. The nominal amount, ISK 2,000 million, will be paid in a single amount in 2011. The notes are convertible at the option of the holder into ordinary shares over the 5 year period at the price ISK 29.7 per share, 20% each year. The Board of Directors has the right to issue new shares in relation to the convertible notes. The Company has the right to purchase up to 10% of the nominal value of the shares of the Company according to the Company's Act.

On 6 August 2009 the Company's shareholders meeting authorized the Board of Directors to increase the shareholders capital by 4,000 million shares. The subscription rate can be decided by means of invitation to tender for new shares. Shareholders may pay, partially or in full, for the shares by means of set-off of indebtness, as may be further decided by the Board of Directors. This authorized share capital increase is part of the Company's plan, in cooperation with its largest shareholder and creditor, to improve the Company's debt maturity profile and equity ratio. This authorization is valid until 1 July 2010.

Share option agreements have been made with employees of the Group, which enables them to purchase shares in the Company at the exercise price of ISK 27.5 per share after a vesting period of 12 to 36 months. Further information on the share option agreements is disclosed in note 39.

The Company's Board of Directors comprises five members and three alternative members elected on the annual general meeting for a term of one year. Those persons willing to stand for election must give formal notice thereof to the Board of Directors at least five days before the annual general meeting. The Company's Articles of Association may only be amended at a legitimate shareholders' meeting, provided that amendments and their main aspects are clearly stated in the invitation to the meeting. A resolution will only be valid if it is approved by at least 2/3 of votes cast and is approved by shareholders controlling at least 2/3 of the share capital represented at the shareholders' meeting.

Endorsement and statement by the Board of Directors and the CEO, contd.:

Shareholders at the end of the year 2009 were 833 but were 850 at the beginning of the year, a decrease of 17 during the year. Two shareholders held more than 10% of outstanding shares each at year end 2009. They are Íslandsbanki hf. with 47.0% share and Landsbanki Íslands hf. with 23.8% share.

Information on matters related to share capital is disclosed in note 30.

Statement by the Board of Directors and the CEO

The annual consolidated financial statements for the year ended 31 December 2009 have been prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the EU and additional Icelandic disclosure requirements for consolidated financial statements of listed companies.

According to our best knowledge it is our opinion that the annual consolidated financial statements give a true and fair view of the consolidated financial performance of the Company for the financial year 2009, its assets, liabilities and consolidated financial position as at 31 December 2009 and its consolidated cash flows for the financial year 2009.

Further, in our opinion the consolidated financial statements and the endorsement of the Board of Directors and the CEO give a fair view of the development and performance of the Group's operations and its position and describes the principal risks and uncertainties faced by the Group.

The Board of Directors and the CEO have today discussed the annual consolidated financial statements of Icelandair Group hf. for the year 2009 and confirm them by means of their signatures. The Board of Directors and the CEO recommend that the consolidated financial statements will be approved at the annual general meeting of Icelandair Group hf.

Independent Auditors' Report

To the Board of Directors and Shareholders of Icelandair Group hf.

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Icelandair Group hf. and its subsidiaries (the "Group"), which comprise the report by the Board of Directors, the balance sheet as at December 31, 2009, and the consolidated income statement, consolidated statement of changes in equity and consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the EU. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with relevant ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of Icelandair Group as at December 31, 2009, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the EU.

Emphasis of matter

Without qualifying our opinion, we draw attention to note 53 to the consolidated financial statements, which states that the Company has entered into framework agreement with main creditors regarding the financial restructuring plan. If the restructuring, accourding to the agreement, will not be completed and the debt maturity profile and financial position of the Company will not be improved in other way it may cast doubt about the Company´s ability to continue as a going concern.

Cash and cash equivalents at beginning of the year		4,065	2,006
Cash and cash equivalents at 31 December 2009	29	1,909	4,065

The notes on pages 11 to 50 are an integral part of these consolidated financial statements.

Notes

1. Reporting entity

Icelandair Group hf. (the "Company") is a limited liability company incorporated and domiciled in Iceland. The address of the Company´s registered office is at Reykjavíkurflugvöllur in Reykjavík, Iceland. The consolidated financial statements of the Company as at and for the year ended 31 December 2009 comprise the Company and its subsidiaries (together referred to as the "Group" and individually as "Group entities") and the Group´s interests in associates. The Group´s operations are in the airline transportation and tourism industry. The Company is listed on the Iceland Stock Exchange.

2. Basis of preparation

a. Statement of compliance

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the EU.

The financial statements were approved and authorised for issue by the Board of Directors on 30 April 2010.

b. Basis of measurement

The consolidated financial statements are prepared on the historical cost basis except that derivative financial instruments are stated at their fair value. The methods used to measure fair values are discussed further in note 4.

c. Functional and presentation currency

These consolidated financial statements have been prepared in Icelandic krona (ISK), which is the Company's functional currency. All financial information presented in ISK has been rounded to the nearest million.

d. Use of estimates and judgements

The preparation of the consolidated financial statements in conformity with IFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the consolidated financial statements are: business combinations, measurement of the recoverable amounts of cash-generating units, utilisation of tax losses, accounting for an arrangement containing a lease, provisions and valuation of financial instruments.

e. Changes in accounting policies

The consolidated financial statements are prepared using the same accounting policies as the previous year. The presentation of the financial statements has been changed in accordance with new rules concerning presentation of financial statements.

The Group applies revised IAS 1 Presentation of Financial Statements (2007), which became effective as of 1 January 2009. As a result, the Group presents in the consolidated statement of changes in equity all owner changes in equity, whereas all non-owner changes in equity are presented in the consolidated statement of comprehensive income. Comparative information has been re-presented so that it also is in conformity with the revised standard. Since the change in accounting policy only impacts presentation aspects, there is no impact on earnings per share.

The Group applies IFRS 8, Operating Segments, which became effective as of 1 January 2009. The Group presents a statement of segment based on internal reporting to managing director. Implementation of the standard does not change the presentation of business segments.

3. Significant accounting principles

The accounting policies set out in this note have been applied consistently to all periods presented in these consolidated financial statements, and have been applied consistently by Group entities.

Certain comparatives amounts have been reclassified to conform with the current year's presentation.

a. Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities controlled by the Group. Control exists when the Group has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable or convertible are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Group.

(ii) Investments in associates

Associates are those entities in which the Group has significant influence, but not control, over the financial and operating policies. Significant influence is presumed to exist when the Group holds between 20 and 50 percent of the voting power of another entity. Associates are accounted for using the equity method and are initially recognised at cost. The Group´s investment includes goodwill identified on acquisition, net of any accumulated impairment losses. The consolidated financial statements include the Group's share of the total recognised gains and losses and equity movements of associates on an equity accounted basis, from the date that significant influence commences until the date that significant influence ceases. When the Group's share of losses exceeds its interest in an associate, the Group's carrying amount including any long-term investments is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has an obligations or made payments on behalf of the investee.

(iii) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with associates are eliminated against the investment to the extent of the Group's interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

b. Foreign currency

(i) Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. Foreign currency differences arising on retranslation are recognised in profit or loss.

(ii) Foreign operations and Icelandic subsidiaries with foreign functional currency

The assets and liabilities of foreign operations and Icelandic subsidiaries with functional currency other than Icelandic krona, including goodwill and fair value adjustments arising on acquisitions, are translated to Icelandic kronas at exchange rates at the reporting date. The income and expenses of foreign operations are translated to Icelandic kronas at exchange rates at the dates of the transactions. Foreign currency differences arising on retranslation are recognised in other comprehensive income. When a foreign operationis disposed of, in part or in full, the relevant amount in the foreign curreny translation reserve (FCTR) within equity is transferred to profit or loss as part of the profit or loss on disposal.

3b. contd.:

When the settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely in the foreseeable future, foreign exchange gains and losses arising from such a monetary item are considered to form part of a net investment in a foreign operation and are recognised in other comprehensive income, and are presented within equity in the FCTR.

(iii) **Hedge of net investment in foreign operations**

Foreign currency differences arising on the retranslation of a financial liability designated as a hedge of a net investment in foreign operations are recognised in other comprehensive income, to the extent that the hedge is effective, and are presented within equtiy in the FCTR. To the extent that the hedge is ineffective, such differences are recognised in profit or loss. When the hedged net investment is disposed of, the relevant amount in the FCTR is transferred to profit or loss as part of the profit or loss on disposal.

c. Financial instruments

(i) **Non-derivative financial instruments**

Non-derivative financial instruments comprise long-term receivables and deposits, trade and other receivables, cash and cash equivalents, loans and borrowings, and trade and other payables.

Non-derivative financial instruments are recognised initially at fair value plus, for instruments not at fair value through profit or loss, any directly attributable transaction costs. Subsequent to initial recognition non-derivative financial instruments are measured at amortised cost using the effective interest method, less any impairment losses.

Cash and cash equivalents comprise cash balances and call deposits.

Accounting for finance income and finance costs is discussed in note 3(p).

