The result of the investigations in Solar Deutschland GmbH

4 August 2010

During the first half of 2010, the Solar Group has performed replacements in the management of the German subsidiary.

In connection with the preparation of the quarterly report for Q2 2010, it was established that the accounts in Solar Deutschland GmbH were not presented in accordance with the accounting policies of the Solar Group. The error relates to the statement of an estimated bonus from suppliers in 2007 and affects the equity of the Solar Group negatively by € 1.4m, with an increase of the trade payables by a similar amount.

On Thursday 19 August, the Solar Group will publish its Quarterly report Q2 2010 where the necessary adjustments have been incorporated in the figures from the previous year.

Yours faithfully,
Solar A/S

Flemming H. Tomdrup
