

Net Insight receives expansion and upgrade orders for European media network

STOCKHOLM, Sweden – Net Insight, a leading developer of efficient and scalable transport solutions for media, IP and broadcast networks, has received orders from a major European media network operator to extend and upgrade the existing international media transport network.

The European media network operator is a leading provider of content management and worldwide transmission services for professional broadcast delivery. The operator will now further expand and upgrade the existing international network, based on Net Insight's Nimbra platform.