All other non-derivative financial instruments are measured at amortised cost using the effective interest method, less any impairment losses.

(ii) **Derivative financial instruments, including hedge accounting**

The Group generally holds derivative financial instruments to hedge its foreign currency, fuel price and interest rate risk exposures (see note 42). Derivatives are recognised initially at fair value; attributable transaction costs are recognised in profit or loss as incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are accounted for as described below. The Group holds no trading derivatives.

On initial designation of the hedge, the Company formally documents the relationship between the hedging instrument(s) and hedged item(s), including the risk management objectives and strategy in undertaking the hedge transaction, together with the methods that will be used to assess the effectiveness of the hedging relationship. The Company makes an assessment, both at the inception of the hedge relationship as well as on an ongoing basis, whether the hedging instruments are expected to be "highly effective" in offsetting the changes in the fair value or cash flows of the respective hedged items during the period for which the hedge is designated, and whether the actual results of each hedge are within a range of 80-125 percent. For a cash flow hedge of a forecast transaction, the transaction should be highly probable to occur and should present an exposure to variations in cash flows that could ultimately affect reported net income.

3c. contd.:

Cash flow hedges

When a derivative is designated as the hedging instrument in a hedge of the variability in cash flows attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction that could affect profit or loss, the effective portion of changes in the fair value of the derivative is recognised in other comprehensive income and presented in the hedging reserve in equity. The amount recognised in other comprehensive income is removed and included in profit or loss in the same period as the hedged cash flows affect profit or loss under the same line item in the statement of comprehensive income as the hedged item. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in profit or loss.

If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated, exercised, or the designation is revoked, then hedge accounting is discontinued prospectively. The cumulative gain or loss previously recognised in other comprehensive income and presented in the hedging reserve in equity remains there until the forecast transaction affects profit or loss. When the hedged item is a non-financial asset, the amount recognised in other comprehensive income is transferred to the carrying amount of the asset when the asset is recognised. If the forecast transaction is no longer expected to occur, then the balance in other comprehensive income is recognised immediately in profit or loss. In other cases the amount recognised in other comprehensive income is transferred to profit or loss in the same period that the hedged item affects profit or loss.

Economic hedges

Hedge accounting is not applied to derivative instruments that economically hedge monetary assets and liabilities denominated in foreign currencies. Changes in the fair value of such derivatives are recognised in profit or loss as foreign currency gains and losses.

Other non-trading

When a derivative financial instrument is not held for trading, and is not designated in a qualifying hedge relationship, all changes in its fair value are recognised immediately in profit or loss.

(iii) **Compound financial instruments**

Compound financial instruments issued by the Group comprise convertible notes that can be converted to share capital at the option of the holder, and the number of shares to be issued does not vary with changes in their fair value.

The liability component of a compound financial instrument is recognised initially at the fair value of a similar liability that does not have an equity conversion option. The equity component is recognised initially at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

Subsequent to initial recognition, the liability component of a compound financial instruments is measured at amortised cost using the effective interest method. The equity component of a compound financial instruments is not remeasured subsequent to initial recognition.

(iv) **Share capital**

Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

3c. contd.:

Repurchase of share capital

When share capital recognised as equity is repurchased, the amount of the consideration paid, which includes directly attributable costs, is recognised as a deduction from equity. Repurchased shares are classified as treasury shares and are presented as a deduction from total equity. When treasury shares are sold or reissued subsequently, the amount received is recognised as an increase in equity, and the resulting surplus or deficit on the transaction is transferred to / from share premium.

d. Operating assets

(i) Recognition and measurement

Items of operating assets are measured at cost less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. Cost also may include transfers from other comprehensive income of any gain or loss on qualifying cash flow hedges of foreign currency purchases of operating assets. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of operating assets have different useful lives, they are accounted for as separate items (major components) of operating assets.

Gains and losses on disposal of an item of operating assets are determined by comparing the proceeds from disposal with the carrying amount of operating assets and are recognised net within "other operating revenue" in the statement of comprehensive income.

(ii) Aircrafts and flight equipment

Aircrafts and flight equipment, e.g. aircraft engines and aircraft spare parts, are measured at cost less accumulated depreciation and accumulated impairment losses. When aircrafts are acquired the purchase price is divided between the aircraft itself and engines. Aircrafts are depreciated over the estimated useful life of the relevant aircraft until a residual value is met. Engines are depreciated according to flown cycles. When an engine is overhauled the cost of the overhaul is capitalised and the remainder of the cost of the previous overhaul that has not already been depreciated, if there is any, is expensed in full.

(iii) Subsequent costs

The cost of replacing part of an item of operating assets is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other costs are recognised in profit or loss as an expense as incurred.

(iv) Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

3d. contd.:

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each item of operating assets since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. The estimated useful lives for the current and comparative periods are as follows:

	Useful life
Aircrafts and flight equipment	4-20 years
Engines	Cycles
Buildings	17-50 years
Other property and equipment	3-8 years

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

e. Intangible assets

(i) **Goodwill and other intangible assets with indefinite useful lives**

All business combinations are accounted for by applying the purchase method. Goodwill represents amounts arising on acquisition of subsidiaries. In respect of business acquisitions goodwill represents the difference between the cost of the acquisition and the fair value of the net identifiable assets acquired.

Goodwill is stated at cost less any accumulated impairment losses. Goodwill is allocated to cash-generating units and is tested annually for impairment.

Negative goodwill arising on an acquisition is recognised directly in profit or loss.

Goodwill, trademarks and slots with indefinite useful lives are stated at cost less accumulated impairment losses.

(ii) **Other intangible assets**

Other intangible assets that have finite useful lives are measured at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful lives since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful lives for the current and comparative periods are as follows:

	Useful life
Software	3 years
Customer relations	7-10 years
Favourable aircraft lease contracts	2-3 years
Other intangible assets	6-10 years

Amortisation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

(iii) **Subsequent expenditure**

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

3. contd.:

f. Prepaid aircraft acquisitions

Prepaid aircraft acquisitions consist of pre-payments on Boeing aircrafts that are still to be delivered. Borrowing cost related to these pre-payments is capitalised based on the interest rate on the directly related financing.

g. Leased assets

All leases are operating leases and the leased assets are not recognised in the Group's statement of financial position.

h. Inventories

Goods for resale and supplies are measured at the lower of cost and net realisable value. The cost of inventories is based on first-in first-out principle and includes expenditure incurred in acquiring the inventories in bringing them to their existing location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. Aircraft equipment is capitalised at the foreign exchange rate ruling at the date of acquisition.

i. Impairment

(i) **Financial assets**

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in profit or loss and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

If, in a subsequent period, the fair value of an impaired available-for-sale debt security increases and the increase can be related objectively to an event occurring after the impairment loss was recognised in profit or loss, then the impairment loss is reversed, with the amount of the reversal recognised in profit or loss.

(ii) **Non-financial assets**

The carrying amounts of the Group's non-financial assets other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, recoverable amount is estimated at each reporting date.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a post-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit (group of units) on a pro rata basis.

3i. contd.:

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

j. Non-current assets held for sale

Non-current assets, or disposal groups comprising assets and liabilities, that are expected to be recovered primarily through sale rather than through continuing use, are classified as held for sale. Immediately before classification as held for sale, the assets, or components of a disposal group, are remeasured in accordance with the Group's accounting policies. Thereafter generally the assets, or disposal group, are measured at the lower of their carrying amount and fair value less cost to sell. Any impairment loss on a disposal group first is allocated to goodwill, and then to remaining assets and liabilities on pro rata basis, except that no loss is allocated to inventories, financial assets and deferred tax assets, which continue to be measured in accordance with the Group's accounting policies. Impairment losses on initial classification as held for sale and subsequent gains or losses on remeasurement are recognised in profit or loss. Gains are not recognised in excess of any cumulative impairment loss.

k. Employee benefits

(i) **Defined contribution plans**

Obligations for contributions to pension plans are recognised as an expense in the statement of comprehensive income when they are due.

(ii) **Share-based payment transactions**

The grant date fair value of share-based payment awards to employees is recognised as an employee expense, with a corresponding increase in equity, over the period in which the employees become unconditionally entitled to the awards. The amount recognised as an expense is adjusted to reflect the actual number of awards for which the related service and non-market vesting conditions are met.

The fair value of employee share-based payment awards is measured using a binomial lattice model. Measurement inputs include share price on measurement date, exercise price of the instrument, expected volatility based on weighted average historic volatility adjusted for changes expected due to publicly available information, weighted average expected life of the instruments based on historical experience and general option holder behaviour, expected dividends, and the risk-free interest rate based on government bonds. Service and non-market performance conditions attached to the transactions are not taken into account in determining fair value.

Share-based payment arrangements in which the Group receives services as consideration for its own equity instruments are accounted for as equity-settled share-based payment transactions, regardless of how the equity instruments are obtained by the Group.

l. Provisions

A provision is recognised in the statement of financial position when the Group has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

(i) **Onerous contracts**

A provision for onerous contracts is recognised when the expected benefits to be derived by the Group from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Group recognises any impairment loss on the assets associated with that contract.

