Saab receives order for Gripen technology study

Saab has received an order from the Swedish Defence Materiel Administration, FMV, for studies during 2009 regarding future capabilities for the Gripen multi-role fighter. The contract value is 400 million SEK.

This order is a continuation of a project that started last year. It will form the base for the Swedish Armed Forces decisions regarding what capabilities and technologies to incorporate in the Gripen system to meet new demands and future threats.

Saab serves the global market with world-leading products, services and solutions ranging from military defence to civil security. Saab has operations and employees on all continents and constantly develops, adopts and improves new technology to meet customers' changing needs.
