IT – Equity Derivatives: Technical change of Index weekly options (Correction)

This is a correction of IT Notice: [IT – Equity Derivatives: Technical change of Index weekly options](#) published on December 6, 2018. The correction concerns what was stated on page 4 in the IT Notice Appendix regarding Instrument Class.

The correct Instrument Classes are (incorrect Instrument Class within parenthesis):

OMXS30CO1W (~~OMXS30WCO1~~)
OMXS30CO2W (~~OMXS30WCO2~~)
OMXS30CO4W (~~OMXS30WCO4~~)
OMXS30CO5W (~~OMXS30WCO5~~)
OMXS30PO1W (~~OMXS30WPO1~~)
OMXS30PO2W (~~OMXS30WPO2~~)
OMXS30PO4W (~~OMXS30WPO4~~)
OMXS30PO5W (~~OMXS30WPO5~~)

Please note that the above correct Instrument Classes have been used in external test systems (EXT1 and EXT3) for the new index weekly options all along. Therefore, in the test systems nothing will change in terms of configuration for the new index weekly options.

For the sake of clarity, the above correct Instrument Classes will be used in Production from the first day of trading with the new configuration which is February 11, 2019.

Please find an updated appendix attached to this notice.