3l. contd.:

(ii) **Overhaul commitments relating to aircrafts under operating lease**

With respect to the Group´s operating lease agreements, where the Group has a commitment to maintain the aircraft, provision is made during the lease term for the obligation based on estimated future cost of major airframe and certain engine maintenance checks by making appropriate charges to the statement of comprehensive income calculated by reference to the number of hours or cycles operated during the year.

Provisions are entered into the statement of financial position among non-current and current payables.

m. Deferred income

Sold unused tickets , fair value of unutilized frequent flyer points and other prepayments are presented as deferred income in the statement of financial position.

(i) **Frequent flyer program**

Frequent flyer points earned or sold are accounted for as a liability on a fair value basis of the services that can be purchased for the points. The points are recognized as revenue when they are utilized or when they expire.

n. Operating income

(i) **Transport revenue**

Passenger ticket sales are not recognised as revenue until transportation has been provided. Sold refundable documents not used within twelve months from the month of sale are recognised as revenue. Sold not used, non-refundable documents are recognized as revenue two months after expected transport. Revenue from mail and cargo transportation is recognised after transportation has been provided.

For customer loyalty programmes, the fair value of the consideration received or receivable in respect of the initial sale is allocated between the award credits (frequent flyer points) and the other components of the sale. Awards can also be generated through transportation services supplied by the Group. Through transportation services the amount allocated to the points is estimated by reference to the fair value of the services for which they could be redeemed, since the fair value of the points themselves is not directly observable. The fair value of the services is estimated taking into account the expected redemption rate and the timing of such expected redemptions. Such amount is deferred and revenue is recognised only when the points are redeemed and the Group has fulfilled its obligations to supply the services. The amount of revenue recognised in those circumstances is based on the number of points that have been redeemed in exchange for services, relative to the total number of points that is expected to be redeemed.

(ii) **Aircraft and aircrew lease**

Revenue from aircraft and aircrew lease is recognised in profit or loss when the service has been provided at the end of each charter flight.

(iii) **Other operating revenue**

Revenues include revenues from tourism, sales at airports and hotels, sold maintenance revenues and other revenues. Revenue is recognised in profit or loss when the service has been provided or sale completed by delivery of product.

Gain on sale of operating assets is recognised in profit or loss after the risks and rewards of ownership have been transferred to the buyer.

o. Lease payments

(i) **Operating lease payments**

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease.

3. contd.:

p. Finance income and finance costs

Finance income comprises interest income on funds invested, dividend income, foreign currency gains, and gains on hedging instruments that are recognised in profit or loss. Interest income is recognised as it accrues in profit or loss, using the effective interest method. Dividend income is recognised in profit or loss on the date that the Group´s right to receive payment is established.

Finance costs comprise interest expense on borrowings, unwinding of the discount on provisions, foreign currency losses, impairment losses recognised on financial assets, and losses on hedging instruments that are recognised in profit or loss. Borrowing costs that are not directly attributable to the acquisition of a qualifying asset are recognised in profit or loss using the effective interest method.

Foreign currency gains and losses are reported on a net basis.

q. Income tax

Income tax on the profit or loss for the year comprises only deferred tax. Income tax expense is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or other comprehensive income.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit, and differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the reporting date.

A deferred tax asset is recognised for unused tax losses and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

r. Discontinued operations

A discontinued operation is a component of the Group's business that represents a separate major line of business or geographical area of operations that has been disposed of or is held for sale, or is a subsidiary acquired exclusively with a view to resale. Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale, if earlier. When an operation is classified as a discontinued operation, the comparative statement of comprehensive income is re-presented as if the operation had been discontinued from the start of the comparative period.

s. Earnings per share

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year, adjusted for own shares held. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares.

3. contd.:

t. Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group’s other components. An operating segment’s operating results are reviewed regularly by the CEO to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. The major revenue-earning assets of the Group are the aircraft fleet, the majority of which are registered in Iceland. Since the Group's aircraft fleet is employed flexibly across its route network, there is no suitable basis of allocating such assets and related liabilities to geographical segments.

Inter-segment pricing is determined on an arm's length basis.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly investments and related revenue, loans and borrowings and related expenses, corporate assets and head office expenses, and income tax assets and liabilities.

Segment capital expenditure is the total cost incurred during the period to acquire property, plant and equipment, and intangible assets other than goodwill.

u. New standards and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations are not yet effective for the year ended 31 December 2009, and have not been applied in preparing these consolidated financial statements. None of these will have material effect on the consolidated financial statements of the Group.

4. Determination of fair values

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and / or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

(i) Operating assets

The fair value of operating assets recognised as a result of a business combination is based on market values. The market value of aircrafts and properties is the estimated amount for which they could be exchanged on the date of valuation between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably and willingly. The fair value of items of equipment, fixtures and fittings is based on the market approach and cost approaches using quoted market prices for similar items when available and replacement cost when appropriate.

(ii) Intangible assets

The fair value of intangible assets acquired in a business combination is based on the discounted estimated royalty payments that have been avoided as a result of the trademark being owned. The fair value of other intangible assets is based on the discounted cash flows expected to be derived from the use and eventual sale of the assets.

(iii) Inventories

The fair value of inventories acquired in a business combination is determined based on its estimated selling price in the ordinary course of business less the estimated costs of completion and sale, and a reasonable profit margin based on the effort required to complete and sell the inventory.

(iv) Receivables

The fair value of receivables is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date. The fair value is determined for disclosure purposes.

(v) Derivatives

The fair value of forward exchange contracts is based on their listed market price, if available. If a listed market price is not available, then fair value is estimated by discounting the difference between the contractual forward price and the current forward price for the residual maturity of the contract using a risk-free interest rate based on government bonds.

The fair value of interest rate swaps is based on broker quotes. Those quotes are tested for reasonableness by discounting estimated future cash flows based on the terms and maturity of each contract and using market interest rates for a similar instrument at the measurement date.

Fair values reflect the credit risk of the instrument and include adjustments to take account of the credit risk of the Group entity and counterparty when appropriate.

(vi) Non-derivative financial liabilities

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date. In respect of the liability component of convertible notes, the market rate of interest is determined by reference to similar liabilities that do not have a conversion option.

(vii) Deferred income

The amount allocated to the frequent flyers points is estimated by reference to the fair value of the discounted services for which they could be redeemed, since the fair value of the points themselves is not directly observable. The fair value of the discounted servicess for which the points, granted through a customer loyalty programme, can be redeemed takes into account the expected redemption rate and the timing of such expected redemptions. Such amount is recognised as deferred income.

5. Segment reporting

Segment information is presented in the consolidated financial statements in respect of the Group's business segments, which are the primary basis of segment reporting. The business segment reporting format reflects the Group's management and internal reporting structure and is divided into three segments, scheduled airline and tourism operations, global capacity and aircraft trading and shared services.

Inter-segment pricing is determined on an arm's length basis.

Segment results include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

Scheduled airline and tourism operations

Six companies are categorised as being part of the Scheduled Airline and Tourism Operation focus of the Group: Icelandair, the international full-service airline with a hub in Iceland; Icelandair Cargo, a full-service air-freight company and Icelandair Ground Services, which handles airlines and passenger services at Keflavik Airport. These companies work closely together and have long historical ties. Three companies; Iceland Travel, a tour operator and travel agency in in-coming tourism, Icelandair Hotels, which markets and operates two hotel chains, Icelandair Hotels and Edda Hotels, and Air Iceland a scheduled domestic carrier which also offers regular flights to Greenland and the Faeroe Islands form the travel and tourism part of the Group. These companies all provide strategic support to the international scheduled operations, their main focus is on profitable operations.

Global capacity solutions and aircraft trading

The six companies forming this part of Icelandair Group hf. are Loftleiðir-Icelandic and Smartlynx (previously LatCharter), a capacity providers for the international airline and tour operator industry, Bluebird Cargo, a transportation service provider, Icelease, which handles the buying, selling and leasing of aircrafts using IG Invest as its holding company, and Travel Services which is consolidated as of 1 April 2008. These six companies are grouped together to emphasise Icelandair Group’s increased focus on international expansion in this field. Their role is to capitalise on internal know-how by offering aircraft operation services to third parties and taking advantage of trading opportunities in a fast-growing world market, as well as looking for opportunities for mergers and acquisitions.

Shared services

This segment comprises IceCap Guernsey and Icelandair Shared Services besides operations of the Parent Company. Icelandair Shared Services handles accounting, reporting and salary processing for the companies within Icelandair Group. IceCap underwrites a part of Icelandair Group’s insurance risk.

