## To NASDAQ OMX København A/S

Today, the Board of Directors of DLR Kredit A/S approved the Financial Statements for the first half of 2010.

We enclose the Interim Report for DLR Kredit A/S covering the period 1 January - 30 June 2010.

Yours sincerely
DLR Kredit A/S

Bent Andersen<br>Managing Director and CEO

Jens Kr. A. Møller<br>Managing Director

## Interim Report H1 2010

## Management's Review

## H1 2010 in headlines

- Satisfactory financial results - DKK 254.4m before tax
- Continuously increasing loan portfolio
- Net lending amounted to DKK 2.3bn
- Reduced level of costs
- Core earnings reduced by 27 pc compared to H1 2009
- Issuing of senior debt covered by government downgrades the expectations for 2010

## Lending activities in H1 2010

At 30 June 2010, total lending at fair value amounted to DKK 133.7bn against DKK 130.6 bn at year-end 2009.

In the first half of 2010, net lending amounted to DKK 2.3bn (nominal), a decrease of 57 pc on the corresponding period in 2009. There was a significant but also expected fall in net lending to agricultural properties, but an increase in net lending to private rental housing properties as well as office and business properties. Net lending was distributed with 24 pc on agricultural properties and 76 pc on urban trade including co-operative housing properties.

## Profit and loss account

Net interest was reduced from DKK 509.8m in H1 2009 to DKK 435.2m in H1 2010, whereas fee and commission income (net) showed expenses of DKK 137.3m in H1 2010 compared with expenses of DKK 121.6m for the corresponding period in 2009.

The decrease in net interest income is primarily attributable to substantial interest expenses on the subordinated debt (government hybrid core capital) raised in 2009, which is only partly offset by increased commission income.

Total costs (staff costs and administrative expenses, depreciation and impairment losses on tangible assets and other operating expenses) showed a decrease in H1 2010 compared to H1 2009 and came to DKK 96.6m (H1 2009: DKK 107.7m).

DLR experienced a positive value adjustment of DKK 104.9m against an income of DKK 69.3 m in the corresponding period of 2009. This positive adjustment was primarily caused by the decreasing interest rate level during the first half of 2010.

Provisions for loan and receivable impairment etc. impact the figures for H 12010 negatively by DKK 61.4m against an expense of DKK 38.3m in H1 2009.

In H1 2010, DLR generated a pre-tax profit of DKK 254.4m against DKK 321.2m in H1 2009.

Tax on the profit for the period has been calculated at DKK 64.3m, resulting in a profit after tax for the period of DKK 190.1m against DKK 240.5m for the corresponding period of 2009. Based on the substantial interest expenses on the subordinated debt (government hybrid core capital), the profit for the period is considered satisfactory.

## Balance Sheet

At the end of June 2010, DLR's balance sheet amounted to DKK 137.8bn against DKK $149.3 b n$ at the end of 2009.

## Equity

At 30 June 2010, DLR's equity amounted to DKK 6,725.3m against DKK 6,533.9m at the end of 2009.

## Solvency

At the end of H1 2010, DLR's capital base amounted to DKK 12,344.1m, while weighted assets have been calculated at DKK 105,075.6m, corresponding to a solvency ratio of 11.7 pc (including profit for the period) at the end of H 12010.

## Capital Structure

At the end of H1 2010, DLR's total subordinated debt amounted to DKK 5,620.9m. This amount consists of hybrid core capital amounting to DKK 791.8 m (EUR 100m adjusted for the fair value of interest rate swaps entered into to hedge cash flows on the hybrid core capital) and government hybrid core capital (Banking Package II) of DKK 4,829.1m.

## Risk exposure

DLR's credit risk and market risk are estimated as limited. This is due to both a solid, legal basis and to DLR's internal credit policy guidelines. To this should be added the guarantee schemes that have been set up for DLR's various lending areas according to agreements with the banks that hold shares in DLR.

At the end of H1 2010, approximately 90 pc of DLR's total loan portfolio was comprised by loan loss guarantees. The bulk of the loans that are not comprised by guarantees usually have a low LTV value.

## Expectations for 2010

For 2010 as a whole, DLR Kredit budgets with core earnings (profit before value adjustments, impairment losses and tax) in the range of DKK 350-400m. DLR Kredit's outlook has been downgraded compared with the outlook announced in the Annual Report and the Stock Exchange Announcement for 2009, in which we expressed our expectations of core earnings in the interval DKK 400-450m. The downgrading is a consequence of costs in connection with the issuance of government-guaranteed senior debt totalling DKK 7.5bn. The senior debt has been issued to strengthen DLR's preparedness in terms of supplementary security on SDO loans if property prices should fall even further.

As a consequence of the continuing weak economic trends, we expect a largely unchanged level of losses and provisions for impairment for 2010.

## Accounting Policies

DLR's Interim Financial Statements have been prepared in accordance with the accounting rules for mortgage banks issued by the Danish Financial Supervisory Authority as well as the disclosure requirements for issuers of listed bonds specified by the NASDAQ OMX København.

The accounting policies are unchanged as compared with the Annual Report 2009, which may be downloaded from www.dlr.dk.

## Management's Statement on the Interim Financial Statements

Today, the Board of Directors and the Executive Board reviewed and approved the Interim Financial Statements for the period 1 January - 30 June 2010 of DLR Kredit A/S.

The Interim Financial Statements have been prepared in accordance with the accounting provisions for mortgage banks laid down by the Danish Financial Supervisory Authority and the additional disclosure requirements provided by the NASDAQ OMX København for issuers of listed bonds.

Management's review constitutes a fair review of the development in the Company's activities and financial position as well as a description of the most material risks and uncertainties that may influence the Company.

In our opinion, the accounting policies applied are appropriate and ensure that the Interim Financial Statements give a true and fair view of the Company's assets, liabilities, equity and financial position at 30 June 2010 and of the results of the Company's operations and cash flows for the period 1 January - 30 June 2010.

The Interim Financial Statements have not been subject to audit or review.

Copenhagen, 12 August 2010