5. contd.:

Business segments

2009

	Scheduled airline and tourism operations	Global capacity and aircraft trading	Shared services	Eliminations	Consolidated
External revenue	62,915	17,216	190		80,321
Inter-segment revenue	16,731	265	646	(17,642)	
Total segment revenue	79,646	17,481	836	(17,642)	80,321
Segment EBITDAR	14,542	2,375	(585)		16,332
Segment EBITDA	7,391	1,341	(597)		8,135
Segment results	3,138	(1,028)	(627)		1,483

Amortisation of intangible assets	204	443	15		662
Impairment loss	4,097	1,712	606		6,415

6. Discontinued operation

For the past year the Company has been working with its commercial bank, Islandsbanki hf., on improving its debt maturity profile and equity ratio. As a part of the restructuring plan the Board of Directors has in addition with the dilution of Travel Service (note 49), proposed redefinition of the business model of the company, leading to subsidiaries being split between core and non-core. Accordingly the main focus of the Group will be on scheduled airline operations and tourism evolving around Iceland, and related services. Smartlynx Latvia, and the remaining shares in Travel Service are defined as non-core, leading to reclassification on these companies financial results for the year 2009 as discontinued operations. Amounts for the year 2008 have been re-presented in the profit and loss statement for comparative reasons.

On 1 July 2009 the Group acquired 51% ownership in three companies; Siglo FIU, Siglo FIR and Siglo FIJ. Previously the Group owned 49% of the shares and accounted for them as shares in associates. Since the acquisition, the companies are a part of the consolidation but as the ownership is considered as temporary and process of disposal has commenced, total assets and liabilities are classified as discontinued.

The results of the discontinued operation are specfied as follows:

Results of discontinued operation	**2009**	**2008**
Revenue	56,192	41,176
Expenses	(59,325)	(39,515)
Results from operating activities	(3,133)	1,661
Financial (expenses) income	(536)	498
Income tax	229	(722)
Results from operating activities, net of income tax	(3,440)	1,437
Loss on sale of discontinued operation	(687)	0
Expensed loans and guarantees of discontinued operation	(1,806)	0
Impairment on shares	(748)	0
(Loss) profit for the year	(6,681)	1,437
Basic (loss) profit per share	(6.86)	1.47
Diluted (loss) profit per share	(6.86)	1.47

Cash flows used in discontinued operation		
Net cash (used in) from operating activities	(31)	2,454
Net cash used in investing activities	(2,510)	(2,332)
Net cash from financing activities	673	867
Net cash (used in) from discontinued operation	(1,868)	989

Effects of disposal of Travel Service on the financial position of the Group	**2009**
Operating assets	583
Intangible assets	156
Prepaid aircraft acquisitions	3,277
Long-term receivables and deposits	1,038
Trade and other receivables	4,181
Cash and cash equivalents	1,413
Deferred tax liabilities	(192)
Loans and borrowings	(4,689)
Trade and other payables	(3,298)
Deferred income	(620)
Net assets and liabilities	1,849
Consideration received, receivable at year-end	277
Cash and cash equivalents disposed of	(1,413)

7. Assets and liabilities classified as held for sale

The Company's Board of Directors decided in December as a part of it's financial restruction plan, to consider two of it's subsidiaries, Bluebird Cargo and Smartlynx as assets held for sale. Also included is the 30% remaining share in Travel Service. Total assets and liabilities of these companies are classified as held for sale in the financial position.

According to IFRS 5, when classified as held for sale, assets and liabilities are measured at the lower of carrying value and fair value less cost to sell. As a result, loss amounting to ISK 528 million is recognised as impairment on assets held for sale. Total loss recognized on discontinued operation (see note 6) and assets and liabilities classified as held for sale is therefore ISK 7,209 million.

Assets and liabilities classified as held for sale are specfied as follows:

	2009
Assets classified as held for sale	
Operating assets	11,080
Intangible assets	2,793
Other non-current assets	2,258
Inventories	106
Trade and other receivables	1,042
Cash and cash equivalents	221
	17,500
Liabilities classified as held for sale	
Non-current loans and borrowings	4,025
Deferred income tax liability	298
Current loans and borrowings	2,722
Trade and other payables	3,184
Deferred income	368
	10,597

8. Operating income

Transport revenue is specified as follows:

	2009	2008
Passengers	41,581	36,140
Cargo and mail	5,558	5,745
Total transport revenue	47,139	41,885

9. Operating expenses

Salaries and other personnel expenses are specified as follows:

	2009	2008
Salaries	12,286	13,756
Equity-settled share based payment transactions	33	60
Contribution to pension funds	1,656	1,858
Other salary-related expenses	1,114	1,069
Other personnel expenses	3,563	3,532
Total salaries and other personnel expenses	18,652	20,275
Average number of full year equivalents	2,182	2,437

10. Auditors' fees

Fees to the Group's auditors is specified as follows:

	2009	2008
Audit of financial statements	35	33
Review of interim accounts	25	19
Other services	15	18
Total auditors' fees	75	70

The abovementioned figures include fees to the auditors of all companies within the Group. Fees to auditors, other than the auditors of the Parent Company amounted to ISK 25 million during the year 2009 (2008: ISK 17 million).

11. Depreciation and amortisation

The depreciation and amortisation charge in profit or loss is specified as follows:

	2009	2008
Depreciation of operating assets, see note 16	4,611	3,327
Amortisation of intangible assets, see note 20	494	662
Impairment, see note 20	1,019	6,415
Impairment on assets held for sale, see note 7	528	0
Depreciation and amortisation recognised in profit or loss	6,652	10,404

12. Finance income and finance costs

Finance income and finance costs are specified as follows:

	2009	2008
Interest income on bank deposits	52	121
Other interest income	111	41
Net foreign exchange gain	0	1,420
Trading derivatives	0	130
Finance income total	163	1,712
Interest expense on loans and borrowings	3,669	3,469
Other interest expenses	484	189
Net foreign exchange loss	1,984	0
Loss from sale of derivatives	26	0
Finance costs total	6,163	3,658
Net finance costs	(6,000)	(1,946)

13. Income tax

Income tax recognised in profit or loss is specified as follows:

	2009	2008
Deferred tax expense		
Origination and reversal of temporary differences	(547)	(102)
Change in tax rate from 15% to 18% / 18% to 15%	62	22
Total income tax in profit or loss	(485)	(80)

In December 2009, the Icelandic Parliament approved to increase the income tax ratio from 15% to 18% as of 1 January 2010 and the change comes into effect for the tax assessment in the year 2011. The effect thereof has been recognised in the financial statements for the year 2009 and the increase in deferred income tax asset amounts to ISK 62 million.

14. Reconciliation of effective tax rate:

	2009		2008	
Loss before tax and discontinued operation		(4,804)		(8,985)
Income tax according to current tax rate	15.0%	(721)	15.0%	(1,348)
Change in tax rate from 15% to 18% / 18% to 15%	(1.3%)	62	(0.2%)	22
Tax exempt revenues	0.2%	(10)	0.5%	(42)
Non-deductible expenses	(14.5%)	697	(16.4%)	1,477
Foreign currency subsidiaries	0.0%	0	(2.3%)	207
Discontinued operations	9.1%	(435)	8.0%	(723)
Other items	1.6%	(78)	(3.6%)	327
Effective tax rate	10.1%	(485)	0.9%	(80)

15. Income tax recognised directly in equity:

	2009	2008
Derivatives	332	1,065
Total income tax recognised directly in equity	332	1,065

16. Operating assets

Operating assets are specified as follows:

Gross carrying amounts	Aircrafts and flight equipment	Buildings	Other property and equipment	Total
Balance at 1 January 2008	20,357	3,008	2,307	25,672
Additions through business combinations	381	5	49	435
Additions during the year	3,344	86	390	3,820
Sales and disposals during the year	(692)	(29)	(33)	(754)
Exchange rate difference	15,440	373	85	15,898
Balance at 31 December 2008	38,830	3,443	2,798	45,071
Additions during the year	1,941	47	238	2,226
Sales and disposals during the year	(1,555)	0	(58)	(1,613)
Exchange rate difference	1,162	74	18	1,254
Assets classified as held for sale	(8,835)	(897)	(294)	(10,026)
Balance at 31 December 2009	31,543	2,667	2,702	36,912
Depreciation and impairment losses				
Balance at 1 January 2008	2,295	145	400	2,840
Depreciation for the year	2,787	134	406	3,327
Depreciation for the year of discontinued operations	63	19	36	118
Sales and disposals during the year	(388)	(4)	(25)	(417)
Exchange rate difference	2,286	62	57	2,405
Balance at 31 December 2008	7,043	356	874	8,273
Depreciation for the year	4,055	141	415	4,611
Depreciation for the year of discontinued operations	150	35	43	228
Sales and disposals during the year	(1,085)	0	(49)	(1,134)
Exchange rate difference	371	4	9	384
Assets classified as held for sale	(2,228)	(74)	(162)	(2,464)
Balance at 31 December 2009	8,306	462	1,130	9,898

16. contd.:

Carrying amounts

At 1 January 2008	18,062	2,863	1,907	22,832
At 31 December 2008	31,787	3,087	1,924	36,798
At 31 December 2009	23,237	2,205	1,572	27,014
Depreciation ratios	5-25%	2-6%	13-33%	

17. Mortgages and commitments

The Group's operating assets are mortgaged to secure debt. The remaining balance of the debt amounted to ISK 28,379 million at the end of the year 2009 (2008: ISK 34,186 million).

18. Insurance value of aircrafts and flight equipment

The insurance value and book value of aircrafts and related equipment of the Company at year-end 2009 are specified as follows:

	Insurance value	Carrying amount
Boeing - 5 aircrafts	29,675	18,218
Other aircrafts	7,387	1,570
Flight equipment	2,792	3,449
Total aircrafts and flight equipment	39,854	23,237

19. Insurance value of buildings and other operating assets

The principal buildings owned by the Group at 31 December 2009 are the following:

	Official assessment value	Insurance value	Carrying amount
Maintenance hangar, Keflavík Airport	1,490	2,858	657
Freight building, Keflavík Airport	399	756	347
Office building, Reykjavík Airport	797	1,191	277
Service building, Keflavík Airport	413	774	221
Hangar 4 and other buildings, Reykjavík Airport	603	1,027	276
Other buildings	395	1,010	427
Buildings total	4,097	7,616	2,205

Official valuation of the Group's leased land for buildings at 31 December 2009 amounted to ISK 637 million and is not included in the statement of financial position.

The insurance value of the Group's other operating assets and equipment amounted to 4,129 million at the end of the year 2009. The carrying amount at the same time was ISK 1,572 million.

20. Intangible assets

Intangible assets are specified as follows:

Gross carrying amounts	**Goodwill**	**Trademarks and slots**	**Customer relations**	**Other intangibles**	**Total**
Balance at 1 January 2008	20,143	4,920	1,083	1,412	27,558
Additions through business combinations	1,257	833	263	442	2,795
Additions during the year	0	0	0	165	165
Sales and disposals during the year	(580)	0	0	(18)	(598)
Exchange rate difference	5,181	1,295	486	277	7,239
Balance at 31 December 2008	26,001	7,048	1,832	2,278	37,159
Additions during the year	0	0	0	92	92
Sales and disposals during the year	(1,468)	(564)	(212)	(542)	(2,786)
Discontinued operation	(1,818)	(1,784)	(1,014)	(725)	(5,341)
Exchange rate difference	323	105	33	35	496
Balance at 31 December 2009	23,038	4,805	639	1,138	29,620

Amortisation and impairment losses					
Balance at 1 January 2008	0	0	153	559	712
Amortisation for the year	0	0	204	458	662
Amortisation for the year of discontinued operation	0	0	0	15	15
Impairment loss	5,182	884	340	9	6,415
Sales and disposals during the year	0	0	0	(16)	(16)
Exchange rate difference	0	0	24	41	65
Balance at 31 December 2008	5,182	884	721	1,066	7,853
Amortisation for the year	4	0	158	332	494
Amortisation for the year of discontinued operation	0	0	0	37	37
Impairment loss	1,019	0	0	0	1,019
Sales and disposals during the year	(1,468)	(564)	(212)	(542)	(2,786)
Discontinued operation	(12)	0	(287)	(303)	(602)
Exchange rate difference	1	(1)	0	7	7
Balance at 31 December 2009	4,726	319	380	597	6,022

Carrying amounts					
At 1 January 2008	20,143	4,920	930	853	26,846
At 31 December 2008	20,819	6,164	1,111	1,212	29,306
At 31 December 2009	18,312	4,486	259	541	23,598

21. Impairment test

Goodwill and other intangible assets that have indefinite live are tested for impairment at each reporting date. These assets were recognised at fair value on acquistion dates. Goodwill and other intangible assets with indefinite live are specified as follows:

	2009	2008
Goodwill	18,312	20,819
Trademarks and slots	4,486	6,164
Total	22,798	26,983

For the purpose of impairment testing on goodwill, goodwill is allocated to the subsidiaries which represent the lowest level within the Group at which the goodwill is monitored for internal management purposes. The aggregate carrying amount of goodwill allocated to each segment (group of units) are as follows:

	2009	2008	2009	2008
	Goodwill		Trademarks and slots	
Scheduled airline and tourism operations	9,822	9,826	3,294	3,294
Global capacity and aircraft trading	7,851	10,352	1,192	2,870
Shared services	639	641	0	0
Total goodwill	18,312	20,819	4,486	6,164

The recoverable amounts of cash-generating units was based on their value in use. Value in use was determined by discounting the future cash flows generated from the continuing use of the units. Cash flows were projected based on actual operating results and a 5-year business plan. Cash flows were extrapolated for determining the residual value using a constant growth rate which was consistent with the long-term average growth rate for the industry. Management believes that this forecast period was justified due to the long-term nature of the business.

The values assigned to the key assumptions represent management's assessment of future trends in the airline, transportation and the tourism industry and are based on both external sources and internal sources (historical data). Value in use was based on the following key assumptions:

	Scheduled airline and tourism operations	Global capacity and aircraft trading	Shared services
Long term growth rate	4.0%	3.9%	4.0%
Revenue growth:			
Weighted average 2009	9.6%	5.7%	14.0%
2010 - 2013	3.5%	2.7%	6.8%
WACC	9.3 - 12.6%	8.9 - 10.5%	11.5%
Debt leverage	51.7%	53.2%	74.5%
Interest rate	4.5 - 7.2%	3.7 - 4.4%	7.1%

21. contd.:

Changes in key assumptions would have the following impact on the carrying amount of goodwill:

	Scheduled airline and tourism operations	Global capacity and aircraft trading	Shared services
WACC +1%	(672)	(1,033)	0
EBITDA - 5%	(431)	(447)	0

22. Investments in associates

Summary of aggregate financial information for significant associates, not adjusted for the percentage ownership held by the Group:

	Ownership 2009	2008
Barkham Associates SA	49%	49%
China Ice No 1 ehf. - bought 100% from Jan 2009	100%	40%
China Ice No 2 ehf. - bought 100% from Jan 2009	100%	40%
China Ice No 3 ehf. - bought 100% from Jan 2009	100%	40%
China Ice No 4 ehf. - bought 100% from Jan 2009	100%	40%
China Ice No 5 ehf. - bought 100% from Jan 2009	100%	40%
China Ice No 6 ehf. - bought 100% from Jan 2009	100%	40%
EBK ehf.	25%	25%
Icesing ehf.	49%	49%
Siglo FIJ Ltd. - bought 100% from July 2009	100%	49%
Siglo FIR Ltd. - bought 100% from July 2009	100%	49%
Siglo FIU Ltd. - bought 100% from July 2009	100%	49%
Tjarnir ehf.	22%	22%
Assets	3,006	7,373
Liabilities	2,306	6,356
Revenues	473	1,763
Expenses	359	1,034
Net profit	114	729
Share of profit of associates	48	312

23. Prepaid aircraft acquisitions

Prepaid aircraft acquisitions in the statement of financial position is for the purchase of four Boeing 787 Dreamliner aircrafts to be delivered in the year 2012, 2013 and 2014. The Company has capitalised borrowing cost amounting to ISK 173 million related to these prepayments based on the average USD interest rate which was 6.3% at year-end. The Company also has an option to purchase three additional 787 Dreamliner aircrafts.

24. Long-term cost

Long-term cost corresponds to amounts paid for heavy maintenance of leased aircraft and is expensed over the life of the lease of the aircraft. Long-term cost will be expensed as follows:

	2009	2008
Long-term cost	2,208	3,338
Expensed in 2010 / 2009	(861)	(1,309)
Total long-term cost	1,347	2,029

Long-term cost will be expensed as follows:

	2009	2008
Expensed in 2009	-	1,309
Expensed in 2010	861	1,192
Expensed in 2011	608	598
Expensed in 2012	313	203
Expensed in 2013	160	4
Expensed in 2014	175	4
Subsequent	91	28
Total long-term cost, including current maturities	2,208	3,338

25. Long-term receivables and deposits

Long-term receivables consist of notes, deposits for aircraft and engine lease and various other travel related security fees.

Long-term receivables and deposits are specified as follows:

	2009	2008
Loans, effective interest rate 7.3% / 7.6%	476	611
Deposits	3,032	3,323
	3,508	3,934
Current maturities of long-term receivables	(59)	(100)
Long-term receivables and deposits total	3,449	3,834

Long-term receivables contractual repayments are specified as follows:

	2009	2008
Repayments in 2009	-	100
Repayments in 2010	59	44
Repayments in 2011	505	728
Repayments in 2012	291	420
Repayments in 2013	322	345
Repayments in 2014	2,091	1,920
Subsequent	240	377
Total loans, including current maturities	3,508	3,934

Long-term receivables and deposits denominated in currencies other than the functional currency comprise ISK 3,277 million (2008: ISK 5,841 million).

26. Inventories

Inventories are specified as follows:

	2009	2008
Spare parts	957	1,879
Other inventories	436	430
Inventories total	1,393	2,309

In 2009 the write-down of inventories to net realisable value amounted to ISK 518 million (2008: 46 million). The write-down is included in aircraft maintenance expenses and other operating expenses.

27. Trade and other receivables

Trade and other receivables are specified as follows:

	2009	2008
Trade receivables	6,613	8,789
Current maturities of long term-receivables	59	100
Restricted cash	1,875	409
Other receivables	1,178	4,538
Trade and other receivables total	9,725	13,836

At 31 December 2009 trade receivables are shown net of an allowance for doubtful debts of ISK 448 million (2008: ISK 825 million).

Receivables denominated in currencies other than the functional currency comprise ISK 4,666 million (2008: ISK 4,780 million) of trade receivables.

The Group's exposure to credit and currency risks, and impairment losses related to trade and other receivables is disclosed in note 42.

28. Prepayments

Prepaid expenses which relates to subsequent periods amounted to ISK 1,350 million (2008: ISK 2,536 million) at year end. The prepayments consist mainly of insurance expenses and prepaid rental expenses.

29. Cash and cash equivalents

Cash and cash equivalents are specified as follows:

	2009	2008
Bank deposits	1,877	3,743
Marketable securities	0	90
Cash on hand	32	232
Cash and cash equivalents total	1,909	4,065

30. Equity

The Company's share capital amounts to ISK 1,000 million as decided in its Articles of Association. The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share of one ISK.

On 6 August 2009 the Company's shareholders meeting authorized the Board of Directors to increase the shareholders capital by 4,000 million shares. The subscription rate can be decided by means of invitation to tender for new shares. Shareholders may pay, partially or in full, for the shares by means of set-off of indebtness, as may be further decided by the Board of Directors. This authorized share capital increase is part of the Company's plan, in cooperation with its largest shareholder and creditor, to improve the Company's debt maturity profile and equity ratio. This authorization is valid until 1 July 2010.

Share capital and share premium

Share premium represents excess of payment above nominal value (ISK 1 per share) that shareholders have paid for shares sold by the Company. According to Icelandic Companies Act, 25% of the nominal value of share capital must be held in reserve which can not be paid out as dividend to shareholders.

Share option reserve

The reserve includes the accrued part of the fair value of share options. This reserve is reversed if share options are forfeited and is transferred to share premium if share options are exercised.

Hedging reserve

The hedging reserve comprises the effective portion of the cumulative net change in the fair value of cash flow hedging instruments related to hedged transactions that have not yet occurred.

30. contd.:

Translation reserve

The translation reserve comprises all foreign currency differences arising from the translation of the financial statements of foreign operations, as well as from the translation of liabilities that hedge net investment in a foreign subsidiary.

31. Earnings per share

Basic earnings per share is calculated by dividing the net profit attributable to equity holders of the Parent by the weighted average outstanding number of shares during the period and shows the earnings per each share. The calculation of diluted earnings per share takes into consideration the issued convertible notes when calculating the share capital.

	2009	2008
Basic earnings per share:		
Loss for the period attributable to equity holders of the Parent	(10,319)	(7,998)
Average share capital	975	978
Earnings per share of ISK 1	(10.58)	(8.18)

Diluted earnings per share is equal to earnings per share as the conversion of convertible notes is not dilutive.

Loss attributable to ordinary equity holders of the parent company:

	2009	2008
Loss for the year attributable to equity holders of the Parent	(10,319)	(7,998)
Discontinued operations	6,681	(1,437)
Total	(3,638)	(9,435)

Weighted average number of ordinary shares

in million shares

	2009	2008
Issued ordinary shares at beginning of year	975	981
Effect of bought own shares	0	(3)
Weighted average number of ordinary shares at 31 December	975	978

Weighted average number of ordinary shares (diluted)

in million shares

	2009	2008
Weighted average number of ordinary shares (basic)	975	978
Effect of share options	0	0
Weighted average number of ordinary shares (diluted) at 31 December	975	978

Loss per share:

	2009	2008
Loss per share (ISK)	(10.94)	(7.64)
Diluted loss per share (ISK)	(10.94)	(7.64)

Loss per share from continuing operations:

	2009	2008
Basic loss per share (ISK)	(4.09)	(9.11)
Diluted loss per share (ISK)	(4.09)	(9.11)

32. Loans and borrowings

This note provides information about the contractual terms of the Group´s interest-bearing loans and borrowings, which are measured at amortised cost. For more information about the Group´s exposure to interest rate, foreign currency and liquidity risk, see note 42.

	2009	2008
Non-current loans and borrowings are specified as follows:		
Secured bank loans	11,211	23,963
Unsecured loans	2,727	1,579
Convertible notes	1,947	1,918
	15,885	27,460
Current maturities	(2,209)	(4,560)
Total non-current loans and borrowings	13,676	22,900
Current loans and borrowings are specified as follows:		
Current maturities of non-current liabilities	2,209	4,560
Short-term notes	1,160	3,681
Short-term loans from credit institutions	19,345	12,494
Total current loans and borrowings	22,714	20,735
Total loans and borrowings	36,390	43,635

Due to breach of covenants at year end, loans amounting to ISK 8,338 million have been reclassified as short-term loans. As disclosed in note 53 the group is working on restructuring its financial positions in cooperation with its major creditors.

33. Secured bank loans are specified as follows:

	Average interest rates	Total remaining balance 2009	Average interest rates	Total remaining balance 2008
Debt in USD	5.1%	10,936	5.3%	20,776
Debt in EUR	0.0%	0	4.3%	1,995
		10,936		22,771
Debt in ISK indexed	7.1%	275	6.7%	808
Debt in ISK not indexed	0.0%	0	18.0%	384
Total secured bank loans		11,211		23,963

34. Repayments of loans and borrowings are specified as follows:

	2009	2008
Repayments in 2009	-	20,735
Repayments in 2010	22,714	3,609
Repayments in 2011	6,310	8,308
Repayments in 2012	1,741	1,922
Repayments in 2013	1,886	2,642
Repayments in 2014	3,530	6,195
Subsequent repayments	209	224
Total loans and borrowings	36,390	43,635

35. Convertible notes

Convertible notes are specified as follows:

	2009	2008
Proceeds from issue of convertible notes - nominal amount	2,000	2,000
Transaction cost	(39)	(39)
Net proceeds	1,961	1,961
Amount classified as equity	(110)	(110)
Expensed transaction cost	96	67
Carrying amount of liability	1,947	1,918

Convertible notes were issued in October 2006. The nominal amount in ISK will be paid in a single amount in 2011. They are convertible at the option of the holder into ordinary shares over the 5 year period at the price ISK 29.7 per share, 20% each year. The effective interest was 17.5% at year-end.

36. Prepayments

Prepayments at the end of the year consist of deposits from 3rd party in relation to future aircraft transactions.

37. Long-term payables

Long-term payables corresponds to estimated cost of overhauling engines of leased aircraft and security deposits from charter contracts. Long term obligation at year end 2009 amounts to ISK 3,688 million (2008: ISK 2,026 million) and short term obligation, which is included in other payables amounts to 1,589 million (2008: ISK 1,695 million).

38. Deferred income tax asset (liability)

The deferred income tax asset (liability) is specified as follows:

	2009	2008
Deferred income tax liability 1.1.	(23)	(134)
Additions through business combination	0	218
Exchange rate difference	(143)	(529)
Income tax recognised in profit or loss	485	(643)
Income tax recognised in equity	(332)	1,065
Assets held for sale	153	0
Deferred income tax asset (liability) 31.12.	140	(23)

Deferred tax assets and liabilities is attributable to the following:

	Assets		Liabilities		Net	
	2009	2008	2009	2008	2009	2008
Operating assets	0	319	(1,801)	(2,107)	(1,801)	(1,788)
Intangible assets	0	24	(195)	(62)	(195)	(38)
Derivatives	67	420	0	0	67	420
Trade receivables	6	38	0	(21)	6	17
	73	801	(1,996)	(2,190)	(1,923)	(1,389)
Tax loss carry-forwards	2,096	1,200	0	0	2,096	1,200
Other items	0	193	(33)	(27)	(33)	166
Deferred income tax	2,169	2,194	(2,029)	(2,217)	140	(23)

38. contd.:

	1 January 2009	Recognised in income statement	Exchange rate difference	Transferred to assets held for sale	Recognised in equity	31 December 2009
Operating assets	(1,788)	(365)	2	350	0	(1,801)
Intangible assets	(38)	(157)	0	0	0	(195)
Derivatives	420	(13)	(8)	0	(332)	67
Trade receivables	17	17	0	(28)	0	6
Tax loss carry-forwards	1,200	1,014	(106)	(12)	0	2,096
Other items	166	(11)	(31)	(157)	0	(33)
	(23)	485	(143)	153	(332)	140

	1 January 2008	Recognised in income statement	Exchange rate difference	Additions through business combination	Recognised in equity	31 December 2008
Operating assets	(1,453)	(489)	212	(58)	0	(1,788)
Intangible assets	(91)	(9)	19	43	0	(38)
Derivatives	5	(648)	(2)	0	1,065	420
Trade receivables	(34)	24	7	20	0	17
Tax loss carry-forwards	1,339	521	(835)	175	0	1,200
Other items	100	(42)	70	38	0	166
	(134)	(643)	(529)	218	1,065	(23)

39. Share-based payments

The terms and conditions of grants are as follows:

Grant date / employees entitled	Number of instruments in thousands	Vesting conditions	Contractual life of option
Options granted 2007	60,340	12/24/36 months service	3 years
Total	60,340		

All options are to be settled by physical delivery of shares. Options vesting in 12 months can be exercised three times during the contractual life, at the end of each 12 month period. Accordingly 24 month options can be exercised two times and the 36 month options only once at the end of the 36 month period.

The number and weighted average exercise price of share options is as follows in thousands:

	Weighted average exercise price 2009	Number of options 2009	Weighted average exercise price 2008	Number of options 2008
Outstanding at 1 January	27.5	28,253	27.5	51,270
Forfeited during the year	27.5	(14,127)	27.5	(23,017)
Outstanding at 31 December	27.5	14,126	27.5	28,253
Exercisable at 31 December		0		0

39. contd.:

The fair value of services received in return for share options granted based on the fair value of share options granted, measuring using a Black-Scholes model, with the following inputs:

	Granted 2008
Fair value at grant date, average 12, 24, and 36 months options, average	5.85
Share price	27.5
Exercise price	27.5
Expected volatility (weighted average volatility)	29.0%
Option life (expected weighted average life)	2 years
Expected dividends per share	ISK 1
Risk-free interest rate (based on government bonds)	11.7%

Total recognised expenses for the year arising from share-based payment transactions amounted to ISK 33 million (2008: ISK 60 million) including forfeited options during the year and accrued social security expenses related to share-based payments. All outstanded options at year end 2009 were forfeited in January 2010.

40. Trade and other payables

Trade and other payables are specified as follows:

	2009	2008
Trade payables	3,464	7,898
Derivatives used for hedging	369	5,534
Other payables	10,559	10,687
Total trade and other payables	14,392	24,119

The Group's exposure to currency and liquidity risk related to trade and other payables is disclosed in note 42.

41. Deferred income

Sold unused tickets, fair value of unutilized frequent flyer points and other prepayments are presented as deferred income in the statement of financial position.

42. Financial risk management

Overview

The Group has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- market risk

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies, and processes for measuring and managing risk, and the Group's management of capital. Further quantitative disclosures are included throughout these consolidated financial statements.

Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board has established the Risk Management Commitee, which is responsible for developing and monitoring the Group's risk management policies. The committee reports regularly to the Board of Directors on its activities.

42. contd.:

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers.

Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer.

Credit risk is linked to trade receivables, investment of liquid assets and agreements with financial institutions related to financial operations, e.g. hedging. The relative spread of trade receivables across counterparties is also crucial for credit risk exposure. The risk involved is directly related to the fulfilment of outstanding obligations of the Group’s counterparties. The Group is aware of potential losses related to credit risk exposure and chooses its counterparties subject to business experience and satisfactory credit ratings.

The Group establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loss component established for groups of similar assets in respect of losses that have been incurred but not yet identified. The collective loss allowance is determined based on historical data of payment statistics for similar financial assets.

Guarantees

The Group's policy is to provide financial guarantees only to wholly-owned subsidiaries.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	Notes	2009	2008
Long-term receivables and deposits	23	3,449	3,834
Trade and other receivables	25	9,725	13,836
Cash and cash equivalents	27	1,909	4,065
		15,083	21,735

42. contd.:

Impairment losses

The aging of trade receivables at the reporting date was:

	Gross 2009	Impairment 2009	Gross 2008	Impairment 2008
Not past due	5,302	(27)	5,637	0
Past due 0-30 days	380	(9)	1,278	0
Past due 31-120 days	773	(71)	1,477	(160)
Past due 121-365 days	288	(162)	653	(266)
More than one year	318	(179)	569	(399)
	7,061	(448)	9,614	(825)

The movement in the allowance for impairment in respect of trade receivables during the year was as follows:

	2009	2008
Balance at January	825	241
Discontinued operations	(313)	0
Impairment loss (reversed) recognized	(64)	584
Balance at 31 December	448	825

Based on historical default rates, the Group believes that no impairment allowance is necessary in respect of trade receivables not past due or past due by 30 days; a significant part of the balance relates to customers that have a good track record with the Group.

The allowance account in respect of trade receivables is used to record impairment losses unless the Group is satisfied that no recovery of the amount owing is possible; at that point the amount is considered irrecoverable and is written off against the financial asset directly.

Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group policy is to divide liquid assets into three classes depending on duration and match them against the Group’s liquidity preferences laid out by the management on annual basis. Classes one and two include the estimated minimum of accessible funds for operational liquidity, but differ in terms of asset duration. Class three includes assets of longer duration for strategic liquidity, such as medium term investments. The amounts in each class of assets are targeted once a year with reference to a number of economic indicators, most importantly the annual level of fixed costs, and turnover.

42. contd.:

The following are the contractual maturities of financial liabilities, including estimated interest payments and payments of off-balance sheet items.

2009	Carrying amount	Contractual cash flows	Within 12 months	1-2 years	2-5 years	After 5 years
Financial liabilities						
Unsecured bond issue	18,807	(18,807)	(18,807)	0	0	0
Secured bank loans	11,211	(13,266)	(2,884)	(2,161)	(8,004)	(217)
Convertible notes	1,947	(2,344)	(229)	(2,115)	0	0
Payables and prepayments ..	20,334	(20,334)	(14,392)	(2,252)	(3,690)	0
	52,299	(54,751)	(36,312)	(6,528)	(11,694)	(217)
Off balance sheet liabilities						
Operating lease payments ...	0	(38,137)	(12,502)	(10,939)	(13,489)	(1,207)
Pre delivery payments	0	(18,531)	(839)	(1,966)	(15,726)	0
	0	(56,668)	(13,341)	(12,905)	(29,215)	(1,207)
Exposure to liquidity risk	52,299	(111,419)	(49,653)	(19,433)	(40,909)	(1,424)
2008						
Financial liabilities						
Unsecured bond issue	16,175	(16,175)	(16,175)	0	0	0
Secured bank loans	25,542	(31,396)	(5,852)	(4,674)	(14,379)	(6,491)
Convertible notes	1,918	(2,189)	0	0	(2,189)	0
Payables and prepayments ..	28,334	(28,334)	(24,119)	(2,026)	(2,189)	0
	71,969	(78,094)	(46,146)	(6,700)	(18,757)	(6,491)
Off balance sheet liabilities						
Operating lease payments ...	0	(66,556)	(17,345)	(14,672)	(28,302)	(6,237)
Pre delivery payments	0	(23,287)	(876)	(815)	(14,907)	(6,689)
	0	(89,843)	(18,221)	(15,487)	(43,209)	(12,926)
Exposure to liquidity risk	71,969	(167,937)	(64,367)	(22,187)	(61,966)	(19,417)

Unused loan commitments at year end 2009 amounted to ISK 155 million.

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and fuel price will affect the Group's operations. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Group uses derivatives in order to manage market risks. All such transactions are carried out within the guidelines set by the Board of Directors. The Group seeks to apply hedge accounting in order to manage volatility in profit or loss.

42. contd.:

Currency risk

The Group is exposed to currency risk on sales, purchases and borrowings that are denominated in a currency other than the respective functional currencies of Group entities.

The Group seeks to reduce its foreign exchange exposure arising from transactions in various currencies through a policy of matching, receipts and payments in each individual currency. Then internal trades across the range of subsidiaries are arranged by the Group as possible. Nevertheless, the USD cash inflow falls short of USD outflow due to fuel costs, lease and capital related payments which are to a large extent denominated in USD. This shortage is financed by a surplus of European currencies, most importantly EUR and Scandinavian currencies. The Group follows a hedging policy of 40-80% of net exposure with a 12 month horizon and uses a portfolio of instruments, mainly forwards and options. Market failures as well as added opportunity costs has jeppordized hedging activities and currently no FX hedge contracts are in place.

Exposure to currency risk

The Group's exposure to foreign currency risk was as follows based on notional amounts in major currencies:

2009	**USD**	**EUR**	**DKK**	**SEK**	**NOK**	**CZK**
Net bal. sheet exposure	1,786	(2,199)	279	337	331	545
Estim. forecast revenue	27,302	15,356	3,618	3,220	2,985	0
Estim. forecast purchases	(40,850)	(5,675)	(1,644)	(340)	(455)	0
Net currency exposure	(11,762)	7,482	2,254	3,218	2,861	545

2008	**USD**	**EUR**	**DKK**	**SEK**	**NOK**	**CZK**
Net bal. sheet exposure	5,563	(1,271)	132	120	53	(2,142)
Estim. forecast revenue	45,820	30,031	2,064	1,973	1,412	27,296
Estim. forecast purchases	(70,405)	(23,421)	(655)	(469)	(467)	(9,364)
Forward FX contracts	3,997	(3,997)	0	0	0	0
Net currency exposure	(15,025)	1,342	1,541	1,594	998	15,790

The following significant exchange rates applied during the year:

	Average rate		**Reporting date spot rate**	
	2009	**2008**	**2009**	**2008**
USD	123.93	88.16	125.21	121.61
EUR	172.99	127.69	180.41	170.09
DKK	23.26	17.15	24.25	22.84
SEK	16.35	13.23	17.63	15.64
NOK	19.86	15.46	21.77	17.42
CZK	6.54	5.48	6.69	6.38

42. contd.:

Sensitivity analysis

A 10% strengthening of the ISK against the following currencies at 31 December would have increased (decreased) post-tax equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. This analysis is performed on the same basis for 2008.

	Equity	Profit or loss
2009		
USD	964	964
EUR	(614)	(614)
DKK	(185)	(185)
SEK	(263)	(263)
NOK	(235)	(235)
CZK	(45)	0
2008		
USD	1,277	1,517
EUR	(114)	45
DKK	(131)	(131)
SEK	(135)	(135)
NOK	(85)	(85)
CZK	(1,342)	0

A 10% weakening of the ISK against the above currencies would have had the equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remain constant.

Interest rate risk

The largest share of outstanding long term loans, carrying 3-6 months floating interest rates are directly related to aircraft financing and denominated in USD. That is a consequence of the fact that the most liquid market for commercial aircraft denominates prices in USD. The Group follows a policy of hedging 40-80% of interest rate exposure. Swap contracts are mainly used to exchange floating rates for fixed up to 5 years ahead, which currently amounts to USD 65 million and carry on average 4.65% interest rates. Due to exceptional financial market circumstances, extensions of current swap contracts have not been made available and they will expire in 2010 and 2011.

At the reporting date the interest rate profile of the Group´s interest bearing financial instruments was:

	Carrying amount	
	2009	2008
Fixed rate instruments		
Financial assets	3,449	3,834
Financial liabilities	(331)	(5,617)
	3,118	(1,783)
Variable rate instruments		
Financial liabilities	(36,059)	(38,018)

42. contd.:

Fair value sensitivity analysis for fixed rate instruments
The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss, and the Group does not designate derivatives (interest rate swaps) as hedging instruments under a fair value hedge accounting model. Therefore a change in interest rates at the reporting date would not affect profit or loss.

A change of 100 basis points in interest rates would have increased or decreased equity by 50 million (2008: 247 million).

Cash flow sensitivity analysis for variable rate instruments
A change of 100 basis points in interest rates at the reporting date would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for 2008.

	Equity	
	100 bp increase	100 bp decrease
2009		
Variable rate instruments	49	(50)
Total	49	(50)
2008		
Variable rate instruments	122	(125)
Total	122	(125)

Other market risk

Fuel price risk
The Group maintains a policy of hedging fuel price exposure by a ratio of 40-80% by using swaps and options. Financial market conditions have been such that the Group has not been offered feasible hedge instruments in 2009 and has therefore remained fully exposed to fuel price volatility since November 2009. The oil market was fairly stable for the second half of the year compared to 2008 and therefore the Group was not burdened by the low hedge ratio.

Sensitivity analysis
The following table demonstrates the sensitivity of financial instruments to a reasonably possible change in fuel prices, with all other variables held constant, on profit before tax and equtiy:

	2009	2008	2009	2008
	Effect on equity		Effect on profit before tax	
Increase in fuel prices by 10 %	0	412	0	(60)
Decrease in fuel prices by 10 %	0	(414)	0	67

Capital management
The Board's policy is to maintain a strong capital base so as to sustain future development of the business.

The Board's target is that managers of the Group hold the Company's ordinary shares. The Board has entered into share option agreements with managers for that purpose. At year-end 2009 the managers of the Group hold ISK 0.5 million of the shares and have entered into share option agreements for ISK 14.1 million as disclosed in note 39.

The Board seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position.

43. Financial instruments and fair values

The fair values of financial assets and liabilities, together with the carrying amounts shown in the statement of financial position, are as follows:

	2009		2008	
	Carrying amount	Fair value	Carrying amount	Fair value
Loans and receivables	13,174	13,174	19,890	19,890
Cash and cash equivalents	1,909	1,909	4,065	4,065
Unsecured bond issue	(19,345)	(19,345)	(12,494)	(12,494)
Secured bond loans	(11,211)	(11,211)	(25,542)	(25,542)
Convertible notes	(1,947)	(1,947)	(1,918)	(1,918)
Payables and prepayments	(20,334)	(20,334)	(26,773)	(26,773)
Total	(37,754)	(37,754)	(42,772)	(42,772)

The basis for determining fair values is disclosed in note 4.

44. Off-balance sheet items

As a lessee the Group has in place operating leases for 19 aircrafts at the end of December 2009. The leases are for fifteen Boeing 757 aircrafts and four Boeing 767 aircrafts. The Group also has in place operating leases for storage facilities, accommodations, equipment and fixtures for its operations, the longest until the year 2018. At the end of the year 2009 the leases are payable as follows:

	Real estate	Aircrafts	Other	Total 2009	Total 2008
In the year 2009	-	-	-	-	17,345
In the year 2010	1,202	10,882	418	12,502	14,672
In the year 2011	1,082	9,656	201	10,939	12,710
In the year 2012	998	7,848	121	8,967	9,870
In the year 2013	925	2,757	97	3,779	5,722
In the year 2014	403	248	90	741	4,404
Subsequent	1,119	0	90	1,209	1,833
Total	5,729	31,391	1,017	38,137	66,556

45. As a lessor the Company leases aircrafts on wet, dry and other various leases, both on short and long term leases. Lease income for the year 2009 amounted to ISK 19,425 million (2008; ISK 16,951 million).

46. Capital commitments

The Group has agreements with Boeing regarding the purchase of two Boeing 737-800 aircraft to be delivered in 2010 and five Boeing 787 Dreamliner aircrafts to be delivered in the year 2012 and in 2015. The Group also has an option to purchase three additional 787 Dreamliner aircrafts.

47. Litigations and claims

During the first half of 2007 the Competition Authorities fined the subsidiary, Icelandair ehf., due to an alleged breach of the competition law. The penalty amounts to ISK 130 million after it was lowered by 30% after the decision was appealed. Icelandair Group hf. took this case to court which ruled in Febuary 2010 to dismiss the penalty. The court ruling has not been appealed to Supreme court.

48. Related parties

52. Additional cash flow information:

	2009	2008
Interests paid	3,083	3,186
Interests received	113	200

53. Restructuring

For the past year the Company has been working with its main creditors on improving its debt maturity profile and equity ratio. As a part of the restructuring plan the Board of Directors has in addition with the dilution of Travel Service (note 49), proposed redefinition of the business model of the company, leading to subsidiaries being split between core and non-core. Accordingly the main focus of the Group will be on scheduled airline operations and tourism evolving around Iceland, and related services. Smartlynx Latvia, and the remaining shares in Travel Service are defined as non-core, leading to reclassification on these companies financial results for the year 2009 as discontinued operations as disclosed in note 6.

In March 2010 Icelandair Group hf. and its largest creditors, Íslandsbanki and Glitnir Bank hf., entered into framework agreement which sets forth the basic terms and conditions and the intensions of the Parties regarding the financial restructuring plan. The objectives of the restructuring plan are as follows:

- Debts amounting to ISK 3.6 billion will be converted to equity.
- Assets valued at ISK 7.6 billion, shares in Travel Service, Bluebird and IG Invest will be used to lower debts amounting to the same amount.
- Loan agreements with Íslandsbanki and Glitnir will be restated in the way that suits the Company´s maturity and currency risk profile.
- The Company will raise new share capital in 2010 from new investors in open and closed offerings for a total amount in the range of ISK 8-10 billion.
- Holders of issued bonds amounting to ISK 1.7 billion are asked to convert the debt to equity or extend the maturity of debts.

The Company commits in the agreement to hold a shareholders‘ meeting to obtain approval for the share capital increase set forth in the agreement.

If the restructuring according to the agreement will not be completed and the debt maturity profile and financial position of the Company will not be improved in other way it may cast doubt about the Company's ability to continue as a going concern.

54. Other matters

During the first quarter of 2010 the Company reclassified its shares in Siglo FIU, Siglo FIR and Siglo FIJ as part of the continuing operations. As a result the assets, mainly aircrafts, and the liabilities will be part of the statement of financial position in the year 2010.

55. Ratios

The Group's primary ratios at year end are specified as follows:

Working capital ratio	0.58	0.43
Equity ratio	0.16	0.20
